C. PROGRAM DESCRIPTION

1. Project Background, Goals, and Objectives

Vietnam's rapidly growing youth population and ambitious development goals—achieving high-income status by 2045, with the digital sector comprising 30 percent of GDP by 2030—present a strategic opportunity to advance U.S. economic and foreign policy interests in the Indo-Pacific. However, persistent gaps in workforce readiness—including limited English proficiency, insufficient digital and technical skills, and a lack of practical professional experience—constrain the ability of Vietnamese youth to participate in sectors where American companies are investing and seeking partners.

Limited access to high-quality, practical training and direct collaboration with U.S. institutions further reduces the ability of Vietnamese youth to connect with American businesses, innovation networks, and professional networks.

The United States leads the world in science, technology, and innovation. American universities produce groundbreaking research, U.S. companies drive technological advancement, and American entrepreneurs create solutions that transform industries and improve lives globally. Vietnam's Resolution 57, which prioritizes science and technology as key drivers of economic growth, creates significant opportunities for Vietnamese youth to learn from and work with U.S. institutions and companies.

Embassy Hanoi has supported workforce development, entrepreneurship, and English language programming through its network of American Spaces with measurable success.

Experience shows that integrated approaches—combining English instruction and hands-on technology training—deliver the strongest outcomes. Activities that incorporate exchanges with U.S. experts and exposure to American innovation networks also strengthen participants' understanding of U.S. leadership and opportunity.

These efforts confirm that American Spaces are uniquely positioned as trusted platforms to deliver high-impact programming and U.S. strategic cooperation.

Through this Notice of Funding Opportunity, the Public Diplomacy Section at U.S. Embassy Hanoi seeks to strengthen a pipeline of skilled, English-capable, and job-ready Vietnamese youth who can contribute to sectors that support U.S. trade, investment, and economic cooperation in Vietnam.

This program will showcase American excellence in science, technology, and innovation while integrating workforce development with programming that highlights U.S. technological leadership and educational quality. American Spaces will serve as hubs for:

- Delivering integrated training in digital and technology skills and English proficiency;
- Demonstrating American excellence in science, technology, innovation, and entrepreneurship through direct exposure to U.S. experts, institutions, and companies; and
- Expanding opportunities for participants to work with U.S. institutions, innovation networks, and professional networks.

By equipping participants with market-relevant skills and access to opportunity, this program aims to inspire the next generation of Vietnamese leaders and entrepreneurs to work with the United States in shaping a more stable and prosperous future.

Success will be measured by clear, results-oriented outcomes, including:

- Expanded participation in U.S.-connected educational, professional, and exchange opportunities;
- Improved English proficiency and technology skills among participants;
- Increased recognition of U.S. technological leadership and innovation among participants and broader Vietnamese audiences.

By advancing these outcomes, the program will expand opportunities for American businesses, strengthen commercial ties, and reinforce U.S. strategic cooperation in Vietnam. It will also contribute to long-term stability by increasing economic opportunity and positioning American Spaces as key platforms for advancing U.S. priorities in the region.

American Spaces are the U.S. Department of State's key touchpoints for millions of people globally, building connections between the United States and communities worldwide. Managed by U.S. embassies and consulates, often in partnership with local institutions, American Spaces

are strategically aligned to U.S. foreign policy and national security goals. They showcase the United States' core values and reflect the American spirit to international audiences. Through their engagement with foreign audiences, American Spaces support U.S. interests, foster a greater understanding of the United States, and offer opportunities for the United States to connect with aspiring leaders.

The project activities under this NOFO must be implemented/conducted at a minimum of two American Spaces, which are the U.S. government-operated American Centers in Hanoi and Ho Chi Minh City and partner American Spaces at the Diplomatic Academy of Vietnam, Thai Nguyen University, and An Giang University. Grantees are responsible for securing permissions to conduct project activities at the partner American Spaces, including meeting the partner institutions' paperwork requirements.

Project Audience(s):

Primary beneficiaries of this project will be university students and young professionals aged 18 to 40 years with interest in technology and English language improvement. Audience geographic location covers the American Spaces Vietnam network's host institutions, including Hanoi, Ho Chi Minh City, Thai Nguyen, and An Giang.

Project Goal: Through this Notice of Funding Opportunity, the Public Diplomacy Section at U.S. Embassy Hanoi seeks to strengthen a pipeline of skilled, English-capable, and job-ready Vietnamese youth who can support U.S. trade, investment, and innovation partnerships while expanding economic opportunity in Vietnam.

2. *Indirect Costs*

If two or more applications receive equivalent scores based on the evaluation criteria outlined in this NOFO, preference will be given to the applicant with the lower indirect cost rate, as consistent with Executive Order 14332, Section 4(b)(iii). This preference will only be applied as a tie-breaking mechanism and does not supersede the primary evaluation criteria.

3. *Review and Selection Process*

- a. Acknowledgement of receipt. Applicants will receive acknowledgment of receipt of their proposal.

- b. Review. All submissions are screened for technical eligibility. **If a submission is missing any required forms/documents listed above in Section D. Application Contents and Format, it will be considered ineligible and will not be reviewed by the grants review committee.** A technical review panel will review eligible proposals based upon the criteria noted in this NOFO.
- c. Follow up notification. Applicants will generally be notified within 120 days after the NOFO deadline regarding the results of the review panel.

2. Risk Review

- i. Under the merit review as required by 2 CFR 200.206, prior to making a Federal Award the Department will review and consider the following risk factors:
 - a. Financial stability
 - b. Management systems and standards
 - c. History of performance
 - d. Audit reports and findings
 - e. Ability to effectively implement project requirements
- ii. High Risk Designation

Awardees that are deemed to be high risk based on the above risk factors will be held to special award conditions. At a minimum, the recipient and/or project designated as High Risk will be required to submit monthly narrative reports and/or quarterly detailed financial reports. Recipients may also be required, upon request of the Grants Officer or Grants Officer Representative, to provide electronic copies of receipts or other supporting documentation (e.g., timesheets, travel documents) for costs incurred. The Grants Officer may withhold 10% of the award amount until final reports have been reviewed and approved by the GO. The recipient may be required to pay all salaries supported by the grant via electronic funds transfer. Other special award conditions may also be included if deemed appropriate by the Grants Officer.

G. AWARD NOTICES

The award or cooperative agreement will be written, signed, awarded, and administered by the Grants Officer. The award agreement is the authorizing document, and it will be provided to the recipient for review and counter-signature. The recipient may only start incurring project expenses beginning on the start date shown on the award document signed by the Grants Officer.

If a proposal is selected for funding, the Department of State has no obligation to provide any additional future funding. Renewal of an award to increase funding or extend the period of performance is at the discretion of the Department of State.

Issuance of this NOFO does not constitute an award commitment on the part of the U.S. government, nor does it commit the U.S. government to pay for costs incurred in the preparation and submission of proposals. Further, the U.S. government reserves the right to reject any or all proposals received.

If approved for funding, it is important to note that the recipient understands that they bear the legal and sole responsibility for any tax liability they may incur and for obtaining all permissions and approvals relevant to carrying out the grant.

Payment Method:

Recipients will be required to request payments by completing form SF-270—Request for Advance or Reimbursement and submitting the form to the Grants Officer and Grants Officer Representative.

Recipients may not draw down funds without the affirmative authorization of the Department of State. In addition, recipients must submit, with each SF-270 payment request, a detailed explanation justifying the request.

OTHER INFORMATION

Guidelines for Budget Justification

Personnel and Fringe Benefits: Describe the wages, salaries, and benefits of temporary or permanent staff who will be working directly for the applicant on the program, and the percentage of their time that will be spent on the program.

Travel: Estimate the costs of travel and per diem for this program, for program staff, consultants or speakers, and participants/beneficiaries. If the program involves international travel, include a brief statement of justification for that travel.

Equipment: Describe any machinery, furniture, or other personal property that is required for the program, which has a useful life of more than one year (or a life longer than the duration of the program), and costs at least \$10,000 per unit.

Supplies: List and describe all the items and materials, including any computer devices, that are needed for the program. If an item costs more than \$10,000 per unit, then put it in the budget under Equipment.

Contractual: Describe goods and services that the applicant plans to acquire through a contract with a vendor. Also describe any sub-awards to non-profit partners that will help carry out the program activities.

Other Direct Costs: Describe other costs directly associated with the program, which do not fit in the other categories. For example, shipping costs for materials and equipment or applicable taxes. All “Other” or “Miscellaneous” expenses must be itemized and explained.

Indirect Costs: These are costs that cannot be linked directly to the program activities, such as overhead costs needed to help keep the organization operating. If your organization has a Negotiated Indirect Cost Rate (NICRA) and includes NICRA charges in the budget, attach a copy of your latest NICRA. Organizations that have never had a NICRA may request indirect costs of 15% of Modified Total Direct Costs (MTDC) as defined in [2 CFR 200.1](#).

“Cost Sharing” refers to contributions from the organization or other entities other than the U.S. Embassy. It also includes in-kind contributions such as volunteers’ time and donated venues.

Alcoholic Beverages: Please note that award funds cannot be used for alcoholic beverages and other entertainment related expenses.
