C. PROGRAM DESCRIPTION

1. Project Background, Goals, and Objectives

Project Background

The America House Business Impact Series, led by U.S. Embassy Kyiv, provides direct pathways for U.S. businesses to connect with Ukraine’s innovation ecosystem, including startups, technology leaders, and highly skilled talent. The Series helps American firms identify commercial opportunities, build strategic partnerships, and access capabilities across high-growth sectors such as IT, AI, cybersecurity, and dual-use and defense technologies. By connecting U.S. companies to Ukraine’s next generation of innovators, the Series bolsters American competitiveness, expands market opportunities, and reinforces America’s leadership in reconstruction, technology, and innovation.

Ukrainian innovators seeking to enter the U.S. market face critical gaps in investment readiness, practical market navigation, access to trusted professional networks, and sustained mentoring. There is a demonstrated need for hands-on, experience-based programming that includes structured networking opportunities, exposure to real-world case studies, guidance on product–market fit for both B2B and B2C models, and practical insights into U.S. business culture and regional differences in business practices.

Under the America House Business Impact Series umbrella, the Innovation and Tech Lab will directly address these identified needs by providing comprehensive, practical support for Ukrainian innovators seeking to engage with U.S. markets, partners, and innovation ecosystems. By connecting Ukrainian startups with American expertise, companies, and investors, the program advances U.S. strategic interests in supporting Ukraine's economic development while strengthening long-term commercial and technological partnerships aligned with U.S. standards and platforms. American Spaces, as the U.S. Embassy’s flagship public engagement platform, are a trusted, credible source for knowledge and skills development across Ukraine. The Innovation and Tech Lab will work in partnership with the American Spaces team to identify and recruit participants from primary and secondary audiences.

Primary Audience: Innovation-driven Ukrainian entrepreneurs and business leaders, including startup founders, growth-oriented SMEs, technology leaders (AI, dual-use, digital, advanced manufacturing), and innovation ecosystem representatives. Participants must be able to attend in-person programming.

Secondary Audience: Students and early-career professionals interested in entrepreneurship and innovation, seeking to build practical skills and engage with innovation ecosystems as a pipeline for future U.S. exchange programs and long-term engagement with the American Spaces Network.

Project Goals

The overarching goal of the Lab is to strengthen U.S.–Ukraine cooperation in innovation, technology, and creative industries by connecting Ukrainian startups and ecosystem actors with U.S. markets, investors, mentors, and partners. This initiative advances U.S. strategic economic interests by positioning the United States as Ukraine’s private sector partner of choice.

As part of the America House Kyiv Business Impact Series (<https://www.americahousekyiv.org/america-house-business-impact-series>) this project serves as the American Spaces network’s core program in Ukraine to showcase U.S. leadership in innovation, creative industries, and frontier technologies while translating this leadership into practical cooperation through training, mentorship, and partnerships.

Project Objectives

1. **Increase participants' understanding of the U.S. startup ecosystem and market requirements.** By the end of the program, at least 50% of participants will demonstrate increased understanding of U.S. market expectations, regulatory frameworks, and business practices, as measured through post-program assessments.

1. *Administrative and National Policy Requirements*

Before submitting an application, applicants should review all the terms and conditions and required certifications which will apply to this award, to ensure that they will be able to comply. These include:

In accordance with the Office of Management and Budget's guidance located at 2 CFR part 200, all applicable Federal laws, and relevant Executive guidance, the Department of State will review and consider applications for funding, as applicable to specific programs, pursuant to this notice of funding opportunity in accordance with the following:

- [Guidance for Grants and Agreements in Title 2 of the Code of Federal Regulations](#) (2 CFR), as updated in the Federal Register's 89 FR 30046 on April 22, 2024, particularly on:
 - Selecting recipients most likely to be successful in delivering results based on the program objectives through an impartial process of evaluating Federal award applications (2 CFR part 200.205),
 - Promoting the freedom of speech and religious liberty in alignment with *Promoting Free Speech and Religious Liberty* (E.O. 13798) and *Improving Free Inquiry, Transparency, and Accountability at Colleges and Universities* (E.O. 13864) (§§ 200.300, 200.303, 200.339, and 200.341),

For the avoidance of doubt, the Department has sole discretion over the determination that an award no longer effectuates program goals or agency priorities, and this provision permits awards to be terminated at the Department's convenience, including when it determines that the award no longer advances the national interest.

2. **Reporting**

Reporting Requirements: Recipients will be required to submit financial reports and program reports. The award document will specify what reports are required and how often these reports must be submitted. Note: most recipients will be required to submit quarterly program progress and financial reports throughout the project period. The quarterly progress report must include updated M&E data for that quarter. Progress and financial reports are due 30 days after the reporting period. Final certified programmatic and financial reports are due 120 days after the close of the project period.

All reports are to be submitted electronically.

Foreign Assistance Data Review: As required by Congress, the Department of State must make progress in its efforts to improve tracking and reporting of foreign assistance data through the Foreign Assistance Data Review (FADR). The FADR requires tracking of foreign assistance activity data from budgeting, planning, and allocation through obligation and disbursement. Successful applicants will be required to report and draw down federal funding based on the appropriate FADR Data Elements, indicated within their award documentation. In cases of more than one FADR Data Element, typically program or sector and/or regions or country, the successful applicant will be required to maintain separate accounting records.

3. **Branding and Marking**

The Department of State, its programs, and U.S. Government funding and assistance should be easily identifiable to the Department's global audiences.

Recipients of federal assistance awards must follow the branding guidance published at Guidance for Contracts and Grants - U.S. Department of State Brand System. Branding policy exceptions are outlined in the U.S. Department of State Foreign Affairs Manual 10 FAM 416, Policy Exceptions. For more information, visit: <https://brand.america.gov/>

In addition to the Department of State branding guidance referenced above, recipients of new Public Diplomacy awards promoting Freedom 250 activities will also be required to incorporate the Freedom 250 logos in all program materials, activities, and communications.

The recipient will be expected to follow all existing marking and branding requirements in accordance with Department branding guidance. The Freedom 250 logos would be used in addition to, not in place of, these requirements.

I. **OTHER INFORMATION**

Guidelines for Budget Justification

- **Personnel and Fringe Benefits:** Describe the wages, salaries, and benefits of temporary or permanent staff who will be working directly for the applicant on the program, and the percentage of their time that will be spent on the program.

- Travel: Estimate the costs of travel and per diem for this program, for program staff, consultants or speakers, and participants/beneficiaries. If the program involves international travel, include a brief statement of justification for that travel.
- Equipment: Describe any machinery, furniture, or other personal property that is required for the program, which has a useful life of more than one year (or a life longer than the duration of the program), and costs at least \$10,000 per unit.

- Indirect Costs: These are costs that cannot be linked directly to the program activities, such as overhead costs needed to help keep the organization operating. If your organization has a Negotiated Indirect Cost Rate (NICRA) and includes NICRA charges in the budget, attach a copy of your latest NICRA. Organizations that have never had a NICRA may request indirect costs of 15% of Modified Total Direct Costs (MTDC) as defined in [2 CFR 200.1](#).
- “Cost Sharing” refers to contributions from the organization or other entities other than the U.S. Embassy. It also includes in-kind contributions such as volunteers’ time and donated venues.
- Alcoholic Beverages: Please note that award funds cannot be used for alcoholic beverages and other entertainment related expenses.
