

Clarification Notice

HRSA-23-049, Rural Maternity and Obstetrics Management Strategies (RMOMS)

The following question was added to the FAQs for this NOFO to clarify the reference to cost report data and hospital-specific information.

The full FAQs document may be accessed on the HRSA website at the following link:

[FAQ: Rural Maternity and Obstetrics Management Strategies Program | HRSA](#)

What is the cost report data and hospital-specific information on page 32 of the NOFO referring to?

A prior version of the HRSA-23-049 NOFO had a requirement to submit cost report data and hospital-specific information, which has been removed. HRSA has removed the review criteria associated with cost report data and hospital-specific information to align with the project narrative requirements. You do not need to submit these data with your application. A modified version of the NOFO was released on 6/7/23 with the cost report data and hospital-specific information review criteria removed.
