Question: We wanted to inquire whether it would be possible for DOS to consider adjusting the deadline for questions to an earlier date? While June 28 allows ample time to compile questions, the 24-48hr business day turn around for posting responses means the information will be shared during a holiday week, and leaves minimal time to make adjustments to the proposal package prior to the 7/8 submission deadline, should those responses affect our materials.

DOS Response: Per the NOFO, questions must be submitted via email to contact listed in G.1. by the deadline outlined on page 1. Questions and answers will be posted within 1-2 business days from the *date of receipt*. Prospective applicants are advised to regularly review the announcement page in grants.gov for any updates.
