STATEMENT OF PUBLIC PURPOSE

This project will benefit the public by ensuring safety along cave tour routes where bats might be encountered. Youth interns working on this project will count and monitor bats to inform management decisions and will ensure visitor and employee safety around bats by locating and potentially relocating injured or sick bats. This project supports Mammoth Cave National Park's aggressive response and monitoring activities associated with white-nose syndrome disease in bats. The interns will gain valuable hands-on experience in natural resource management and research techniques, they and will have an opportunity to interact with other park staff, visiting researchers, and park visitors. Numerous previous bat interns have used similar internships here at the park as a launching point for graduate school or careers in natural resources.

STATEMENT OF WORK SUMMARY

(1) Unsolicited Proposal – The proposed award is the result of an unsolicited assistance application which represents a unique or innovative idea, method, or approach which is not the subject of a current or planned contract or assistance award, but which is deemed advantageous to the program objectives. The unsolicited proposal must demonstrate an innovative capability or concept not currently available to the government, and prepared without Government involvement. ;

(2) Continuation – The activity to be funded is necessary to the satisfactory completion of, or is a continuation of, an activity presently being funded, for which competition would have a significant adverse effect on the continuity or completion of the activity;
