EXECUTIVE SUMMARY

The mission of the State Department's Bureau of International Narcotics and Law Enforcement Affairs (INL) is to minimize the impact of international crime and illegal drugs on the United States, its citizens, and partner nations by providing effective foreign assistance and fostering global cooperation. This mission, which centers on helping our partner nations establish a capable and accountable criminal justice sector, was expanded during the past decade to include stabilizing post-conflict societies through criminal justice sector development and reform. This mission supports peace and security by stabilizing and strengthening security institutions and by combating narco-trafficking and other transnational crimes such as money laundering and criminal gangs. It promotes just and democratic governments by strengthening justice sector institutions, good governance and respect for human rights.

INL combines forces with other USG and international agencies and takes a regional approach to widespread problems. INL also encourages more developed governments to take responsibility as equal partners in global efforts to combat transnational crime, include drug trafficking. The Bureau's priority programs support three inter-related objectives:

- **BUILDING CRIMINAL JUSTICE SYSTEMS:** Institutionalize rule of law by developing and expanding criminal justice systems to strengthen partner country law enforcement and judicial effectiveness, foster cooperation in legal affairs, and advance respect for human rights;
- **COUNTER-NARCOTICS:** Disrupt the overseas production and trafficking of illicit drugs through targeted counter-narcotics and institution-building assistance and coordination with foreign nations and international organizations, and;
- **TRANSNATIONAL CRIME:** Minimize the impact of transnational crime and criminal networks on the U.S. and its allies through enhanced international cooperation and foreign assistance.

SECTION I – PROGRAM DESCRIPTION

BACKGROUND

Bosnia and Herzegovina's justice sector has undergone a series of reforms since 2003 with the goal of joining the European Union (EU). Though this process has been slow, Bosnia and Herzegovina (BiH) formally filed its application for EU accession in February 2016. The accession process has catalyzed reforms that affect the criminal justice system, but significant rule of law development still needs to be achieved.

The Office of the High Representative (OHR) introduced substantial reforms to the BiH criminal justice system in 2003 with the introduction of new state-level, the Federation of BiH (FBiH), and Republika Srpska (RS), and Brcko District Criminal Procedure Codes (CPCs). This represented a significant shift from BiH's inquisitorial legal system. Specifically, the CPCs introduced elements associated with an adversarial system and significantly changed the roles of judges and prosecutors in criminal cases. For example, the CPC reform removed judges' power to produce detailed dossiers, limited their investigative role, and reassigned key duties to police and prosecutors. This new procedure for investigations required a change in the culture of how they would be performed and caused confusion among local justice sector actors unfamiliar or uncomfortable with their new roles and responsibilities. Another key change was the introduction of police-prosecutor cooperation and the requirement for prosecutors to provide guidance to police in carrying out investigative activities.

Since 2003, the CPCs have been amended many times, creating patchworks of legislation. The Constitutional Court of BiH has ruled a number of state-level CPC articles unconstitutional. Additionally, difficulties in coordination between police and prosecutors, varying interpretations of key provisions, and questions over the legality of certain provisions have caused uncertainty over the effectiveness of the CPC writ large. After nearly 15 years of practical application and the above referenced issues, it is necessary to revise and improve the CPCs. This process will involve amending provisions as well as reconciling any inconsistencies and contradictions and consolidating amendments into one clear, coherent, and consistent document in line with BiH laws, EU standards, and international best practices.

PROJECT PURPOSE/DESCRIPTION

Through capacity building programs, INL plays a vital role in the Department of State's efforts to strengthen the rule of law in BiH, including by helping strengthen the justice sector and improving citizens' confidence governing institutions. In an effort to improve the efficiency and effectiveness of the criminal justice system, INL seeks to assist local experts and justice sector professionals in recommending amendments to the CPCs to help establish a more effective and efficient criminal justice system and to assist BiH in meeting its obligations under the Bosnia and Herzegovina Justice Sector Reform Strategy 2014-2018 and for EU accession.

PROJECT GOALS

The goal of this project is to organize and facilitate a Bosnian-led process to redraft the 2003 CPCs and to update them; eliminate contradictions, inconsistencies, and obsolete passages; align them with decisions from the BiH Constitutional Court; and ensure the result is in compliance with BiH laws, EU standards, and international best practices. Post's OPDAT Resident Legal Advisor (RLA) will act as lead facilitator during this project. Additionally, the project must provide opportunities to law

school students to intern, support, or observe this project. The internship must not be considered as an add-on to this project. Rather, this internship is intended to educate future lawyers and legislators on how to properly update the CPC.

PROJECT OBJECTIVES

Objective 1: Design a systematic, Bosnian-led process for considering and redrafting all articles of the state-level, entity, and Brcko District Criminal Procedure Codes as necessary. The final products must incorporate relevant decisions by the BiH Constitutional Court, strengthen sentencing standards/guidelines, and be fully compliant with BiH laws, European Union (EU) standards, and international best practices.

Activity 1: Develop a methodical, structured, Bosnian-led plan of action and timeline to consider each CPC article and provide revisions or redrafts as necessary. Identify key milestones and develop appropriate deliverables, particularly at the project's halfway point. The plan of action must support a working group of local justice sector professionals to review and redraft the CPCs. This plan must consider all existing articles of the CPCs and be completed within no more than three years of program commencement. The plan, timeline, and associated deliverables must be approved by INL Sarajevo before implementation. Final drafts must consolidate and update the CPCs as appropriate; eliminate contradictions, inconsistencies, and obsolete passages; incorporate and align with decisions from the BiH Constitutional Court; and ensure the final result is in full compliance with BiH laws, EU standards, and international best practices. Following the completion of the state-level CPC, apply the same amendments to entity and Brcko District (BD) CPCs, in the interest of harmonization.

Activity 2: Work with all relevant officials at state, entity, and BD levels (especially the relevant Ministries of Justice and Parliamentary officials) and other parties to garner official support, buy-in, and formal permissions to implement the project. Organize, support, and host Bosnian-led briefings on progress and challenges to Ministries of Justice and other government officials (including relevant Parliamentary officials), international organizations, and local nongovernmental organizations on a quarterly basis and when requested. Prepare translated versions of completed revised CPC articles for discussion at quarterly briefings. Provide interpretation as necessary or when directed by INL Sarajevo.

Activity 3: Work closely with INL Sarajevo to identify and secure the participation of eight (8) to ten (10) highly qualified BiH justice sector professionals for a working group to consider and draft articles for revised CPCs. These individuals should be selected from state and entity-level judiciaries and prosecution offices and from appropriate higher education institutions. They will receive a reasonable, appropriate honorarium. Composition of this team should be gender-balanced and include representatives from each ethnicity. INL Sarajevo must approve each member of the working group. Garner formal Ministry of Justice approval of this working group to ensure appropriate buy-in.

Activity 4: Develop proposed timeline, relevant research, and reference materials for the working group. In particular, create a catalogue to compare similar CPC articles and sentencing standards/guidelines from BiH, Serbia, Croatia, and relevant EU standards. Additionally, create catalogues of the BiH criminal code that organize crimes by their different sentencing/punishment levels. Research, identify, and compile relevant decisions

of the BiH Constitutional Court; clearly link relevant Constitutional Court decisions to their associated CPC articles, and identify which articles have and have not been revised. These documents must be given to the working group prior to the first meeting. Other research and reference materials may need to be developed based on the work of the working group. All research and reference materials must be offered in both local language and English, and turned over to INL Sarajevo.

Activity 5: Develop a process for soliciting comments from interested international stakeholders; appropriate justice sector agencies; relevant parliamentary officials and committees; relevant, local nongovernmental organizations; and the public. The implementer will receive these comments and suggestions, translate as necessary, and present these comments to working group members for their consideration.

Activity 6: Secure and provide all needed resources to properly implement and facilitate the project, including, but not limited to, office and/or conference room space, administrative support, translators, etc. Provide interpretation when necessary or as directed by INL Sarajevo through independent third-party contractors.

Activity 7: Provide biweekly updates to INL Sarajevo via email and in English on the working group's progress and accomplishments. INL Sarajevo will provide the selected implementer with the appropriate contact information.

Objective 2: Organize, fully support, and implement the plan of action to facilitate, consider, and redraft criminal procedure codes, including convening meetings of the working group. Post's OPDAT Resident Legal Advisor (RLA) will act as lead facilitator during this project.

Activity 1: Secure and fully support the participation of the INL Sarajevo OPDAT RLA to act as the lead facilitator for any and all meetings, planning sessions, discussions, etc. Fully brief and prepare INL Director and INL Sarajevo OPDAT RLA on the working group's developments and identified problems, proposed solutions, and next steps.

Activity 2: Prepare, organize, and host working group meetings by securing participation of working group members and OPDAT RLA lead facilitator, developing agendas, and taking detailed meeting minutes to be distributed to all members and facilitators in local language. Highlight identified challenges, and facilitate solutions.

Activity 3: Act as the secretariat for the working group by compiling the working group's revised drafts and into one document to be submitted to the appropriate government authorities. Draft short, explanatory texts for each article, based on the internal discussions of the working group that explain how and why each article was revised. This work should be accomplished in the local language and English.

Activity 4: Proactively follow-up with working group members on their work between meetings. Working group members are expected to draft language for CPC articles to present at meetings. The implementer is responsible for ensuring this work is accomplished and working group members come to each meeting prepared.

Activity 5: Compile all of the working group's proposed, revised CPC articles into one document to be submitted to INL and the appropriate government officials at state, entity and

BD levels at the end of all working group sessions with approval from all working group members. The selected implementer will work with INL Sarajevo to devise the appropriate way forward in this regard. The working group's proposed, revised CPC articles must be accompanied with short, explanatory texts for each article, based on the internal discussions of the working group, that explain how and why each article was revised. This final document must be prepared in both local language and English.

Objective 3: Work with local law schools to develop a “for credit” internship for interested law school students to intern, support, and/or observe this project. The goal of the internship is to educate participating students on the CPC and relevant EU standards and associated relevant criminal justice issues; educate future lawyers and legislators how to properly revise legal codes and legislation; and enhance participants’ legal and legislative skills. Current interns may lead future CPC revisions; it is essential they understand how to do it correctly.

Activity 1: Work with all appropriate government and school officials to identify accredited, appropriate law school(s) especially in Sarajevo and Banja Luka, that can offer current law school students the opportunity to participate in a “for credit” internship in this program. Garner support and all necessary formal permissions to implement and support internship.

Activity 2: Advertise among the student body as an opportunity for students to learn more about the CPC and to practice and develop further their legal and legislative skills.

Activity 3: Develop and implement a vigorous internship program that provides students meaningful, interesting opportunities to assist in the work of the working group and the overall program. Provide organization, direction, administrative support, and productive opportunities for participating interns. Students’ activities should focus on developing their legal and legislative skills and could include tasks such as observation of working group sessions, legal research, notetaking, or compiling comments from outside organizations, among other activities.

CROSS-CUTTING AND ADDITIONAL ACTIVITIES

1. **Coordination and De-conflicting of Projects (if current projects exist in-country)** No known similar projects exist in country, but as noted in Objective 1, Activity 2, implementer must work with relevant government ministries and other parties to ensure proper deconfliction and coordination.
2. **Buy-in and Local Ownership:** As noted in Project Goals and Objective 1, this project must be Bosnian-led. Local buy-in and local ownership are essential prerequisites for success.
3. **Community Involvement:** As noted in Project Goals and Objective 1, this project must be Bosnian-led. Local buy-in and local ownership are essential prerequisites for success.
4. **Utilize Local Resources and Expertise:** As noted in Project Goals and Objective 1, this project must be Bosnian-led. Local buy-in and local ownership are essential prerequisites for success.

5. Program Expansion

Applicants are strongly encouraged to demonstrate how their project might leverage funding through other organizations.

6. Other Considerations

TARGET POPULATION

Applicants should identify target audiences, specific demographics, and the region(s) in which the project will be implemented. It is particularly important to specify the approximate number of beneficiaries to be directly and indirectly impacted by project activities.

DESIRED RESULTS AND ILLUSTRATIVE INDICATORS

Halfway through the approved project timeline, the selected applicant must have provided substantial assistance to the redrafting of CPCs in BiH. Facilitating a process led by appropriate Bosnian and Herzegovina justice sector professionals, entirely redrafted criminal procedure codes will be produced by end of project.

The recipient will develop a project-level Performance Monitoring plan (PMP) with semi-annual, annual, and end-of-project targets and results anticipated for key performance indicators. The following table shows indicators that will be measured, as well as illustrative targets, upon which the recipient will be responsible for monitoring and reporting during and after the project. In addition, Embassy Sarajevo will regularly monitor the project's performance to assess whether project activities are on track and targets are being achieved. TIP: Embassy Sarajevo and/or the INL Program Office may specify indicators that grantees will need to collect, if specific indicators are considered a priority.

Outcome indicators for the project are provided below. The recipient is expected to identify targets for these indicators based on what it can reasonably achieve within the performance period of the project, and based on the expected overall project results described above.

<i>Example Outcome Indicators</i>	<i>Illustrative targets:</i>
Percentage of criminal procedure codes redrafted and adopted	100%

Output indicators and illustrative targets for the project are provided below. The recipient should review these and either confirm the illustrative targets or propose alternative targets, as appropriate.

<i>Example Output Indicators</i>	<i>Illustrative targets:</i>
Number of meetings held	TBD
Number of external opinions and suggestions solicited and received	TBD
Number of justice sector professionals who participate in redrafting the criminal procedure code	8-10 people

The recipient may propose additional outputs, indicators, and/or targets as appropriate. The recipient will be required to collect baseline data for all the PMP indicators during the first year of the project.

In addition, certain terms included in the outcomes and indicators will need to be defined at the very beginning of the project so that it is possible to measure the change during and at the end of the project. Examples of such are “capacity”, “spread effect”, etc. Baseline information will be critical for both monitoring and evaluation of project progress and results.

Please include this language if Leahy Vetting will be required for this project. Applicants please be advised that the following will be required if your organization is selected for this announcement.

State Department Leahy Amendment Vetting Requirements:

Funds provided under this award are subject to Section 620M of the Foreign Assistance Act of 1961, as amended, a provision titled “Limitation on Assistance to Security Forces” (the “Leahy Amendment”). In signing this agreement, the Recipient agrees to exercise due diligence to ensure compliance with the Leahy provision and State Department policy, and to cooperate with the State Department in implementation of the Leahy requirement for funds under this award. The Recipient must collaborate with the relevant U.S. Embassy on a case-by-case basis to determine if the Leahy requirement applies to specific activities or proposed participants. Individuals who are not members of the security forces but who participate in activities under the award (e.g., politicians, academics, etc.) generally do not need to be vetted.

Submission Deadline: Each candidate must be cleared under Leahy vetting in advance of participation in activities funded under this award. The vetting process typically takes approximately one month, but may take longer if there are a large number of candidates or if issues arise. Thus, all information on proposed candidates must be received by the Embassy at least sixty (60) days in advance of the training event or other activity.

The Recipient agrees that it will not include any security forces candidate in training or other activities funded under this award until the State Department advises that the candidate has cleared Leahy vetting and is approved for participation.

3. **Cover Page** that sets forth proposal title, name of lead applicant, names of any other participating organizations, name and number of the Target Themes to which the proposal responds, and requested funding amount in U.S. dollars (see the award amount ceiling as stated in the NOFO)
4. **Table of Contents** (not to exceed one [1] page in Microsoft Word) that includes a page-numbered contents page, including any attachments.
5. **Executive Summary** (not to exceed two [2] pages in Microsoft Word) that includes:
 - a) the target country(ies),
 - b) name and contact information for the project's main point of contact,
 - c) a statement of work or synopsis of the program, including a concise breakdown of the project's objectives, activities, and expected results,
 - d) the total amount of funding requested and program length, and
 - e) a brief statement on how the project is innovative, sustainable, and will have a demonstrated impact.
6. **Proposal Narrative** (not to exceed fifteen [15] pages in Microsoft Word). Please note the page limit **does not** include the required documents listed in items #2 - 5 and items #7 – 16 (below).
7. **Summary and Detailed Line-Item Budget** (preferably in Microsoft Excel) that includes three [3] columns including the request to INL, any cost sharing contribution, and total budget (see below for more information on budget format). A summary budget should also be included using the OMB approved budget categories (see SF-424 as a sample). Costs must be in U.S. dollars. (Sample template is provided as an attachment under the announcement via www.grants.gov.)
8. **Budget Narrative** (preferably in Microsoft Word) that includes an explanation and justification for each line item in the detailed budget spreadsheet, as well as the source and a description of all cost-share offered. For ease of review, INL recommends applicants order the budget narrative as presented in the detailed budget. Personnel costs should include a clarification of the roles and responsibilities of key staff and percentage of time devoted to the project. The budget narrative should communicate to INL any information that might not be readily apparent in the budget, not simply repeat with words what is stated numerically in the budget. (Sample template is provided as an attachment under the announcement via www.grants.gov.)
9. **NICRA:** If your organization has a negotiated indirect cost rate agreement (NICRA) and will include NICRA charges in the budget, your latest NICRA must be included as a .pdf file. This document will not be reviewed by the panelists, but rather used by program and grant staff if the submission is recommended for funding and therefore does not count against the submission page limitations, as described above. If your proposal involves subgrants to organizations charging indirect costs, please submit the applicable NICRA also as a .pdf file (see "INDIRECT COST RATE" below for more information on indirect cost rates).

If your organization does NOT have a negotiated indirect cost rate agreement (NICRA) please specify if your organization elects to charge the de minimis rate of 10% of the modified total direct costs. The de minimis rate must be included in the detailed budget and an explanation must be provided in the budget narrative.

10. **Monitoring and Evaluation Plan and/or Logic Model;** (see **TAB B** below for more information on this section); Sample templates provided as attachments under the announcement via www.grants.gov.
11. **Roles and responsibilities of key program personnel with short bios** that highlight relevant professional experience. This relates to the organization's capacity. Given the limited space, CVs are not recommended for submission.
12. **Timeline of the overall proposal** - Components should include activities, evaluation efforts, and program closeout
13. **A list of previous and/or current federal assistance awards received;** please include the awarding agency, point of contact, name of the project, start and end dates, and amount of the award. **If a list of previous and/or current federal assistance awards received cannot be provided, an explanation must be submitted with the proposal submission**
14. **Program Risk Analysis:** Please provide the required risk analysis information as noted in **TAB B** of this NOFO. (Sample template is provided as an attachment under the announcement via www.grants.gov.)
15. **INL Pre Award Annual Survey** – template provided by INL that reviews the organization's financial capacity and infrastructure. (Sample template is provided as an attachment under the announcement via www.grants.gov.)
16. **Attachments** (not to exceed **five (5)** pages total, preferably in Microsoft Word) that include the following in order:
 - a) **Additional optional attachments.** Attachments may include further timeline information, letters of support, memoranda of understanding (MOU)/agreement, etc. For applicants with a large number of letters/MOUs, it may be useful to provide a list of the organizations or government agencies that support the program rather than the actual documentation.

Note: INL retains the right to request additional documentation for those items not included on this form.

ADDITIONAL INFORMATION

OFFICE OF MANAGEMENT AND BUDGET (OMB) CIRCULARS

Organizations should be familiar with 2 CFR 200 on cost accounting principles. For a copy of the OMB circular cited, please contact Government Publications or download from http://www.ecfr.gov/cgi-bin/text-idx?tpl=/ecfrbrowse/Title02/2cfr200_main_02.tpl. Overseas-based nonprofit organizations are legally required to comply with 2 CFR 200.

AUDITS

The recipient's proposal should include the cost of an audit that:

- 1) Complies with the requirements of 2 CFR 200 Subpart F "Audit Requirements;"
- 2) Complies with the requirements of American Institute of Certified Public Accountants (AICPA) Statement of Position (SOP) No. 92-9, "Audits of Not-for-Profit Organizations Receiving Federal Awards;"
- 3) Complies with AICPA Codification of Statements on Auditing Standards AU Section 551, "Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents," where applicable. When the U.S. Department of State is the largest direct source of Federal financial assistance (i.e., the cognizant Federal Agency) and indirect costs are charged to Federal grants, a supplemental schedule of indirect cost computation is required;

4) A non-Federal entity that expends \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of 2 CFR 200 subpart F. *The audit costs shall be identified by 2 CFR 200.435.*

INDIRECT COST-RATE

An organization with a negotiated indirect cost rate agreement (NICRA) negotiated with a cognizant federal government agency other than the U.S. Department of State must include a copy of the cost-rate agreement. Applicants should indicate in the proposal budget how the rate is applied and if any of the rate will be cost-shared. Per 2 CFR 200.414, any non-Federal entity that has never received a negotiated indirect cost rate, except for those non-Federal entities described in Appendix VII to Part 200—States and Local Government and Indian Tribe Indirect Cost Proposals, paragraph D.1.b, may elect to charge a de-minimis rate of 10% of modified total direct costs (MTDC) 200.68 Modified Total Direct cost (MTDC) which may be used indefinitely. MTDC means all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and sub-awards and sub-contracts up to the first \$25,000 of each sub-award or sub-contract (regardless of the period of performance of the sub-awards and sub-contracts under the award). ***MTDC excludes equipment (\$5,000 or greater), capital expenditures, charges for patient care, rental costs, tuition remission, scholarships and fellowships, participant support costs and the portion of each sub-award and sub-contract in excess of \$25,000.*** As described in 2 CFR 200.403, factors affecting allowability of costs, costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. If chosen, this methodology once elected must be used consistently for all Federal awards until such time as a non-Federal entity chooses to negotiate for a rate, which the non-Federal entity may apply to do at any time.

[END OF SECTION IV]

TAB A: PROPOSAL GUIDELINES

Proposals should include the following components:

- Introduction and Problem Statement
- Planned Activities
- Indicators

Problem Statement and Rationale: Describe the problem and how the project will achieve or contribute to achieving a sustainable solution and a measurable outcome. The applicant should explain the extent of existing assistance within the particular geographic area, and how the proposed intervention may complement (or differ from) other similar interventions. The implementer should also explain, as necessary, the particular experience and qualifications they bring to the project. The rationale should also reflect understanding of the priorities and policies of the bureau/post or program with which this agreement is associated.

Planned Activities and Indicators: Describe the planned activities, and relevant stakeholders for implementation. The implementer should highlight key stakeholders and their expected role in the project, along with any contingencies. The implementer should list assumptions that are dependent on the ultimate success of the project. This could include elements like geographic location, coordination efforts with other international organizations, or political will from host governments, private sector, and NGOs. As appropriate, limited contingency possibilities should be included in the proposal, in case the initial planning assumptions are not met. Example of a planned activity and contingency:

Planned Activity	Contingency
<i>Energy efficiency workshops in collaboration with the government of Mexico and other representatives from the Latin America region, focused on raising awareness of energy efficiency standards.</i>	<i>If government of Mexico doesn't engage at the expected level, project team will look to other regional stakeholders, such as the OAS, to assist in convening key stakeholders.</i>

In the proposal, there should be a clearly defined link between each of the following elements as delineated:

Problem Statement → Planned Activities/Inputs → Process Indicators → Output Indicators → Outcome Indicators → Impact
--

Process Indicators measure the activity that has been completed. Please delineate the specific activities to be conducted, such as workshops, roundtables, trainings, forums, exchanges, policy dialogues, etc. All indicators must include targets. Example of a process indicator:

Process Indicator	<i>50 women trained in energy efficiency standards</i>
--------------------------	--

Output Indicators, otherwise known as deliverables associated with the agreement, should be included. Unlike process indicators, outputs are what is produced, and are often tangible. At this level, it is the measurement of ability, knowledge, skills, or access. All indicators must include

targets. Example of an output indicator involving the same participants:

Output Indicator	<i>80 percent of participants demonstrate at least 75 percent cognizance of efficiency standards</i>
-------------------------	--

Outcome Indicators measure the change in system or behavior or practice. Expected outcomes are the results that come from a series of activities that are necessary to achieve impact. All indicators must include targets. Example of an outcome indicator:

Outcome Indicator	<i>30 percent of efficiency standards being implemented in a participant's country as a result of participant's participation.</i>
--------------------------	--

All indicators **must** include measurable, numerical targets, which should serve as the foundation for monitoring and evaluation efforts. Ultimately, proposed activities and achievement of indicator targets will lead to impact.

TAB B: PROGRAM MONITORING AND EVALUATION PLAN and PROGRAM RISK ANALYSIS

INL will work with recipient organizations to implement the appropriate monitoring and evaluation plan that meets both the needs of the bureau and the implementing partner. Incorporating a well-designed monitoring and evaluation component into a project is one of the most efficient methods of documenting the progress and potential success of a program. Successful monitoring and evaluation depend on the following:

- Setting objectives that are specific, measurable, attainable, results-focused, and placed in a reasonable time frame (SMART);
- Linking project activities to stated objectives;
- Developing key performance indicators that measure realistic progress towards the objectives.

INL expects implementing organizations will track participants or partners as appropriate and be able to respond to key evaluation questions, including satisfaction with the program/training, information learned as a result of the program/training, changes in attitude and behavior as a result of the program, and effects of the program on institutions in which participants work or partner with. Applicants should include the monitoring and evaluation process in their timeline.

Recipients will be required to provide reports with an analysis and summary of their findings, both quantitative and qualitative, in their regular **quarterly** progress reports to INL.

The monitoring and evaluation plan should include, at a minimum, the following elements:

- A results “Logic Model” planning document (see sample Logic Model template attached as a sample document)
- Indicators, as described in Tab A, as well as details on how each indicator will be measured, frequency of the measurements, units of measure, etc. Provide indicators at the output and outcome levels. Monitoring and evaluation plans should include a chart component that clearly delineates indicators and targets. All indicators must include measurable, numerical targets.
- Establish, where possible, performance baseline data and expected performance targets for each indicator/outcome. In some cases, the baseline may be zero.
- Describe monitoring and evaluation tools, such as rapid assessment surveys, site visits, key stakeholder interviews, etc., that will be used.
- Plans should describe how the project’s impact and effectiveness will be monitored and evaluated throughout the project.

INL has included a sample Monitoring and Evaluation template as an attachment to the NOFO.

PROGRAM RISK ANALYSIS

Risks are unavoidable – all programs inherently contain both internal and external risks. However, with proper identification and management, risks can be prepared for, minimized or mitigated. The purpose of a risk analysis is to identify the internal and external risks associated with the proposed

program in the application, rate the likelihood of the risks, rate the potential impact of the risks on the program, and identify actions that could help mitigate the risks. A risk analysis should not be considered a one-time exercise or a static document. INL defers to organizations to conduct adequate risk analysis and remediation for all of its operations and advises that risk analysis and remediation occur throughout the life of a program and should result in revisions to risk analysis documents and processes as necessary. Applicants should include all assumptions and external factors identified in the logic model in the risk analysis. Applicants should rate the likelihood of a risk and potential impact of the risk as “High,” “Medium,” or “Low.” A sample template is provided as an attachment to this NOFO via www.grants.gov.

TAB C: BUDGET GUIDELINES

Complete budgets will provide a detailed line-item budget outlining specific cost requirements for proposed activities. A minimum of three columns should be used to delineate the bureau funding request, cost-share by applicant, and total project funding. Complete applications will include a budget narrative to clarify and justify individual line-items (i.e. calculations of how the costs were derived per month or year, their necessity, and overall contribution to the program's cost-effectiveness).

The three-column proposal line item budget should include the following components, in the suggested format below:

Note: This budget is designed to serve as an example of the format for complete budget submissions and is NOT exhaustive. Individual line items included in each applicant's budget should reflect specific program activities. (pax = participants)

Before grants are awarded, INL reserves the right to reduce, revise, or increase proposal budgets in accordance with the needs of the INL program and availability of funds.

As mentioned above, the detailed budget should also include an accompanying budget narrative document that explains and justifies each line item, in the suggested format below:

LINE-ITEM BUDGET NARRATIVE –

A. Personnel – Identify staffing requirements by each position title and brief description of duties. For clarity, please list the annual salary of each position, percentage of time and number of months devoted to the project. (e.g., Administrative Director: \$30,000/year x 25% x 8.5 months; calculation: $\$30,000/12 = \$2,500 \times 25\% \times 8.5 \text{ months} = \$5,312.$).

B. Fringe Benefits - State benefit costs separately from salary costs and explain how benefits are computed for each category of employee - specify type and rate. Fringe benefit application must be consistent with organization's written policy.

C. Travel - Staff and any participant travel (Note: Staff refers to grantee staff only, and not sub-grantee staff or contractors):

1) international and/or domestic airfare - Please indicate origin and destination (country/city), number of travelers and unit cost per round trip

NOTE: All travel must be booked with economy class fares only. Applicants must explain differences in fares among travelers on the same routes. Note that all travel, where applicable, must comply with the Fly America Act. For more information see <http://www.gsa.gov/portal/content/103191>.

2) in-country travel - Please indicate origin and destination (city), type of transportation, number of travelers and unit cost per traveler per trip.

3) per diem/maintenance: includes lodging, meals and incidentals for both participant and staff travel. Rates of maximum allowances for U.S. and foreign travel are available from the following website: <http://www.policyworks.gov/>. Per diem rates may not exceed the published U.S. government allowance rates; however, institutions may use per diem rates lower than official government rates.

NOTE: Per diem rates must be prorated and/or removed if applicant will pay for refreshments and/or meals for participants during a workshop/conference.

D. Equipment – please provide justification for any equipment purchase/rental, defined as tangible personal property having a useful life of more than one year and an acquisition cost of \$5000 or more.

E. Supplies - list items separately using unit costs (and the percentage of each unit cost being charged to the grant) for photocopying, postage, telephone/fax, printing, and office supplies (e.g., Telephone: $\$50/\text{month} \times 50\% = \$25/\text{month} \times 12 \text{ months}$).

F. Contractual –

a) Subgrants - For each subgrant/contract please provide a detailed line-item budget breakdown explaining specific services. Please provide a subgrant budget using the approved OMB budget format. (See Tab C: Budget Guidelines, above.)

b) Consultant Fees - For example lecture fees, honoraria, travel, and per diem for outside speakers or independent evaluators: list number of people and rates per day (e.g., $2 \times \$150/\text{day} \times 2 \text{ days}$). Consultant/outside expert fees/honoraria should be consistent with the level of experience and based on a fair market value. **(NOTE: Consultant Fees and Honorarium should NOT EXCEED \$526/day)**

G. Other Direct Costs - these will vary depending on the nature of the project. The inclusion of each should be justified in the budget narrative. All costs must be allowable, allocable, and reasonable, and consistent with OMB guidelines. **Line items such as "Miscellaneous," "Other,"**

“Contingency Fund,” and “Reserve Fund” are not permitted.

H. Indirect Charges - See 2 CFR 200.414 , "Indirect Costs"

- 1) If your organization has an indirect cost-rate agreement with the U.S. Government, please include a copy of this agreement. Please specify if your organization elects to charge the de minimis rate of 10% of the modified total direct costs. This does not count against submission page limitations.
- 2) If your organization is charging an indirect rate, please indicate how the rate is applied--to direct administrative expenses, to all direct costs, to wages and salaries only, etc.
- 3) Do not include indirect costs against participant expenses in the Bureau budget, as it generally does not pay for these costs.

Cost Share/Cost-Effectiveness - Explanation of contributions should be included in the budget narrative, whether cash or in-kind. Assign a monetary value in U.S. dollars to each in-kind contribution. If the proposed project is a component of a larger program, identify other funding sources for the proposal and indicate the specific funding amount to be provided by those sources. In addition, it is recommended that budget narratives address the overall cost-effectiveness of the proposal, including leveraging of institutional or other resources. Cost sharing or matching refers to a portion of project or program cost that is not borne by the Federal Government. Grantees must follow cost sharing or matching policy as stipulated in 2 CFR 200.306. Cost sharing amounts proposed will be incorporated as part of the allowable budget items. If selected for an award, your organization will have to provide the minimum amount of cost sharing as stipulated in the budget approved by the Grants Officer. If your organization does not meet its cost share amount stipulated in the approved budget by the end of the period of performance INL will have the option to (1) reduce its contribution in proportion to your organization's contribution in the event that you do not provide the minimum amount of cost sharing stipulated in the budget or (2) hold your organization accountable for the amount specified in the approved budget.

BUDGET CONDITIONS AND RESTRICTIONS:

The Recipient is reminded that funds provided under this agreement must be used in a manner fully consistent with U.S. law. The recipient agrees that none of the funds provided by this award shall be used to lobby for or against abortion. The recipient agrees that none of the funds provided by this award shall be used to pay for the performance of abortion as a method of family planning or to motivate or coerce any person to practice abortions.

Per 22 CFR 200.307 ((e) (1), (2) and (3) of this section please note the following guidance concerning use of Program Income:

- Program income earned during the project period shall be retained by the recipient and, in accordance with the terms and conditions of the award, shall be used in one or more of the ways listed in the following:
 - 1) Added to funds committed to the project by the Department and recipient and used to further eligible project or program objectives.
 - 2) Used to finance the non-Federal share of the project or program.
 - 3) Deducted from the total project or program allowable cost in determining the net allowable costs on which the Federal share of costs is based.
- It is emphasized, however, that the above three alternatives are applicable only when the grantee is a non-profit entity. Any grant to a commercial firm must state that the first of the alternatives is not available for program income earned by the grantee. (GAO noted in its Principles of Federal Appropriations Law at 10-57, that “This approach [option (1)] increases program size.

Both OMB and GAO have expressed preference for the deduction method [option (3)] since it results in savings to the federal government and to grantees.”)

INL will consider budgeted line-items for the following:

- External evaluations to assess the project’s impact (costs must be built into the overall original budget proposal and must be reasonable);
- Costs associated with an internal evaluation conducted by the grantee (costs must be built into the overall original budget proposal and must be reasonable);
- Visa fees, immunizations, and medical insurance associated with program travel;
- A-133 Audit or internal audit for the INL program (or prorated costs that is shared among other Federal Assistance grants/contracts)
- English translation (cost must be built into the original budget proposal and must be reasonable)

The following cost elements **will not be reimbursed** and **are not allowable** in this program:

- Publication of materials for distribution within the U.S.;
- Administration of a project that will make a profit;
- Expenses incurred before or after the specified dates of award period of performance (unless prior written approval received);
- Projects designed to advocate policy views or positions of foreign governments or views of a particular political faction;
- Entertainment and/or Alcoholic beverages;
- Costs of entertainment, including amusement, diversion, and social activities and any associated costs are unallowable, except where specific costs that might otherwise be considered entertainment have a programmatic purpose and are authorized either in the approved budget for the Federal award or with prior written approval of the Federal awarding agency;
- Land;
- Construction;
- Direct support or the appearance of direct support for individual or single party electoral campaigns;
- Duplication of services immediately available through municipal, provincial, or national government;
- Expenses listed as “miscellaneous”, “other”, or “contingencies”;
- Expenses made prior to the approval of a proposal or unreasonable expenditures will not be reimbursed.

INL may make conditions and recommendations on proposals to enhance proposed programs. Conditions and recommendations are to be addressed by the applicant before approval of the award. To ensure effective use of INL funds, conditions or recommendations may include requests to increase, decrease, clarify and/or justify budget costs.

[END OF SECTION IV]

SECTION V – APPLICATION REVIEW INFORMATION

The technical applications and proposal submissions will be evaluated in accordance with the Technical Evaluation Criteria set forth below. Technical evaluation of applications will be based on the extent and appropriateness of proposed approaches and feasibility of achieving the strategic objectives, in accordance with the following criteria.

If award is not made on the initial applications, INL may request clarification and supplemental materials from applicants whose applications have a reasonable chance of being selected for award. The entry into discussion is to be viewed as part of the evaluation process and shall not be deemed by INL or the applicants as indicative of a decision or commitment upon the part of INL to make an award to the applicants with whom discussions are being held.

I. TECHNICAL EVALUATION CRITERIA

A technical evaluation committee, using the criteria shown in this Section, will evaluate the technical applications. The various functional elements of the technical criteria are assigned weighted scores, so that the applicants will know which areas require emphasis in the preparation of applications.

Where technical applications are considered essentially equal, cost may be the determining factor. Applicants should note that these criteria serve as the standard against which all applications will be evaluated and serve to identify the significant matters which applicants should address in their applications.

The relative importance of each criterion is indicated by the number of points assigned. A total of 100 points is possible.

Quality of Program Idea (Total Possible Points - 25):

- Responsive to the solicitation
- Appropriate in the country/regional context
- Exhibits originality, substance, and precision
- Prioritizes innovation but is feasible
- In countries where similar activities are already taking place, provides an explanation as to how new activities will not duplicate or merely add to existing activities

Program Planning/Ability to Achieve Objectives (Total Possible Points – 25):

- Includes a clear articulation of how the proposed program activities contribute to the overall program objectives
- Each activity is clearly developed and detailed
- Provides a comprehensive quarterly work plan for project activities that demonstrates substantive undertakings within the logistical capacity of the organization
- Objectives are clear, specific, attainable, measurable results-focused and placed in a reasonable time frame
- Addresses how the program will engage or obtain support from relevant stakeholders and identifies local partners where appropriate
- Describes the division of labor among the direct applicant, any partners and any potential subgrantees

- Proposal clearly articulates understanding of the security situation/operating environment and plans for ensuring safety of participants
- Includes contingency plans for potential difficulties in executing the original work plan

Program Monitoring and Evaluation (Total Possible Points - 15):

The Monitoring and Evaluation (M&E) Plan includes:

- Narrative explaining how monitoring and evaluation will be carried out and who will be responsible for monitoring and evaluation activities
- Table listing by program objectives the output- and outcome-based performance indicators with baselines and (yearly and cumulative) targets; data collection tools; data sources; types of data disaggregation, if applicable; and frequency of monitoring and evaluation
- Includes an external midterm and/or final evaluation or justification for why one is not included

Multiplier Effect/Sustainability of Impact Rating (Total Possible Points - 10):

- Clearly delineates how elements of the program will have a multiplier effect
- Clearly delineates how impact will be sustainable beyond the life of the grant

Institution's Record and Capacity Rating (Total Possible Points - 10):

- The proposal demonstrates an institutional record of successful programs in the proposed country and the content area
- Personnel and institutional resources are adequate and appropriate to achieve the project's objectives
- Roles, responsibilities, and brief bios/resumes are included for primary staff, and demonstrate relevant professional experience

Cost will be evaluated for realism, reasonableness, allowability, allocability, and cost effectiveness. The pre-award evaluation of cost effectiveness will include an examination of the application's budget detail to ensure it is a realistic financial expression of the proposed project and does not contain estimated costs which may be unallocable, unreasonable, or unallowable. Applications that have more efficient operational systems that reduce operation costs will be favorably considered.

Applications that maximize direct activity costs including cost sharing and that minimize administrative costs are encouraged. Other considerations are the completeness of the application,

adequacy of budget detail and consistency with elements of the technical application. In addition, the organization must demonstrate adequate financial management capability, to be measured by a responsibility determination.
