

Program Announcement for the Defense Health Agency

Epilepsy Research Program Virtual Post-Traumatic Epilepsy Research Center – Faculty Award

Funding Opportunity Number: HT942526ERPVPТЕРCF

Pre-Application Due: August 3, 2026

Application Due: August 17, 2026

This program announcement must be read in conjunction with the General Application Instructions, version [CD26_01](#).

Content

	Before You Begin	3
①	Basic Information Summarizes the <u>funding opportunity</u> , <u>funding details</u> , <u>submission deadlines and review dates</u>	4
②	Eligibility Details eligibility factors for the <u>applicant organization</u> and <u>Principal Investigator</u>	5
③	Program Description Describes the <u>program mission</u> and <u>intent of the Virtual Post-Traumatic Epilepsy Research Center – Faculty Award</u> ; provides <u>key award information</u> and <u>considerations</u> ; and outlines <u>funding details</u>	6
④	Application Contents Presents the two-step <u>application process</u> and instructions for preparing a <u>pre-application</u> and <u>full application</u>	12
⑤	Submission Requirements Provides <u>locations for application packages</u> , instructions for submitting <u>pre-applications</u> and <u>full applications</u> , and describes <u>application verification</u>	20
⑥	Application Review Information Outlines the processes for application <u>compliance review</u> , <u>pre-application</u> and <u>full application</u> selection/notification, and <u>risk assessment</u> . Also, details the review criteria for <u>pre-application screening</u> and both tiers of the CDMRP application review process – <u>Peer Review</u> and <u>Programmatic Review</u>	22
⑦	Federal Award Notices Outlines what a successful applicant can expect <u>if recommended for funding</u>	27
⑧	Post-Award Requirements References <u>policy requirements</u> for funded research; outlines <u>reporting requirements</u> and restrictions related to <u>Principal Investigator changes</u> and <u>institutional award transfers</u>	28
⑨	Other Information Outlines criteria for administrative actions including application <u>rejection</u> , <u>modification</u> , <u>withdrawal</u> and <u>withhold</u>	30
	Appendix 1 Includes a checklist for all full application components to facilitate application submission	32
	Appendix 2 Acronym List	33

Before You Begin

- **Active [SAM.gov](#), [eBRAP.org](#) and [Grants.gov](#) registrations are required for application submission.** User registration for each of these websites can take several weeks or longer. Each applicant must ensure their registrations are active and up to date prior to application preparation.
- **Read this funding opportunity announcement in the order it is written before beginning to prepare application materials.** It is the responsibility of the applicant to determine whether the proposed research meets the intent of this funding opportunity and that all parties meet eligibility requirements.
- **To support application preparation, additional resources are available** including an application process [FAQ](#), a [Guide for Intragovernmental & Intramural Applicants](#) and a [CDMRP Video Series](#) detailing the application process.

1. Basic Information About the Funding Opportunity

Summary: The fiscal year 2026 (FY26) Epilepsy Research Program (ERP) seeks to advance post-traumatic epilepsy (PTE) research through development of investigators new to the PTE field. To accomplish this, the ERP is soliciting Faculty members to join the Virtual Post-Traumatic Epilepsy Research Center (ViP-TERC). The ERP ViP-TERC is a unique, interactive virtual research center providing intensive mentoring, national networking, collaborations, and a peer group for new PTE investigators. The overarching goal of the ViP-TERC is to develop successful, highly productive PTE researchers in a collaborative research and career development environment to enhance quality and expand quantity of the PTE research field.

Distinctive Features: This award mechanism focuses on *both* the Faculty member's research *and* career potential. The mechanism requires the Faculty member to designate a Career Guide. The Career Guide must have a track record of successful mentorship coupled with a strong record of funding and publications.

****NEW for FY26**** An investigator may be named on only **one** FY26 ERP Virtual Post-Traumatic Epilepsy Research Center – Faculty Award application as a Principal Investigator.

Funding Details: The Congressionally Directed Medical Research Programs (CDMRP) expects to allot roughly \$3.2M to fund approximately four Virtual Post-Traumatic Epilepsy Research Center – Faculty Award applications with total cost caps of \$800,000 per award. The maximum period of performance is 3 years. It is anticipated that awards made from this FY26 funding opportunity will be funded with FY26 funds, which will expire for use on September 30, 2032. Awards supported with FY26 funds will be made no later than September 30, 2027.

Submission and Review Dates and Times

- **Pre-Application (Letter of Intent) Submission Deadline:** 5:00 p.m. Eastern Time (ET), August 3, 2026
- **Application Submission Deadline:** 11:59 p.m. ET, August 17, 2026
- **End of Application Verification Period:** 5:00 p.m. ET, August 20, 2026
- **Peer Review:** October 2026
- **Programmatic Review:** December 2026

Announcement Type: Initial

Funding Opportunity Number: HT942526ERPVPTECF

Assistance Listing Number: 12.420

Basic Information | [Eligibility](#) | Program Description | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

2. Eligibility Information

2.1. Eligible Applicants

2.1.1. Organization

[Extramural](#) and [intramural U.S. Department of War \(DOW\)](#) organizations are eligible to apply, ***including foreign and domestic organizations, for-profit and nonprofit organizations, and public or private entities.***

2.1.2. Principal Investigator and Career Guide

- **Principal Investigator**

- Early-career investigators and investigators new to the post-traumatic epilepsy (PTE) field may be named by the organization as Principal Investigator (PI).
- The PI should be new to the field of PTE research as evidenced by only nominal publication and/or funding history in the field.
- Individuals affiliated with an eligible organization are eligible to be named PI on the application, regardless of ethnicity, nationality or citizenship status.

- **Career Guide**

- Must hold an independent research position.
- Must be a researcher that possesses qualifications, background, and experience relevant to the proposed research project as well as a track record for mentoring investigators in the field.
- There is no limit on the number of applications for which an individual may be named as Career Guide.
- The Director and Deputy Director of the Virtual Post-Traumatic Epilepsy Research Center (ViP-TERC) cannot be listed as a Career Guide.

2.2. Cost Sharing

Cost sharing is not an eligibility requirement.

2.3. Other

Awards are made to eligible **organizations**, not to individuals. Refer to the GAI for additional [recipient qualification requirements](#).

Section Shortcuts

3. Program Description

The Defense Health Agency Contracting Activity (DHACA) is soliciting applications to this funding opportunity using delegated authority provided by United States Code, Title 10, Section 4001 (10 USC 4001). The CDMRP is the program office managing this FY26 funding opportunity as part of the Epilepsy Research Program (ERP). The CDMRP is located within the Defense Health Agency Research and Development (DHA R&D), which is a part of the Department of Defense, DOD, herein referred to using the secondary title Department of War, DOW. Congress initiated the ERP in 2015 to provide support for longitudinal epidemiological research to better understand the incidence of PTE following a traumatic brain injury (TBI) and to improve patient care and outcomes. The FY26 ERP challenges the research community to (1) investigate topics related to epileptogenesis for the identification of mechanisms by which brain injury produces epilepsy; (2) study the prevention of PTE and concomitant comorbidities; and (3) develop innovative research tools or biomarkers to better detect, diagnose, or predict the development of PTE. Appropriations for the ERP from FY15 through FY24 totaled \$97.5 million (M). The FY26 appropriation is \$12M.

The ERP encourages collaboration among PTE researchers and urges the scientific community to utilize equitable partnerships with people living with PTE to maximize the translational and impact potential of proposed research. Applications from investigators within the DOW and applications involving multidisciplinary collaborations among academia, industry, the DOW, the U.S. Department of Veterans Affairs (VA) and other federal government agencies are highly encouraged. These relationships can leverage knowledge, infrastructure and access to unique clinical populations that the collaborators bring to the research effort, ultimately advancing research that is of significance to Service Members, Veterans, their Families and the American Public.

3.1. ERP Focus Areas

Applications submitted to the FY26 ERP must address at least one of the focus areas listed below.

- **Markers and Mechanisms of PTE**
 - Research focused on understanding the underlying biology of PTE, including:
 - Identification of acute or chronic biomarkers that are informed by or correlated with clinical observation and predict the development of epilepsy.
 - Investigation of biological mechanisms that can be targeted to prevent or interrupt epileptogenesis and seizure activity.
- **Epidemiological Characterization of PTE**
 - Population-level research to define the patterns, causes, and public health burden of PTE, including:
 - Identifying predictors for the development of epilepsy to inform clinical trial design and pre-clinical research priorities.
 - Assessing key patient outcomes, including the latency period before epilepsy onset, associated comorbidities and mortality rates.
 - Quantifying the impact of PTE on the quality of life for individuals, their families and/or their care partners.

Section Shortcuts

Basic Information | Eligibility | [Program Description](#) | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- **Longitudinal Studies of PTE Progression**
 - Studies tracking the evolution of PTE over time in individuals, including:
 - Assessing facilitators and barriers to long-term well-being of individuals with PTE, their families and their care partners.
 - Evaluating healthcare outcomes, quality of care and responsiveness to different drug therapies.
 - Analyzing the onset, progression and interaction of comorbid conditions, including but not limited to psychiatric disorders, cognitive deficits, physical deficits, sleep disorders and fatigue.
- **Innovative Research Tools and Technologies**
 - Development of novel tools and strategies to advance PTE research and clinical care, including:
 - Application of artificial intelligence, bioinformatics, clinical databases and advanced device technologies for improved seizure detection, characterization, visualization or diagnosis.
 - New or better-characterized, etiologically relevant models for PTE.
 - Tools to enable the design of future clinical trials, such as methods to identify appropriate study populations.

3.2. Award History

The ERP Virtual Post-Traumatic Epilepsy Research Center – Faculty (ViP-TERC-F) Award mechanism was first offered in FY22. Since then, 15 ViP-TERC-F Award applications were received, and six were recommended for funding.

3.3. Intent of the ViP-TERC-F Award

The ERP seeks to advance post-traumatic epilepsy (PTE) research through development of investigators new to the PTE field. To accomplish this, the ERP is soliciting Faculty members to join the ViP-TERC. The ERP ViP-TERC is a unique, interactive virtual research center providing intensive mentoring, national networking, collaborations, and a peer group for new PTE investigators. The overarching goal of the ViP-TERC is to develop successful, highly productive PTE researchers in a collaborative research and career development environment to enhance quality and expand quantity of the PTE research field.

The ViP-TERC is a multi-institutional career development and research training platform that consists of Faculty and their Career Guides (primary mentors) and is managed by a Director and Deputy Director.

The ViP-TERC Leadership (the Director and the Deputy Director) serve as a resource for the Faculty and Career Guides, assessing the progress of Faculty and facilitating communication and collaboration among all Faculty and Career Guides, as well as with national research societies and representatives from the community with lived PTE experience. In addition to fostering scientific development, the ViP-TERC, through its Leadership, provides for professional and leadership development of the Faculty, to include skills and competencies needed to fund and manage a productive PTE research laboratory.

Section Shortcuts

Basic Information | Eligibility | [Program Description](#) | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

This FY26 program announcement is soliciting Faculty members to join the ViP-TERC. This award allows the Faculty member (the investigator named as the PI on the application) to pursue an impactful research project with an emphasis on discovery that investigates questions across the PTE research spectrum (biology/etiology, prevention, diagnosis/detection, prognosis, treatment, and quality of life). This research must be performed under the guidance of a Career Guide.

The Faculty member is required to participate in all development and training activities hosted by the ViP-TERC, including monthly calls with ViP-TERC Leadership. Additionally, the Faculty member and Career Guide are required to attend a biennial multiday ViP-TERC workshop and, in alternate years, a ViP-TERC one-day workshop.

3.3.1. Key Elements for the ViP-TERC-F Award

- **Principal Investigator:** The PI must be an investigator new to the field of PTE research with the potential to significantly contribute to the advancement of the field. This award mechanism is not limited to early-career investigators. Investigators at any stage of their career are eligible to be named as PI provided they have only nominal publication and/or funding history in the field. The PI's record of accomplishments will be evaluated regarding their potential for becoming an established PTE investigator, as will their commitment to the ViP-TERC.
- **Career Guide:** The Faculty member must designate a Career Guide. The Career Guide must be an experienced researcher, as demonstrated by a strong record of funding and publications. In addition, the Career Guide must demonstrate a commitment to advance and sustain the PI's career in research. The Career Guide must also be committed to fully participating in the ViP-TERC and potentially serving on the ViP-TERC Advisory Board, as requested by the ViP-TERC Leadership.
- **Career Development:** A Career Development and Sustainment Plan ([Attachment 6](#)) is required and should be prepared with appropriate guidance from the Career Guide. The Career Development and Sustainment Plan should include a clearly articulated strategy for acquiring the necessary skills, competence and expertise to advance and sustain an independent career at the forefront of PTE research. The PI must articulate their commitment to interactions with the ViP-TERC.
- **Impact:** Applications should articulate the short- and/or long-term impact of the proposed research on the PTE research field, patient care and/or those living with PTE. Applicants are encouraged to consult with individuals living with PTE during the development and execution of the proposed research project, to ensure research outcomes maximize translational and impact potential (see [Community Collaboration](#)).
- **Research Maturity:** Preliminary data from the research team is not a requirement of this funding mechanism. Although preliminary data are not required, applications **must** demonstrate the research team's ability to execute the chosen model of TBI and record subsequent seizure activity, if applicable to the research project.

3.3.2. Other Important Considerations for the ViP-TERC-F Award

Allowable Research: Applications may focus on any phase of research from basic through clinical, but [clinical trials](#) are not allowed under this funding opportunity. Examples of permitted research include: preclinical studies in animal models, observational research with human subjects, or research involving human anatomical substances or data, as well as ancillary studies associated with an existing clinical trial.

Section Shortcuts

[Basic Information](#) | [Eligibility](#) | [Program Description](#) | [Application Contents and Format](#) | [Submission Requirements](#)
[Application Review Information](#) | [Federal Award Notices](#) | [Post-Award Requirements](#) | [Other Information](#)

In accordance with the National Defense Authorization Act for Fiscal Year 2026, Section 732, the CDMRP does not support the conduct of painful research (U.S. Department of Agriculture pain category D or E) involving domestic cats or dogs, except for studies relating to military or service animals.

When appropriate, applicants are encouraged to leverage ongoing cohort studies such as [Transforming Research and Clinical Knowledge in TBI](#), [TBI-Model Systems](#) and [Long-Term Impact of Military-Relevant Brain Injury Consortium Chronic Effects of Neurotrauma Consortium](#). Leveraging existing data repositories, such as those included on the National Institutes of Health ([NIH website](#)), is also encouraged. If the proposed research relies on access to unique resources or databases, the application must describe the access at the time of submission and include a plan for maintaining access as needed throughout the proposed research.

All projects should adhere to a core set of standards for rigorous study design and reporting to maximize the reproducibility and translational potential of clinical and preclinical research, such as those described in the [STROBE](#) and [ARRIVE 2.0](#) guidelines.

Community Collaboration: Employing community collaborations to optimize research impact is encouraged but NOT required. Research funded by the FY26 ERP should be responsive to the needs of people with PTE, their families and/or their care partners. Research teams are therefore encouraged to establish and utilize equitable collaborations with consumers and people with lived PTE experience to maximize the translational and impact potential of the proposed research.

Collaborative research approaches such as community-based participatory research, participatory action research, and integrated knowledge transition, create partnerships between scientific researchers and community members to create knowledge useable by both sets of stakeholders. Recognizing the strengths of each partner, scientific researchers and community members **collaborate and contribute equitably** to all aspects of the project, which may include needs assessment, planning, research intervention design, implementation, evaluation and dissemination. **Collaborative research approaches feature shared responsibility and ownership for the research project to ensure non-tokenistic involvement of community members within the research team.** Research results are jointly interpreted, disseminated and fed back to affected communities and may be translated into interventions or policy. These methods are critically important for community-level interventions and can also have important impacts on translational research and prototype development to identify and augment the potential impact of a research program on people living with PTE, their families and/or their care partners.

Collaborative relationships with the lived-experience community are often established through integrating community members into research teams as co-researchers, advisors and/or consultants. Some examples for implementing collaborative research approaches include:

- **Lived-Experience Consultation:** The research team includes at least one project advisor with lived PTE experience who will provide advice and consultation throughout the planning and implementation of the research project. Lived-experience consultants may include individuals with PTE, their family members or their care partners.
- **Partnership With a Community-Based Organization:** The research team establishes partnerships with at least one community-based organization that provides advice and consultation throughout the planning and implementation of the research project. Community-based organizations may include advocacy groups, service providers, policy makers or other formal organizational stakeholders.

Section Shortcuts

Basic Information | Eligibility | [Program Description](#) | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- **Community Advisory Board Utilization:** A community advisory board is composed of multiple community stakeholders and can take many forms, from a board of lived-experience consultants to a coalition of community-based organizations or any combination thereof. As with lived-experience consultants and organizational partners, the community advisory board provides advice and consultation throughout planning and implementation of the research project.

Additional information on collaborative research approaches can be found here:

- Correa, Daniel J., Churl-Su Kwon, Susan Connors, et al. 2019. "Applying Participatory Action Research in Traumatic Brain Injury Studies to Prevent Post-Traumatic Epilepsy." *Neurobiology of Disease* 123: 137-144. <https://doi.org/10.1016/j.nbd.2018.07.007>.
- Jull, Janet, Audrey Giles, and Ian D. Graham. 2017. "Community-Based Participatory Research and Integrated Knowledge Translation: Advancing the Co-Creation of Knowledge." *Implementation Science* 12 (1): 150. <https://doi.org/10.1186/s13012-017-0696-3>.
- Kost, Rhonda G., Andrea Leinberger-Jabari, Teresa H. Evering, et al. 2017. "Helping Basic Scientists Engage With Community Partners to Enrich and Accelerate Translational Research." *Academic Medicine* 92 (3): 374-379. <https://doi.org/10.1097/acm.0000000000001200>.

Relevance to Military Health: Applicants are encouraged to integrate and/or align their research projects with DOW and/or VA research laboratories and programs. Collaboration with the DOW and/or VA is also encouraged. A list of websites that may be useful in identifying additional information about ongoing DOW and VA areas of research interest or potential opportunities for collaboration can be found in [Appendix 10](#) of the GAI.

3.4. Funding Instrument

The funding instrument for awards made under the program announcement will be grants (31 USC 6304).

3.5. Funding Details

Period of Performance: The maximum period of performance is **3** years.

Cost Cap: The application's total costs budgeted for the entire period of performance should not exceed **\$800,000**. If indirect cost rates have been negotiated, indirect costs are to be budgeted in accordance with the organization's negotiated rate. Collaborating organizations should budget associated indirect costs in accordance with each organization's negotiated rate.

All direct and indirect costs of any subaward or contract must be included in the direct costs of the primary award.

The applicant may request the entire maximum funding amount for a project that may have a period of performance less than the maximum **3** years.

The appropriateness of the budget for the proposed research will be assessed during peer review.

Direct Cost Restrictions: For this award mechanism, direct costs:

Must be requested for:

- Costs associated with workshops described in [Section 8.3](#).

Section Shortcuts

Basic Information | Eligibility | [Program Description](#) | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

May be requested for (not all-inclusive):

- Support for Career Guide: Maximum allowable funding for the Career Guide(s) is \$30,000 per year in direct costs.
- Costs associated with participating in the virtual Center (e.g., hardware and/or software for the audio- or video-teleconferencing or web-based communications).
- Costs associated with a collaborative research approach (e.g., consultant costs, equitable participation training, capacity-building activities).
- Travel in support of multi-institutional collaborations.
- Data and research sharing costs.
- Costs for one investigator to travel to one scientific/technical meeting per year to present project information or disseminate project results from the FY26 ERP ViP-TERC-F Award.

Must not be requested for:

- Costs for travel to scientific/technical meeting(s) beyond the limits stated above.
- Tuition.
- Clinical trial costs.

4. Application Contents and Format

4.1. Application Overview

Application submission is a two-step process requiring both a **pre-application** submitted via the Electronic Biomedical Research Application Portal ([eBRAP](#)) and a **full application** submitted through eBRAP or Grants.gov. Depending on the submission portal, certain aspects of the application will differ.

Intramural DOW organizations submitting a full application should follow instructions for submission through eBRAP.

Extramural organizations submitting a full application must follow instructions for submission through Grants.gov.

4.2. Pre-Application Components

Pre-application submissions must include the following components.

Letter of Intent (LOI) (one-page limit): Provide a brief description of the research to be conducted. Include the focus area(s) under which the application will be submitted.

4.3. Full Application Components

Each application submission must include the completed full application package for this program announcement. See [Appendix 1](#) for a checklist of the full application components.

(a) SF424 Research & Related Application for Federal Assistance Form (Grants.gov submissions only):

IMPORTANT: When completing the SF424 R&R, enter the **eBRAP log number** assigned during pre-application submission into **Block 4a – Federal Identifier**.

(b) Attachments:

Each attachment of the full application components must be uploaded as an individual file in the format specified and in accordance with the [formatting guidelines](#) in the GAI.

○ **Attachment 1: Project Narrative (10-page limit): Upload as “ProjectNarrative.pdf”.**

Describe the proposed project in detail using the outline below.

- **Background:** Present the ideas and scientific reasoning behind the proposed research project. Clearly demonstrate that there is sufficient rationale to support the proposed research. Describe previous experience most pertinent to this project.
- **Hypothesis or Objectives:** State the hypotheses or objectives to be tested in the proposed project.
- **Specific Aims:** Concisely explain the project’s specific aims. Describe only aims that the ERP ViP-TERC-F Award would fund.
- **Focus Area:** Describe how the work aligns to one of the [FY26 ERP Focus Areas](#).

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- **Study Design and Feasibility:** Describe the research strategy, methods and analyses, including appropriate controls, in sufficient detail for evaluation of its appropriateness and feasibility. Describe how the study is designed to achieve the project aims. Address potential problem areas, and present alternative methods and approaches. Consult appropriate [guidelines](#) to ensure relevant aspects of rigorous and reproducible research are adequately planned for and, ultimately, reported.

Indicate whether ongoing cohort studies or existing repositories will be leveraged in the study. If the research proposed is epidemiologic in nature, describe how the research will be conducted in accordance with the International League Against Epilepsy (ILAE) [research guidelines](#) for epidemiologic studies.

As appropriate, describe the statistical model and data analysis plan with respect to the study objectives. If applicable, include power analysis calculations. Further information describing the strategy for how sex will be considered as a biological variable will be requested in [Attachment 2](#).

If applicable, briefly describe the development and use of animal model(s) to study PTE. Include a rationale for the choice of animal model, injury method, and endpoints/outcome measures to be used. Full details will be required in the Animal Research Plan ([Attachment 11](#)). ***If an animal model will be employed, provide evidence that demonstrates the research team’s ability and capacity to execute the chosen model of TBI and record subsequent seizure activity.***

If the proposed research involves access to military and/or VA patient populations and/or DOW or VA resources or databases, describe the access at the time of submission and include a plan for maintaining access as needed throughout the proposed research. Also include a plan for obtaining any required data sharing, memorandum of understanding or other agreements required to access and publish data. Refer to the GAI, [Appendix 4](#), for additional considerations.

- **Research Team Composition:** Describe the composition of the research team in enough detail to demonstrate that the study team has appropriate expertise to accomplish the goals of the proposed research, including expertise within the fields of **both** TBI and epilepsy.
- **Attachment 2: Supporting Documentation: Combine and upload as a single file named “Support.pdf”.** 

There are no page limits for these components unless otherwise noted. Include only components described below; inclusion of items not requested or viewed as an extension of the Project Narrative will result in the removal of those items or may result in administrative withdrawal of the application.

- **References Cited:** List the references cited in the Project Narrative using a standard reference format (include URLs, if available).
- **List of Abbreviations, Acronyms and Symbols:** Provide a list of abbreviations, acronyms and symbols.
- **Facilities, Existing Equipment and Other Resources:** Describe the facilities and equipment available for performance of the proposed project; include any additional facilities or equipment proposed for acquisition at no cost to the award. Indicate whether government-furnished facilities or equipment are proposed for use. If so, reference the original or present government award under which the facilities or

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

equipment items are now accountable. There is not a standardized form for this information.

- **Publications and/or Patents:** Include a list of relevant publication URLs and/or patent abstracts. If articles are not publicly available, then copies of up to five published manuscripts may be included in Attachment 2. Extra items will not be reviewed.
- **Letters of Support (two-page limit per letter is recommended):** Provide individual letters signed by collaborating individuals and/or organizational officials demonstrating that the PI has the support and resources necessary for the proposed work. Letters from the PI's Department Chair, or appropriate organization official, should also confirm that the PI(s) meet [eligibility criteria](#). If applicable, provide a letter of support signed by the lowest-ranking person with approval authority, confirming participation of intramural DOW collaborator(s) and/or access to military populations, databases or DOW resources. If applicable, provide a letter of support signed by the VA Facility Director(s), or an individual designated by the VA Facility Director(s), confirming access to VA patients, resources and/or VA research space.
- **Sex as a Biological Variable Strategy (two-page limit is recommended):** Describe the strategy for how sex will be considered as a biological variable. This strategy should include a brief discussion of what is currently known regarding sex differences in the applicable research area. Clearly articulate how sex as a biological variable will be factored into the data analysis plan and how data will be collected and disaggregated by sex. If needed, provide a strong rationale for proposing a single-sex study, based on justification from scientific literature, preliminary data or other relevant considerations. Refer to the [CDMRP Directive on Sex as a Biological Variable in Research](#) for additional information.
- **Inclusion Enrollment Report (only required if *clinical research is proposed*):** Provide an anticipated enrollment table(s) for the inclusion of women and minorities using the [Public Health Service \(PHS\) Inclusion Enrollment Report](#), a three-page fillable PDF form, that can be downloaded from eBRAP. The enrollment table(s) should be appropriate to the objectives of the study with the proposed enrollment distributed on the basis of sex, race and ethnicity. Studies utilizing human biospecimens or datasets that cannot be linked to a specific individual, ethnicity, or race (typically classified as exempt from Institutional Review Board [IRB] review) are exempt from this requirement.
- **Attachment 3: Technical Abstract (one-page limit): Upload as "TechAbs.pdf".** 

Write the technical abstract using the outline below. Clarity and completeness within the space limits are highly important.

- **Background:** Present the ideas and reasoning behind the proposed research project.
- **Hypothesis/Objective(s):** State the hypothesis to be tested and/or objective(s) to be reached.
- **Specific Aims:** State the specific aims of the study.
- **Study Design:** Describe the study design, including appropriate controls.

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- **Impact:** Briefly describe how the development of the Faculty member and the outcomes of this study will advance PTE research, patient care, or quality of life in the short and long term.
- **Military Relevance:** Describe how the study is relevant to military health.
- **Career Development and Sustainment:** Summarize how the proposed research, participation in the ViP-TERC, and Career Development and Sustainment Plan will facilitate and sustain the Faculty member’s independent career at the forefront of PTE research.
- **Attachment 4: Lay Abstract (one-page limit): Upload as “LayAbs.pdf”.** 

The lay abstract should address the points outlined below *in a manner that is readily understood by readers without a background in science or medicine*. Avoid overuse of scientific jargon, acronyms, and abbreviations. **Do not duplicate the technical abstract.**

 - Summarize the objectives and rationale for the proposed research.
 - What population will the research help, and how will it help them?
 - What are the potential applications, benefits, and risks of the anticipated research outcomes?
 - How will the Faculty member’s development and the proposed research outcomes contribute to the advancement of PTE research, patient care, or quality of life?
 - What is the projected time it may take to achieve a person-related outcome?
 - What is the potential benefit of the proposed study and the anticipated outcomes to Service Members, Veterans and/or their Families?
 - Describe the PI’s career goals in PTE research. How do the research, participation in the ViP-TERC, and Career Development and Sustainment Plan support the PI in attaining these goals?
- **Attachment 5: Statement of Work (three-page limit): Upload as “SOW.pdf”.** 

Refer to eBRAP for the [Suggested SOW Format](#).

 - For guidance on preparing the SOW, refer to the [Example: Assembling a Generic Statement of Work](#). Include milestones for data or research resource(s) sharing.
 - [Federal Interagency Traumatic Brain Injury Research \(FITBIR\)-eligible research](#) should also include the following subtasks:
 - FITBIR investigator and study registration within the first 30 days of the award
 - Sharing of draft data collection forms with FITBIR
 - Annual FITBIR data submission
- **Attachment 6: Career Development and Sustainment Plan (three-page limit): Upload as “CareerSustain.pdf”.**
 - Discuss the Faculty member’s record of accomplishments (e.g., awards, honors, first author publications, publications in high-impact journals, presentations/speaking engagements, committees) demonstrating the potential for becoming an established investigator in PTE research.

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- Describe the individualized Career Development and Sustainment Plan, which may include workshops, conferences, seminars, journal clubs, teaching responsibilities and/or clinical responsibilities. Include milestones to be achieved during the award period of performance and career pathways toward achieving the milestones. Explain how this development plan will enable the Faculty member to obtain independent PTE research funding and publish in peer-reviewed journals.
- Discuss how the Career Guide will assist the Faculty member in not only developing, but also sustaining, a career as an independent PTE researcher. Explain how the Career Development and Sustainment Plan is supported by the environment; this should include a description of resources available to the Faculty member at their institution, and, if different, at the Career Guide's institution.
- Outline how the Faculty member and Career Guide, together, will evaluate the Faculty member's progress of achieving and, more importantly, sustaining a productive and independent career in PTE research.
- Explain why participation in the ViP-TERC is important in developing the Faculty member's career in PTE research. Describe the Faculty member's motivation and commitment to participating in the ViP-TERC, to include networking and collaborating with the other Faculty member/Career Guide pairs and the P-TERC Leadership.
- **Attachment 7: Career Guide's Letter (three-page limit): Upload as "GuideLetter.pdf".**
 - Describe the Faculty member's background and potential to become an established PTE researcher.
 - Explain how this award will enhance the Faculty member's capabilities to sustain a career in PTE research.
 - Describe the Career Guide's background and experience in research, success in acquiring funding and record of mentoring and training investigators in the field. Specify the commitment of the Career Guide and their staff to the Faculty member's professional development and career sustainment.
 - Describe the Career Guide's motivation and commitment to participating in the ViP-TERC.
 - Describe the specific resources that will facilitate success for the Faculty member.
- **Attachment 8: Impact Statement (one-page limit): Upload as "Impact.pdf".** *This attachment should be written with a broad audience in mind, including readers without a background in science or medicine.*

Address the impact of the proposed research on one or more of the [FY26 ERP Focus Areas](#). Describe the short- and long-term impact of this study on PTE research, patient care and/or quality of life, including an assessment of the likelihood that a successful outcome of the proposed research project will increase understanding of PTE and associated comorbidities and/or lead to a practical application in individuals living with PTE. If applicable, describe how the anticipated outcomes of the proposed study will make an impact in understanding health differences between sexes. Indicate how the proposed research project is applicable to the health care needs and quality of life of Service Members, Veterans, and/or their Family members or care partners.

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- **Attachment 9: Research Sharing Plan (two-page limit): Upload as “Sharing.pdf”.**

Describe the type of data or research resources (e.g., bio-specimen, analysis tool/software, training material) to be made publicly available as a result of the proposed work. Describe the mechanism (e.g., direct sharing, repository, mixed mode) by which data and resources generated during the period of performance will be shared with the research community and other affected communities, including clinical research participants. Include the name of the repository(ies) where scientific data and resources arising from the proposed study will be archived, if applicable. Identify and provide the rationale for any data or resources that will not be shared (e.g. for intellectual property, feasibility, cost or other considerations). The plan should also protect participant privacy, confidential and proprietary data, and performer/third-party intellectual property. Provide a milestone plan for disseminating data/results including when data and resources will be made available to other users. In cases where the study participant could potentially derive medical or other benefit from the information, explain whether the results of screening and/or study participation will be shared with the participant or their primary care provider, including results from any screening or diagnostic tests performed as part of the study. If applicable, identify and describe the planned National Institute of Neurological Disorders and Stroke [TBI](#) and/or [Epilepsy](#) Common Data Elements (CDEs) to be used/collected.

Refer to the [CDMRP Directive on Sharing Data and Research Resources](#) for more information about the CDMRP’s expectations for making data and research resources publicly available.

- **Attachment 10: Transition Plan (one-page limit): Upload as “Transition.pdf”.**

Outline the project’s anticipated research outcome(s) (e.g., intervention, product, methodology, finding). Outline the immediate next steps to be taken by the research team after successful completion of the proposed research project, including plans for dissemination of results, further outcome investigation (e.g., next stage preclinical/clinical research, translational research, clinical trial) and engagement with end-users (e.g., patients, clinicians). Describe the steps that would need to be taken for the research outcome to impact patient care and outcomes. If applicable, discuss ownership rights/access to the intellectual property necessary for the development and/or commercialization of products or technologies supported with this award, including a plan for resolving intellectual and material property issues among participating organizations. If the intellectual property rights are not owned by the performer(s), describe the planned next steps necessary to make the product available to the PTE community.

- **Attachment 11: Animal Research Plan (three-page limit): Upload as “AnimalResPlan.pdf”. (Only applicable and required for applications proposing animal studies.)**

The purpose of this attachment is to provide additional details regarding the proposed animal research beyond what was included within the project narrative. Consult the [ARRIVE guidelines 2.0](#) (Animal Research: Reporting *In Vivo* Experiments) to ensure relevant aspects of rigorous animal research are adequately planned for. The Animal Research Plan may not be an exact replica of the protocol(s) submitted to the Institutional Animal Care and Use Committee (IACUC). The Animal Research Plan should address the following points to achieve reproducible and rigorous results for each proposed animal study:

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- Briefly describe the research objective(s) of the animal study. Explain how and why the animal species, strain, and model(s) being used can address the scientific objectives and, where appropriate, the study's relevance to human biology. **Be specific as to why an animal model is necessary to address the study aims, why the specific animal and injury model was chosen over other models, and how it is optimal for modeling PTE and addressing the study aims.**
- Summarize the procedures to be conducted, including the method(s) for seizure detection. Describe how the study will be controlled.
- Describe the randomization and blinding procedures for the study, and any other measures to be taken to minimize the effects of subjective bias during animal treatment and assessment of results. If randomization and/or blinding will not be utilized, provide justification.
- Provide a sample size estimate for each study arm and the method by which it was derived, including power analysis calculations.
- Describe how data will be handled, including rules for stopping data collection, criteria for inclusion and exclusion of data, how outliers will be defined and handled, statistical methods for data analysis and identification of the primary endpoint(s).
- **Attachment 12: Community Collaboration Plan: Upload as “Collaboration.pdf”.**
(Only applicable for applications utilizing a [collaborative research](#) approach that engages the PTE lived-experience community.)
 - **Community Collaboration Statement (three-page limit):** If a partnership with the PTE lived-experience/consumer community will be utilized (e.g., PTE lived-experience consultation, partnership with a community-based organization), include the community partner's name and describe the following, as applicable:
 - The collaborative research approach that will be used (e.g., lived-experience consultation, partnership with community-based organization, community advisory board, co-researcher model), including a justification for the approach as well as when the approach will be used within the research project.
 - Detail the community partner's contributions to the research process thus far, as well as the framework for capturing future input. Explain how this input will be meaningfully integrated to inform each phase of the research lifecycle, including needs assessment, planning, design, execution, analysis and dissemination.
 - The resource allocation and decision-making processes to be employed.
 - Any training that will be provided to both scientific researchers and community members on collaborative research approaches, decision-making and equitable participation.
 - Co-learning and capacity-building activities among all partners.
 - The process measures to assess the effectiveness of the chosen collaborative research approach.
 - **Letters of Community Collaboration (two-page limit per letter is recommended):** Provide a letter signed by each community partner (e.g., lived-experience consultant, representative of community-based organizations) confirming their role and commitment to participate on the research team. If a community-based organization will be engaged, the letter of commitment should be signed by BOTH the organization point of contact leading the engagement along with the

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

organization’s leadership endorsing the collaboration, if different from the point of contact. The letter should include the qualifications and background of the individual and describe the relevance of those qualifications to their role within the proposed research project. The individual’s role in the project should be independent of their employment.

- **Attachment 13: Representations (*Grants.gov submissions only*): Upload as “RequiredReps.pdf”.** All extramural applicants must complete and submit the [Required Representations](#) document available on eBRAP. 
- **Attachment 14 Suggested Intragovernmental/Intramural Budget Form (*if applicable*): Upload as “IGBudget.pdf”.** If an [intramural DOW organization](#) will be a collaborator in the performance of the project, complete a separate budget for that organization using the [Suggested Intragovernmental/Intramural Budget](#) form available on eBRAP. 

(c) Additional Application Materials:

The following are additional forms for application submission. Follow the instructions specific to the submission portal, as found within the GAI.

Grants.gov

eBRAP.org

i. Research & Related Senior/Key Person Profile (Expanded)

- **Biographical Sketch**
- **Current/Pending Support**

Intragovernmental applicants must include their internally supported research and development programs.

ii. Research & Related Budget

iii. Project/Performance Site Location(s)

iv. Research & Related Subaward Budget Attachment(s) (*if applicable, Grants.gov submissions only*)

4.4. Other Application Elements

If recommended for funding, a data management plan compliant with Section 3.c, Enclosure 3, [DoD Instructions 3200.12](#) will be requested. 

The government reserves the right to request a revised budget, budget justification and/or additional information for applications recommended for funding.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | [Submission Requirements](#)
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

5. Submission Requirements

5.1. Location of Application Package

Download the application package components for HT942526ERPVPТЕРCF from [Grants.gov](#) or [eBRAP](#), depending on which submission portal will be used.

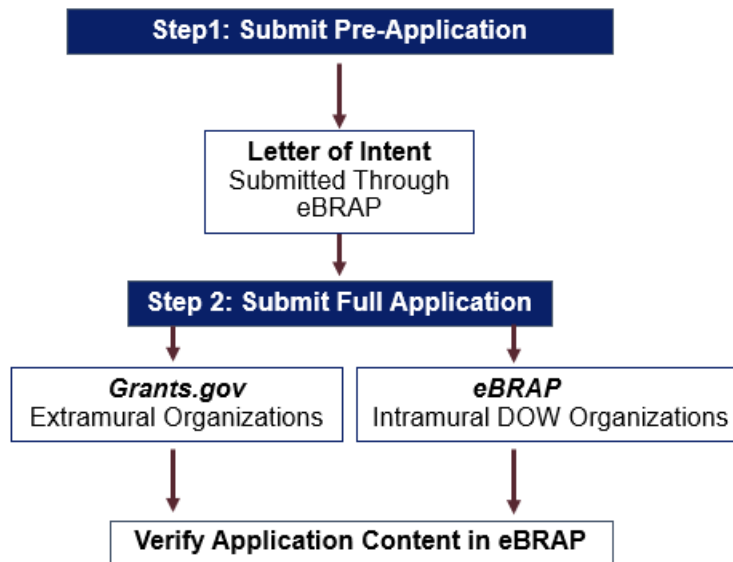

5.2. Unique Entity Identifier and System for Award Management

The applicant organization must be registered as an entity in the System for Award Management (SAM), [SAM.gov](#), and receive confirmation of an “Active” status before submitting an application through Grants.gov. Organizations must include the unique entity identifier (UEI) generated by the SAM in applications to this funding opportunity and maintain an active registration in the SAM at all times during which it has an active Federal award or an application under consideration. i

5.3. Submission Instructions

The CDMRP uses two portal systems to accept pre- and full application submissions. The workflow below shows which portal system to use for pre- and full application submissions, respectively.

Application Submission Workflow

5.3.1. Pre-Application Submission

All pre-application components must be submitted by the PI through [eBRAP](#). i

During the pre-application process, eBRAP assigns each submission a unique log number. This unique log number is required during [the full application submission process](#). The eBRAP log number, application title and all information for the PI, Business Official(s), performing organization, and contracting organization must be consistent throughout the entire pre-

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | [Submission Requirements](#)
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

application and full application submission process. Inconsistencies may delay application processing and limit or negate the ability to view, modify and verify the application in eBRAP. Contact the [eBRAP Help Desk](#) if any changes need to be made.

5.3.2. Full Application Submission

Grants.gov Submissions: Full applications from extramural organizations *must* be submitted through the Grants.gov Workspace. 

eBRAP Submissions: Only [intramural DOW organizations](#) may submit full applications through eBRAP. 

5.3.3. Applicant Verification of Full Application Submission in eBRAP

Independent of the submission portal, once the full application is submitted, it is transmitted to and processed in eBRAP; the transmission to eBRAP may take up to 48 hours. At this stage, the PI and organizational representatives will receive an email from eBRAP instructing them to log in to eBRAP to review, modify and verify the full application submission. 
The Project Narrative and Research & Related Budget Form cannot be changed after the application submission deadline. Other application components, including subaward budget(s) and subaward budget justification(s), may be changed until the [application verification period](#) ends. The full application cannot be modified once the application verification period ends.

5.4. Submission Dates and Times

The pre-application and full application submission process should be started early to avoid missing deadlines. Regardless of submission portal used, all pre- and full application components must be submitted by the deadlines stipulated in this program announcement. There are no grace periods for deadlines; failure to meet submission deadlines will result in application rejection. ***The DHACA cannot make allowances/exceptions for submission problems encountered by the applicant.***

Submission dates and times are specified in [Section 1, Basic Information](#).

5.5. Intergovernmental Review

Not applicable for this funding opportunity.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

6. Application Review Information

6.1. Application Compliance Review

Submitting applications that propose essentially the same research project to different funding opportunities within the same program and fiscal year is prohibited and will result in administrative withdrawal of the duplicative application(s).

While it is allowable to propose similar research projects to different programs within the CDMRP or to other organizations, duplication of funding or accepting funding from more than one source for the same research is prohibited. See the [CDMRP's Directive on Research Duplication](#).

Including classified research data within the application and/or proposing research that may produce classified outcomes or outcomes deemed sensitive to national security concerns, may result in application withdrawal.

Members of the FY26 ERP Programmatic Panel must not be involved in any pre-application or full application including, but not limited to, concept design, application development, budget preparation and the development of any supporting documentation, including personal letters of support/recommendation for the research and/or PI. Programmatic panel members **may** provide [letters](#) to confirm [PI eligibility](#) and access to laboratory space, equipment and other resources necessary for the project if that is part of their regular roles and responsibilities (e.g., as Department Chair). ***A list of the [FY26 ERP Programmatic Panel members](#) can be found on the CDMRP website.***

Additional restrictions and associated administrative responses are outlined in [Section 9.2, Administrative Actions](#).

6.2. Review Criteria

6.2.1. Pre-Application Screening Criteria

Pre-applications submitted to this funding opportunity are used for program planning purposes only (e.g., reviewer recruitment) and will not be screened.

6.2.2. Peer Review Criteria

To determine technical merit, all applications will be evaluated individually according to the following **scored criteria**, which are listed in decreasing order of importance:

- **Faculty Member**

- Whether the PI is considered new to PTE research, as evidenced by only nominal funding and publication history in the field.
- To what extent the Faculty member's record of accomplishments demonstrates the potential for becoming an established investigator in PTE.
- How well the application demonstrates that participation in the ViP-TERC is important in developing the Faculty member's career.
- To what extent the application describes the Faculty member's motivation and commitment to participating in the ViP-TERC.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

- **Research Strategy and Feasibility**
 - How well the hypothesis or objectives of the study are supported by the background provided. Preliminary data from the research team is not a requirement of this funding mechanism.
 - How well the study is designed to achieve the research objectives, including, if applicable, the development and use of animal model(s) and to what extent the chosen animal, injury method and endpoints/outcome measures are justified.
 - How well studies are designed to achieve reproducible and rigorous results, including the choice of model, controls, endpoints/outcomes to be measured, sample size estimation, blinding, randomization and data handling.
 - If applicable, to what extent the application demonstrates the research team's ability and capacity to execute the chosen model of TBI and record subsequent seizure activity.
 - To what extent the proposed research project is feasible as described.
 - How well the application acknowledges potential problems and addresses alternative approaches.
 - Whether the statistical plan is appropriate for the proposed research.
 - Whether the strategy for considering sex as a biological variable is appropriate to the objectives of the study or whether the justification for a single-sex study is sufficiently strong.
 - If applicable, how well the application describes TBI or epilepsy CDEs to be collected, and whether those CDEs are appropriate.
 - If applicable, how well the application leverages ongoing cohort studies.
 - If applicable, whether the application includes sufficient evidence to support successful recruitment of and access to human subjects, data and samples; and whether the strategy for the inclusion of women and minorities and distribution of proposed enrollment are appropriate for the proposed research.
 - If applicable, how well the application addresses the [ILAE research guidelines](#) for epidemiologic studies.
- **Career Development and Sustainment Plan**
 - Whether milestones and career pathways toward the milestones are included and achievable within the allotted period of performance.
 - To what extent the Career Guide will assist the Faculty member in not only developing, but also sustaining a career as an independent PTE researcher.
 - Whether the Career Development and Sustainment Plan is supported by the environment, including a description of resources available to the Faculty member at their institution and, if different, at the Career Guide's institution.
 - To what degree the Faculty member and Career Guide, together, will evaluate the Faculty member's progress of achieving and, more importantly, sustaining a productive and independent career in PTE research.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

- **Career Guide**

- To what degree the Career Guide's background and experience in research, success in acquiring funding, and record of mentoring and training investigators supports the position.
- To what degree the Career Guide is motivated and committed to participating in the ViP-TERC.

- **Impact**

- To what extent the proposed study addresses one or more of the [FY26 ERP Focus Areas](#).
- How likely the development of the Faculty member and the outcomes of this study will advance PTE research, patient care, or quality of life in the short and long term.
- How likely a successful outcome of the research will increase understanding of PTE and/or lead to a practical application in individuals living with PTE.
- To what degree the research addresses questions related to the health care needs and quality of life of Service Members, Veterans, and/or their Family members or care partners.
- If applicable, to what extent the anticipated outcomes of the proposed study will make an impact in understanding health differences between sexes.
- ***If a collaborative research approach that engages the PTE lived-experience community will be employed***, to what degree the Community Collaboration Plan is designed to meaningfully integrate input from the community partners (e.g., lived-experience consultants, representatives of community-based organizations) into the needs assessment, planning, design, execution, analysis, and/or dissemination of the research

In addition, the following criteria will also contribute to the overall evaluation of the application, but will not be individually scored and are therefore termed **unscored criteria**:

- **Community Partner**

- If a collaborative research approach that engages the PTE lived-experience community will be employed, to what degree the qualifications and background of the lived-experience consultant(s), community-based partner(s), and/or organization point of contact are relevant to the proposed research project.

- **Research Sharing Plan**

- To what extent the plan for sharing of project data and research resources is appropriate and reasonable, and includes dissemination to affected communities, study participants and/or the scientific community. If applicable, which specific repository(ies) were designated for storing project data and research resources?

- **Transition Plan**

- To what degree the planned immediate next steps for the research team to take upon successful completion of the project, including plans for dissemination of results, further outcome investigation (e.g., next stage preclinical/clinical research, translational research, clinical trial) and engagement with end-users (e.g., patients, clinicians) are realistic and appropriate.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

- If applicable, to what degree ownership rights/access to the intellectual property necessary for the development and/or commercialization of products or technologies supported with this award are considered and planned for.
- **Budget**
 - Whether the budget is appropriate for the proposed research.
- **Environment**
 - To what extent the scientific environment and level of institutional support is appropriate for the Faculty member's development and the proposed research project.
 - How well the research requirements are supported by the availability of and accessibility to facilities and resources.
- **Application Presentation**
 - To what extent the writing, clarity and presentation of the application components influence the review.

6.2.3. Programmatic Review

To make funding recommendations and select the application(s) that, individually or collectively, will best achieve the program objectives, the following criteria are used by programmatic reviewers:

- Ratings and evaluations of peer reviewers
- Relevance to the priorities of the FY26 ERP, as evidenced by the following:
 - Adherence to the intent of the funding opportunity
 - Program portfolio composition
 - Relative impact
 - Relevance to military health
 - PTE research career potential of the Faculty member

6.3. Application Review and Selection Process

6.3.1. Pre-Application

There is no review and selection process for pre-applications submitted to this funding opportunity. ***The CDMRP will NOT provide an invitation to submit a full application after pre-application submission.*** Applicants are encouraged to develop pre-application and full application components concurrently and submit a full application AFTER successful submission of the pre-application.

6.3.2. Full Application

All applications are evaluated by scientists, clinicians and consumers in a two-tier review process. The first tier is **peer review**, the evaluation of applications against established criteria to determine technical merit, where each application is assessed for its own merit, independent of other applications. The second tier is **programmatic review**, a comparison-based process in which applications with high scientific and technical merit are further evaluated for programmatic

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

relevance. Final recommendations for funding are subject to review and approval by a designated official. ***The highest-scoring applications from the first tier of review are not automatically recommended for funding. Funding recommendations depend on various factors as described in [Section 6.2.3, Programmatic Review](#).*** Additional information about the two-tier process used by the CDMRP can be found on the [CDMRP website](#).

Funding of applications received is contingent upon the availability of federal funds for this program, the number of applications received, the quality and merit of the applications as evaluated by peer and programmatic review, and the requirements of the government. Funds to be obligated on any award resulting from this funding opportunity will be available for use for a [limited time period](#) based on the fiscal year of the funds.

6.4. Risk, Integrity and Performance Information

Prior to making an assistance agreement award where the federal share is expected to exceed the simplified acquisition threshold, as defined in the Code of Federal Regulations, Title 2, Part 200.1 (2 CFR 200.1), over the period of performance, the federal awarding agency is required to review and consider any information about the applicant that is available in the SAM.

An applicant organization may review the SAM and submit comments on any information currently available about the organization that a federal awarding agency previously entered. The federal awarding agency will consider any comments by the applicant, in addition to other information in the designated integrity and performance system, in making a judgment about the applicant's integrity, business ethics and record of performance under federal awards when determining a recipient's qualification prior to award, according to the qualification standards of the Department of Defense Grant and Agreement Regulations (DoDGARs), Section 22.415.

In accordance with National Security Presidential Memorandum-33 and all associated laws, all fundamental research funded by the DOW must be evaluated for affiliations with foreign entities. All applicant organizations must disclose foreign affiliations of all key personnel named on applications. Failure to disclose foreign affiliations of key personnel shall lead to withdrawal of recommendations to fund applications. Applicant organizations may be presented with an opportunity to mitigate identified risks, particularly those pertaining to influence from foreign entities specified in law. Implementation of mitigation discussions and utilization of the [DOD Component Decision Matrix](#) must decrease risk of foreign influence in accordance with the above-mentioned laws and guidance prior to award.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
Application Review Information | [Federal Award Notices](#) | Post-Award Requirements | Other Information

7. Federal Award Notices

For each compliant full application received, the organizational representative(s) and PI will receive email notification when the funding recommendations are posted to eBRAP, typically within 6 weeks after programmatic review. At this time, each PI will receive a peer review summary statement on the strengths and weaknesses of the application and an information paper describing the application receipt and review process for the ERP award mechanisms. The information papers and a list of organizations and PIs recommended for funding are also posted on the program's page within the CDMRP website. After all awards are made, the CDMRP includes individual award information in a searchable [database](#).

If an application is recommended for funding, after the email notification is posted to eBRAP, a government representative will contact the person authorized to negotiate on behalf of the recipient organization.

Only an appointed DHACA Grants Officer may obligate the government to the expenditure of funds to an extramural organization. No commitment on the part of the government should be inferred from discussions with any other individual. ***The award document signed by the Grants Officer is the official authorizing document (i.e., assistance agreement).***

Intragovernmental obligations of funding will be made according to the terms of a negotiated Inter-Agency Agreement and managed by a CDMRP Science Officer.

Funding obligated to ***intragovernmental and intramural DOW organizations*** will be sent through the Military Interdepartmental Purchase Request (MIPR), Funding Authorization Document (FAD) or Direct Charge Work Breakdown Structure processes. Transfer of funds is contingent upon appropriate safety and administrative approvals. Intragovernmental and intramural DOW investigators and collaborators must coordinate receipt and commitment of funds through their respective Resource Manager/Task Area Manager/Comptroller or equivalent Business Official. 

An organization may, at its own risk and without the government's prior approval, incur obligations and expenditures to cover costs up to 90 days before the beginning date of the initial budget period of a new award.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | [Post-Award Requirements](#) | Other Information

8. Post-Award Requirements

8.1. Administrative and National Policy Requirements

Applicable requirements in the DoDGARs found in 32 CFR, Chapter I, Subchapter C, and 2 CFR, Chapter XI, apply to grants and cooperative agreements resulting from this program announcement.

The GAI contain information regarding [administrative requirements](#) and [national policy requirements](#).

Refer to full text of the latest [DoD R&D Terms and Conditions](#) and the [DHACA Terms and Conditions](#) for further information.

If there are delinquencies in technical reporting requirements for any existing DHA or U.S. Army Medical Research and Development Command awards at the applicant organization, DHACA will not issue any new awards to the applicant organization until all delinquent reports have been submitted.

Applications recommended for funding that involve animals, human data, human specimens, human subjects or human cadavers must be reviewed for compliance with federal animal and/or human subjects protection requirements and must be approved by the DHA R&D Office of Research and Regulatory Compliance (ORRC), prior to implementation. This administrative review requirement is in addition to the local IACUC, IRB or Ethics Committee (EC) review. 

The ERP requires that all TBI-related clinical research with at least 50 subjects funded by this program be shared through the jointly supported DOW-NIH FITBIR. Recipients will be required to upload study data annually and in accordance with the FITBIR data submission policies. There is no fee to use FITBIR, and detailed guidance and policies, including a cost estimator tool for budgeting considerations, can be found on the [FITBIR](#) website.

8.2. Reporting

Annual technical progress reports as well as a final technical progress report will be required. Annual and final technical progress reports must be prepared in accordance with the Research Performance Progress Report.

The Award Terms and Conditions will specify whether additional and/or more frequent reporting is required.

PHS Inclusion Enrollment Reporting (***required for [clinical research](#)***): Enrollment reporting on the basis of sex, race and/or ethnicity will be required with each annual and final progress report. The [PHS Inclusion Enrollment Report](#) is available on eBRAP.

Awards resulting from this program announcement may entail additional reporting requirements related to recipient integrity and performance matters. Recipient organizations that have federal contract, grant and cooperative agreement awards with a cumulative total value greater than \$10M are required to provide information to the SAM about certain civil, criminal and administrative proceedings that reached final disposition within the most recent 5-year period and that were connected with their performance of a federal award. These recipients are required to disclose, semiannually, information about criminal, civil and administrative proceedings as specified in the applicable [Representations](#).

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | [Post-Award Requirements](#) | Other Information

8.3. Additional Requirements

The PI is required to attend a biennial multiday ERP P-TERC-sponsored workshop and, in alternate years, a one-day ERP P-TERC-sponsored workshop.

The PI is expected to participate in at least one Interim Progress Review (IPR) for the funded project. For planning purposes, PIs can expect that the IPR will last no longer than one day and will be hosted virtually by the ERP. The invitation and format for the IPR will be provided by the Grants Officer's Representative at least 90 days prior to the scheduled IPR date.

Changes in PI are not allowed, except under extenuating circumstances that will be evaluated on a case-by-case basis.

An organizational transfer of an award will not be allowed in the last year of the original period of performance or any extension thereof.

9. Other Information

9.1. Program Announcement Version

Questions related to this program announcement should refer to the program name, the program announcement name and the program announcement version code CD26_01d.

9.2. Administrative Actions

After receipt of full applications, the following administrative actions may occur.

9.2.1. Rejection

The following will result in administrative rejection of the full application:

- The Project Narrative is missing.
- The Budget is missing.
- The Pre-application was not submitted.

9.2.2. Modification

- Pages exceeding the specified limits will be removed prior to reviewing all documents.
- Documents not requested will be removed.

9.2.3. Withdrawal

The following may result in administrative withdrawal of the full application:

- A member of the FY26 ERP Programmatic Panel is named as being involved in the development or execution of the research proposed or is found to have assisted in the pre-application or application processes.
- The application includes the name(s) of personnel from either of the CDMRP peer or programmatic review companies for which conflicts cannot be adequately mitigated. For FY26, the identities of the peer review contractor and the programmatic review contractor may be found on the [CDMRP website](#).
- Personnel from applicant or collaborating organizations are found to have contacted persons involved in the review or approval process to gain protected evaluation information or to influence the evaluation process.
- The application from an extramural organization, including non-DOW federal agencies, is received through eBRAP.
- The federal government recipient organization (including an intramural DOW organization):
(a) cannot accept and execute the entirety of the requested budget in FY26 funds; and/or (b) cannot coordinate the use of contractual, assistance or other appropriate agreements to provide funds to collaborators.
- The application fails to conform to this program announcement description.

Section Shortcuts

- The application includes URLs, with the exception of links in the References Cited and Publication and/or Patent sections.
- The application includes research data that are classified and/or proposes research that may produce classified outcomes, or outcomes deemed sensitive to national security concerns.
- The same research project is submitted to different funding opportunities within the same program and fiscal year.
- A clinical trial is proposed.
- The PI is named on more than one FY26 ERP Virtual Post-Traumatic Epilepsy Research Center – Faculty Award application.
- The PI or Career Guide does not meet the [eligibility criteria](#).

9.2.4. Withhold

Applications that appear to involve research misconduct will be administratively withheld from further consideration pending organizational investigation. The organization will be required to provide the findings of the investigation to the DHACA Grants Officer for a determination of the final disposition of the application.

Appendix 1. Full Application Submission Checklist

Full Application Components	Uploaded
SF424 Research & Related Application for Federal Assistance (<i>Grants.gov submissions only</i>)	<input type="checkbox"/>
Summary (Tab 1) and Application Contacts (Tab 2) (<i>eBRAP submissions only</i>)	<input type="checkbox"/>
Attachments	
Project Narrative – Attachment 1, upload as “ProjectNarrative.pdf”	<input type="checkbox"/>
Supporting Documentation – Attachment 2, upload as “Support.pdf”	<input type="checkbox"/>
Technical Abstract – Attachment 3, upload as “TechAbs.pdf”	<input type="checkbox"/>
Lay Abstract – Attachment 4, upload as “LayAbs.pdf”	<input type="checkbox"/>
Statement of Work – Attachment 5, upload as “SOW.pdf”	<input type="checkbox"/>
Career Development and Sustainment Plan – Attachment 6, upload as “CareerSustain.pdf”	<input type="checkbox"/>
Career Guide’s Letter – Attachment 7, upload as “GuideLetter.pdf”	<input type="checkbox"/>
Impact Statement – Attachment 8, upload as “Impact.pdf”	<input type="checkbox"/>
Research Sharing Plan – Attachment 9, upload as “Sharing.pdf”	<input type="checkbox"/>
Transition Plan – Attachment 10, upload as “Transition.pdf”	<input type="checkbox"/>
Animal Research Plan (<i>if applicable</i>) – Attachment 11, upload as “AnimalResPlan.pdf”	<input type="checkbox"/>
Community Collaboration Plan (<i>if applicable</i>) – Attachment 12, upload as “Collaboration.pdf”	<input type="checkbox"/>
Representations (<i>Grants.gov submissions only</i>) – Attachment 13, upload as “RequiredReps.pdf”	<input type="checkbox"/>
Suggested Intragovernmental/Intramural Budget Form (<i>if applicable</i>) – Attachment 14, upload as “IGBudget.pdf”	<input type="checkbox"/>
Additional Application Materials	
Research & Related Senior/Key Person Profile (Expanded)	<input type="checkbox"/>
Attach Biographical Sketch for Senior/Key Persons (Biosketch_LastName.pdf)	<input type="checkbox"/>
Attach Current/Pending Support for Senior/Key Persons (Support_LastName.pdf)	<input type="checkbox"/>
Research & Related Budget	<input type="checkbox"/>
Project/Performance Site Location(s)	<input type="checkbox"/>
Research & Related Subaward Budget Attachment(s) (<i>if applicable</i>)	<input type="checkbox"/>
