APS-688-13-000001 – Amendment 2

Subject: Integrated Rural Program to Improve Nutrition and Hygiene in Mali

Dear Prospective Applicant:

This amendment modifies APS-688-13-000001, Integrated Rural Program to Improve Nutrition and Hygiene in Mali, to provide the following updates for the general consideration of the interested parties.

- The APS is still open; however the announced due date of November 14, 2014 for the second round is no longer valid. An updated date or any other change will be communicated via another amendment to be posted on grants.gov.
- As of September 30, 2013, USAID finalized two (2) awards under the subject APS that totaled the \$20,000,000 initial ceiling of this APS. USAID/Mali will reassess the situation in the months to come in light of these existing programs and taking into account the overall situation in Mali.

Except for the specific changes transmitted through this amendment, all other terms and conditions of the APS as published remain unchanged.

Sincerely,

Aaron Ruble
Agreement Officer
