

ANNEX #8: List of Communes						
This table shows current areas of engagement under REGIS-AG, and the DFSA communes as awarded. DFSA commune level investment may alter over time, depending on access and security. In order to indicate relative intensity of REGIS-AG historical investments, the table includes the number of supported producer organizations (poultry, small ruminants, and cowpea) and the number of other supported market actors (processors, collectors, traders, livestock market management committees, and agrodealers). The priority for M&N is consolidating prior REGIS-AG investment and comprehensive programming in DFSA communes. However, M&N activities are able to engage throughout the designated zone in pursuit of opportunities from a market or beneficiary perspective. M&N should work with whichever actors are interested and needed to ensure benefits accrue sustainably to the targeted, vulnerable rural populations in the RISE II and SDP zones. Some of these actors may be located outside the RISE II or SDP zones, such as major processors in the capital city or buyers in other countries.						
#	Region	Commune	ViMPlus DFSA	REGIS AG	REGIS-AG Partners	
					# of Producer Organizations	# of Other Market Actors
1	Sahel	Bani	No	Yes	14	8
