E-mail: michelle_gadd@fws.gov

Failure to register in the System for Award Management (SAM) and provide complete information, as outlined below, may cause delays, postponement, or rejection of a grant application.

I. DESCRIPTION OF FUNDING OPPORTUNITY

The Rhinoceros and Tiger Conservation Fund is soliciting proposals for the conservation of rhinoceroses and/or tigers throughout their ranges. The Rhinoceros and Tiger Conservation Act was passed in 1994 to provide financial resources for the conservation programs of nations whose activities directly or indirectly affect rhinoceros and tiger populations.

The Rhinoceros and Tiger Conservation Fund supports projects that promote conservation through:

- Enhanced protection of at-risk rhinoceros and tiger populations;
- Reducing demand in consumer countries and trafficking for illegal rhino and tiger parts, products and live animals;
- Protected area/reserve management in important rhinoceros and tiger range;
- Veterinary care for wild populations;
- Habitat conservation and management;
- Reintroduction to former range;
- Restoration of habitat;
- Wildlife inspection, law enforcement, and forensics skills;
- Conservation education and community outreach;
- Efforts to decrease human-rhinoceros and human-tiger conflicts;
- Strengthening local capacity to implement conservation programs;
- Transfrontier rhinoceros and tiger conservation;
- Applied research on rhinoceros and tiger populations and their habitats, including surveys and monitoring;
- Development and execution of rhinoceros and tiger conservation management plans; and
- Compliance with applicable treaties and laws that prohibit or regulate the taking or trade of rhinoceros and tigers or regulate the use and management of their habitat.

Proposed project work should occur within the rhinoceros or tiger range, or, if work is to be conducted outside of the range, the proposal should show clear relevance to rhinoceros or tiger conservation. If the project includes research, the applicant must provide a convincing argument that the results will address management needs or threats from disease and climate change and will result in management actions.

II. AWARD INFORMATION

Due to the limited funds available, proposals requesting less than \$50,000 USD and demonstrating in-kind or financial matching support have a higher likelihood of being selected. Higher amounts may be requested with appropriate justification. Although the period of performance for projects funded under this program is typically one year, there are no restrictions on funding proposals for activities exceeding one year. If the applicant wishes to request a period greater than one year, it should be noted on the Cover Page and the proposal and timetable should describe activities for the entire proposed period of performance. The period of performance for all funded projects begins on the date the award is signed by the USFWS. Past and present recipients of awards under this Fund are eligible but must submit new proposals to compete for funding each year. This Fund uses grant agreements as the assistance instrument.

III. ELIGIBILITY INFORMATION

Eligible Applicants: Any government agency responsible for the conservation and protection of rhinoceroses and/or tigers and any other organization, multi-national secretariat, or individual with demonstrated experience in rhinoceros and/or tiger conservation may submit proposals to this Fund. U.S. non-profit, non-governmental organizations must submit documentary evidence of their Section 501(c)(3) non-profit status.

Ineligible Activities: The Division of International Conservation will not fund:

- the purchase of firearms or ammunitions;

- buying intelligence information or paying informants;
- gathering information by persons who conceal their true identity;
- law enforcement operations that, to arrest suspects, prompt them to carry out illegal activities (entrapment);
- any activity that would circumvent sanctions, laws or regulations of either the U.S. or the country of proposed activity;
- projects in countries determined by the U.S. Department of State to have repeatedly provided support for acts of international terrorism. These countries are subject to four main categories of sanctions which include restrictions on U.S. foreign assistance, miscellaneous financial, and other restrictions. See <http://www.state.gov/j/ct/list/c14151.htm> for more information;
- projects in countries included in comprehensive sanction programs administered by the U.S. Department of Treasury, Office of Foreign Asset Controls, without proper licenses. See <http://www.treasury.gov/resource-center/sanctions/Pages/default.aspx> for more information on OFAC and specific comprehensive and non-comprehensive sanction programs.

Applicant and Partner Contributions: Applicants and/or other project partners must contribute funds to the project, which may include cash or in-kind contributions. Applicant and partner contributions cannot be included as contributions for any other federally assisted project or program. Funds provided by another U.S. Federal Government agency or another USFWS award cannot be reported as matching contributions but should be noted and explained in detail. Only verifiable contributions should be included as match. A match shown during one year may not be repeated as a match in a subsequent proposal.

IV. APPLICATION AND SUBMISSION INFORMATION

Failure to register in the System for Award Management (SAM) and provide complete information, as outlined below, may cause delays, postponement, or rejection of a grant application.

SUBMISSION DEADLINES: **December 2** is the annual deadline for applications. A confirmation email will be sent out to applicants once their submission has been received.

1. APPLICATION FORMAT AND CONTENT

You must submit your proposal in English. Proposals should be ten pages or less. Figures, tables, maps, and required forms do not count toward the ten-page limit.

Your proposal should include these elements:

A. Application Cover Page

Complete the Application Cover Page located at <http://www.fws.gov/international/pdf/cover-page.pdf> according to the instructions on page 3 of the form.

B. Project Summary

BRIEFLY summarize your project in one page or less. Include the title of the project, geographic location, and a brief overview of the need for the project. This should be a stand-alone overview of your project that we can use to describe your project to the public. Goal(s), objectives, specific project activities, anticipated outputs, and conservation outcomes can also be included in this section.

C. Project Narrative

Please bear in mind that every proposal must be a stand-alone document. Not all proposal reviewers may be familiar with past grants, so the proposal itself should include all the major points that a reader needs to know. Do not expect reviewers to refer to past proposals or reports or outside references but instead summarize them as necessary.

1. **Statement of Need:** This section should answer the question, “Why is this project necessary?” The statement of need should clearly identify the **targeted species or habitat**, a description of the **direct threats**

that adversely affect the targeted species/habitat at the project site, a justification for which threat(s) is the most important to address, and the specific **activities and threats that the project will implement and address**.

Describe why this project is necessary and include supporting information. Summarize previous or ongoing efforts (of your organization as well as other international, national, regional, and/or local organizations or individuals) that are relevant to the proposed work. Explain how your proposal differs from past work or builds upon it. Explain the successes or failures of past efforts and how your proposal builds upon those.

If you have received grants previously (from USFWS or any other donor) for this work or this specific site, provide a summary of those activities and accomplishments so that reviewers can better understand the proposal in context. A table may be the most efficient way to convey this information: including columns for donor, reference number, amount funded, year of activity, and bullet points of major activities, outcomes, or products.

2. **Project Goals and Objectives:** This section should answer the question, “What do you want to achieve?” State the long-term, overarching goal(s) of your program. Objectives are the specific outcomes that you will accomplish in order to reach your stated goal(s). Your objectives must be attainable within the project period and should be specific, measurable, and realistic.
3. **Project Activities, Methods, and Timetable:** This section should answer the questions “What are you going to do?” and “How exactly are you going to do it?” List the proposed **project activities** and how they relate to your objectives. Activities are the specific actions that you undertake to fulfill your objectives and reach your goal. Provide a detailed description of the method(s) for each activity. The project activities, equipment used/requested, and personnel conducting the work should be clearly articulated in this section, and should correspond with the budget request.

Provide a timetable indicating roughly when (over a 12-month timeframe) activities or project milestones will be accomplished. If there are multiple agencies, organizations, or individuals involved, it may be helpful to include a column showing which party will be responsible for each activity. Include any tables, spreadsheets or flowcharts within the body of the narrative (DO NOT include separate attachments). The timetable should not propose specific dates, but should show what will be done monthly throughout the activity period. To view a sample project timetable go to: http://www.fws.gov/international/DIC/pdf/Sample_timetable.pdf

4. **Stakeholder Coordination/Involvement:** This section should answer the question, “Who are you going to be working with?” Describe how you have coordinated with and involved local resource managers and other relevant organizations or individuals in planning your project, and how they will be involved in conducting project activities and disseminating project results or incorporating your results/products into their activities.

Where multiple groups are working in the same site, or are listed as stakeholders in the proposal, letters of endorsement specifically referring to this proposal and to the proposed collaboration from each partner organization involved will strengthen your proposal.

5. **Project Monitoring and Evaluation:** This section should answer the questions, “What conservation outcomes will your project achieve?” and “How will we know that the project is working successfully?” Project monitoring and evaluation involves two components: (1) creating tangible outputs (*i.e.*, products), and (2) measuring the conservation outcomes (*i.e.*, impacts) of project activities.
 - (1) **Anticipated Outputs:** Identify all expected project outputs, (e.g., management plans, brochures, posters, training manuals, number of people trained, workshops held, hours of training provided, patrols conducted). Where appropriate, describe how outputs will be distributed to the relevant stakeholders, such as host country government agencies, resource managers, local communities, media, and civil society.
 - (2) **Conservation Outcomes:** Conservation outcomes are the desired impacts of a project, such as a change in capacity, threat, or condition of a species or habitat, and should relate directly to your objectives. To track

your progress toward achievement of each project objective, identify what you will measure (i.e., indicators), and how you will measure it (e.g., methods, sample sizes, survey tools). For example:

- Whenever possible, include direct measures of abundance or spatial extent for the focal species, population, or habitat to demonstrate the impact of project activities.
- For education and outreach, include examples of questionnaires or behavioral surveys that you will employ to measure how knowledge, skills, attitudes, and behaviors were affected by your project.
- For training, curricula should be described or attached and assessment tools like exams or tests should be described and benchmarks for passing the training program should be stated.
- For wildlife protection activities, you may wish to measure patrol days, person-hours, or prosecutions secured.
- For reintroduction or veterinary programs, measures of success may focus on the number of animals moved or treated, survivorship, or overall population numbers.

The USFWS values projects that report both the success and failures of efforts as a means by which an applicant can improve their performance and provide lessons learned to improve our efforts to conserve wildlife.

6. **Sustainability:** This section should answer the question, “What is your long-term plan for this project beyond the USFWS funding period?” Describe which project activities will continue beyond the time period described in your proposal, who will continue the work or act on the results you have achieved, and any ideas you have for future funding.
7. **Description of Organization(s) Undertaking the Project:** This section should answer the question, “Who is on the team and how are they qualified to complete the work proposed?” Provide a brief description of the applicant organization and all cooperating organizations and agencies. State the activities for which each group or individual is responsible. Provide brief (1-2 pages) *curricula vitae* for key personnel, identifying their qualifications to meet the project objectives. DO NOT include Social Security numbers, the names of family members, or any other personal or sensitive information including marital status, religion, or physical characteristics. Please refer to people by the same title/role consistently (in the proposal, on the *curricula vitae*, and in the budget table or budget justification).

8. Project Budget Table

Things to consider when developing your Budget Table:

- **Federally Funded Equipment:** If the U.S. Federal Government has paid for equipment for another award, applicants cannot claim it to be a matching or in-kind contribution and SHOULD NOT include it in the budget table. Instead, provide a separate list of any equipment paid for by the U.S. Federal Government that will be used for the project, including the name of the Federal agency that paid for the equipment.
- **Indirect Costs:** We encourage applicants to keep indirect costs to a minimum. Applicants with Negotiated Indirect Cost Rate Agreements (NICRA) must include a copy with their proposal. If they so choose, applicants with NICRA rates may request less than their negotiated rate and/or contribute indirect costs as a match.
- **Program Income:** Your project may include activities that will generate program income. Program income earned as a result of activities supported with Federal funding includes, but is not limited to, the following: income from fees for services, the use or rental of property, the sale of commodities or fabricated items, license fees and royalties on patents and copyrights, and interest on loans. Program income does not include interest earned on advances of Federal funds. Under this Fund, income earned during the project period of an approved award shall be retained by the recipient and used in at least one of the following ways:
 1. added to the funds requested from the USFWS for the project in addition to those committed by the recipient/other partners, and later used to conduct additional activities that will further the project objectives; OR
 2. used to finance the non-Federal share of the project.

If your project will generate program income, provide: (1) a description of how the income will be generated, (2) an estimate of how much income will be made during the project duration, and (3) a description of how the funds will be used. If the income is to be used to conduct additional activities, you must include a Program Income column in your budget table and include all cost categories/items and associated amounts that the program income will cover.

- **Indirect Costs:** Indirect costs are costs which cannot be directly identified with a single grant or cooperative agreement. The indirect costs are applied equitably across all business activities of the organization. Some examples of indirect costs include office space rental, utilities, and clerical and managerial staff salaries. To the extent that indirect costs are reasonable, allowable, and allocable they are a legitimate cost of doing business payable under a U.S. Government grant.

Indirect cost rates are established through a negotiation with the U.S. Government agency which has been assigned cognizance – usually the agency which has the largest volume dollar grants or contracts with the organization. The resulting Negotiated Indirect Cost Rate (NICRA) is binding on the entire government. Indirect costs may not be included in a project budget unless an applicant has a NICRA or will submit a NICRA proposal and related materials with their grant application. Indirect cost rates are not considered in award decisions since they are approved by the Government for standard application on all federal awards and by their nature do not compare across organizations, given the diverse accounting practices and methods for determining rates.

If an applicant organization does not have an established NICRA or submit a NICRA proposal with their grant application, they must list all costs as direct costs. For most local non-U.S. organizations with only a few U.S. Government awards at a time and basic accounting systems, indirect cost rates are generally not warranted. Thus, it is generally best for local non-U.S. organizations to charge all costs direct when possible, rather than establish indirect cost rates. In these cases, the applicant organization should explain direct cost allocations under section #8 “Budget Justifications”.

Applicants with established NICRA rates may choose contribute indirect costs as a match. For more information on NICRAs and direct/indirect costs, please go to <http://www.fws.gov/international/pdf/indirect-cost-rate-agreement-requirements-fa-recipients.pdf>.

Instructions for Budget Table:

Begin your project budget table on a new page. The budget table should include a column for all cost categories/items for the project, one column to show the cost calculation, a column for the total costs, one column for the requested USFWS funding, one or more columns for applicant and partner contributions, and, if applicable, a column for any program income that will be used to conduct project activities, as demonstrated here:

Category/ Budget Item**	Cost Calculation*	TOTAL COST	USFWS	“Applicant”	“Partner X”	“Partner Y”	Program Income (if applicable)
Totals							

*Present all amounts in U.S. dollars

**We cannot accept the term “contingencies” in the budget as a line item

Go to <http://www.fws.gov/international/pdf/sample-budget.pdf> to view a sample project budget table.

The budget table should provide enough information for reviewers to be able to understand the cost basis and calculation at a glance. For example, a \$3,300 line item for lodging costs should include the formula for how the cost was calculated: *Lodging for 20 nights x 11 people x \$15/night = \$3,300*. Wherever possible, cost calculations should be included in the Project Budget Table but where necessary, additional description should be provided in the Budget Justifications. If the budget table requires more than one page, verify that column headings showing the donor organization and row titles for the items appear on all pages.

- 9. Budget Justifications:** Justify or explain all requested budget items/costs. Demonstrate a clear connection to project activities, and show how line item amounts were determined. For expensive items or large single purchases, provide detailed technical specifications or a pro-forma invoice. Requests for personnel salary should be well documented, including the base-line salary figure and the estimate of time (percent) to be directly charged to the project. Assistance to cover personnel salaries is generally given a lower priority.
- 10. Governmental Endorsement:** Non-governmental applicants must include a RECENT letter of support (no older than two years) from the appropriate local, regional, or national government wildlife or conservation authority. Endorsement letters should make specific reference to the project by its title, as submitted on the applicant's proposal.
- 11. Map:** This section should answer the question, "Where is this project located?" Provide a map showing the location of your project site at the regional or national level. Ensure that the sites that you have referred to in the proposal are labeled on the map.

Provide the latitude and longitude coordinates of a representative geographic location for your project in decimal degrees format (NOT degree-minute-seconds format). For example, USFWS in Arlington, Virginia, USA, would be provided as 38.8825, -77.1145 (latitude, longitude). Please correctly enter north and east coordinates as positive values, and south and west coordinates as negative values.

2. PROPOSAL APPLICATION CHECKLIST

ALL PROPOSALS MUST INCLUDE:

- ☐ Signed Grant Application Cover Page (MUST be signed by authorized representative)
- ☐ DUNS Number
- ☐ System for Award Management (SAM) registration
- ☐ Project Summary (1 page)
- ☐ Project Narrative
- ☐ Timetable
- ☐ Budget Table
- ☐ Budget Justification
- ☐ Curricula vitae (1-2 pages) for key personnel
- ☐ Recent Letter of Governmental Endorsement
- ☐ A copy of your organization's Negotiated Indirect Cost Rate Agreement, if applicable
- ☐ Map
- ☐ Audit Report (Only necessary if your organization has expended more than \$500,000 of Federal assistance per year. For more information go to: <http://harvester.census.gov/sac/>)
- ☐ Foreign Contribution (Regulation) Act (India only)

PROPOSALS FROM U.S. APPLICANTS MUST ALSO INCLUDE:

- ☐ A complete, signed Standard Form 424-Application for Federal Assistance <http://www.fws.gov/international/DICprograms/sf%20424.pdf>
- ☐ A complete Standard Form 424b-Assurances <http://www.fws.gov/international/DICprograms/sf%20424b.pdf>
- ☐ Grants.gov registration
- ☐ Documentary evidence of Section 501(c)(3) non-profit status, if applicable

3. SUBMISSION INSTRUCTIONS

A. REGISTRATION: Before submitting a proposal, you must be registered in DUNS and begin registering in SAM- registration may take several weeks for each. Please read through our consolidated General Instructions before registering: <http://www.fws.gov/international/pdf/sam-duns-registration-instructions.pdf>

Dun & Bradstreet Universal Number System (DUNS): U.S. Government-wide policy requires that all applicants, organizations and individuals, both domestic and non-domestic, apply for, and include, a nine-digit Dun & Bradstreet Data Universal Number System (DUNS) on their proposal. Applicants without a DUNS number should go to <http://fedgov.dnb.com/webform>. Applicants who already have a DUNS number are responsible for updating changes to their address or business name with Dun and Bradstreet directly. **The organizational address (Grant Administrator) must match the address in Dun & Bradstreet's system.**

System for Award Management (SAM): All foreign and domestic applicants MUST be registered in the SAM database to apply for funding. SAM is used by the U.S. Government as the repository for standard information about applicants and recipients of federal funds. SAM interfaces with the U.S. Fish and Wildlife grants management database and financial systems, therefore all applicants must be registered with in SAM to receive an award. Recipients must maintain an active SAM registration with current information at all times during the project period. For information on registration and exemptions go to: <https://www.sam.gov/portal/public/SAM/>

Grants.gov: Domestic Applicants MUST apply through Grants.gov. If you do not have an account, you must register. Go to: http://www.grants.gov/applicants/get_registered.jsp.

B. SUBMISSION

Domestic Applicants: You must apply through Grants.gov. Your entire proposal including the cover page MUST be uploaded as a SINGLE .pdf file. Attach your file on the Attachment Form. For further instructions, see above.

Non-Domestic Applicants: May submit through Grants.gov or e-mail

- Grants.gov: See above
- E-mail: All documents must be printable on letter paper (8 ½" x 11"). Format all pages to display and print page numbers. We prefer to receive the entire proposal as a SINGLE file attachment. If you need to submit separate attachments please try to send them all together in a single e-mail message. If your files are too big for a single e-mail, please number your e-mails and attachments so that we know the order of your submissions. E-mail your proposal to the USFWS at MSCF_RhinoTiger@fws.gov

V. APPLICATION REVIEW

The USFWS may solicit advice from qualified experts to conduct a technical review of your proposed project. The USFWS may also discuss your proposal with known past and present partners to reduce the potential for waste, fraud and abuse and to encourage coordination and collaboration among projects on the ground.

Review Criteria: To be considered for funding, proposals must address one or more of this program's priority areas, listed above in the Description of Funding Opportunity. The Division of International Conservation ranks proposals by scoring how well each proposal addresses the program priority areas and the requested elements listed in the Application and Format section above. High priority, well-justified projects that address all of the requested proposal elements will receive higher scores. These scores are not the sole determining factor for final funding decisions. Other review criteria include considering the degree to which a project will:

- Make a significant contribution to the protection, maintenance and/or enhancement of important populations of the target species and/or their habitats;
- Act as a catalyst for activities in a previously neglected area with potential significant conservation value;
- Address an emerging issue with potential significant conservation value;
- Utilize requested funds in an efficient, cost-effective manner to accomplish project objectives;

- Complement activities of other organizations/individuals in a manner which will lead to efficient, effective conservation of the resource;
- Conduct activities that do not duplicate other ongoing activities;
- Address a conservation need identified by a specialist group, or by a regional, national or global strategy such as, in the case of the tiger, a national tiger action plan or the GTI Global Tiger Recovery Program document;
- Conduct activities that will be harmonious with international, national and/or regional conservation priorities, action plans and/or strategies;
- Implement an important element of a larger scale/scope project that would provide synergetic value;
- Apply the best scientific and technical information available in support of project activities;
- Provide training essential to the development of local capacity to implement conservation activities;
- Provide project management experience to local personnel, strengthening the local capacity to manage conservation programs;
- Include the participation of local people in the project activities, or otherwise contribute to local empowerment;
- Promote networking, partnerships and/or coalitions;
- Develop a demonstration activity that can be replicated for widespread use;
- Implement activities or provide benefits that have the potential to be sustained beyond the life of the grant;
- Maintain a positive track record with USFWS based on previous grant support, if applicable, including timely submission of financial and performance reports and a summary of major activities and accomplishments of previous USFWS support in the Statement of Need section.

The above considerations are not listed in any order of importance. All considerations listed do not necessarily apply to every proposal. Following review, applicants may be asked to revise the project scope and/or budget before a final funding decision can be made. The Division of International Conservation occasionally receives and funds proposals outside of the announced submission deadlines that are of such a critical nature that they warrant immediate consideration (examples include projects resulting from a natural disaster, disease outbreak, other imminent threats or population crash, among others).

VI. AWARD ADMINISTRATION

Award Notices: Successful applicants will be e-mailed written notice in the form of an Assistance Award document. Applicants whose projects are not selected for funding will receive an e-mail notice within 180 days of their proposal submission.

Administrative and National Policy Requirements: Go to <http://www.fws.gov/international/pdf/aag.pdf> to review the Division of International Conservation's *Assistance Award Guidelines*, which details the policies, terms and conditions applicable to awards made under this program.

Domestic registrants: Payments will be issued through U.S. Department of Treasury via the self-initiated electronic drawdown system, Automated Standard Application for Payments (ASAP). If your application is selected for award, you will need to contact the Program Officer or Grants Specialist for ASAP enrollment information.

Non-Domestic registrants: Payments to non-domestic grantees are transferred electronically through the U.S. Treasury's International Treasury Services (ITS) system. To receive funding, you must submit a signed Standard Form-270, Request for Advance or Reimbursement (SF-270.) This form is available at <http://www.whitehouse.gov/omb/grants/sf270.pdf> You must also complete an ITS Payment Cover Sheet which will be included in your award notification email. Be sure your account numbers and banking information is accurate. Email both your completed ITS Payment Cover Sheet and your signed SF-270 to the appropriate FWS program located in Section 4 of the ITS Payment Cover Sheet.

Reporting: Grantees are required to submit interim financial and performance reports and final financial and performance reports that conform to USFWS reporting requirements and due dates as described in detail in the Assistance Award Guidelines <http://www.fws.gov/international/pdf/aag.pdf>

E-mail: michelle_gadd@fws.gov

PAPERWORK REDUCTION ACT STATEMENT: The Paperwork Reduction Act requires us to tell you why we are collecting this information, how we will use it, and whether or not you have to respond. Your response is required to receive funding. A Federal agency may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number. We estimate that it will take an average of 22 hours to complete the application and 40 hours to complete a report. These burden estimates include time for reviewing instructions and gathering data. OMB has approved this collection and assigned OMB Control No. 1018-0123, which expires 05/31/2011. The burden estimates do not include the time needed to complete Standard Forms associated with the application and financial reports. You may send comments concerning the burden estimates or any aspect of this information collection to the Information Collection Clearance Officer, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Mailstop 222, Arlington, VA 22203.
