Executive Summary

Additional Overview Content/Executive Summary

The Administration for Community Living (ACL)/Administration on Aging (AoA) will award one Cooperative Agreement to support a National Resource Center for Women and Retirement (Center). The Federal share will be up to $239,000 per year for a period of up to 60 months, subject to funding availability. The overriding goal of this Cooperative Agreement is to administer a program of national scope to provide education on financial literacy, retirement

education, and planning for economic security in retirement for women, with a focus on women with low incomes, women of color, and women with limited English-speaking proficiency. Through the Center, the grantee will partner with the national aging network to expand such efforts. Additionally, the Center will continue educational efforts to prevent identity theft, fraud, and financial exploitation among older individuals, especially women with low incomes, women of color, and women with limited English-speaking proficiency. The target population will include older adult women, including those who serve as caregivers, women with disabilities, and those who experience health-related and other socioeconomic barriers to planning for their economic security in later life. With many in the target population having caregiving obligations, the Center will work to reduce one of the aspects of caregiver stress by providing access to timely, comprehensive financial information. To be considered for funding, applicants must demonstrate a nationwide presence, extensive knowledge, and a proven track record of expertise concerning the nature of financial literacy, retirement education, and economic security for women.

I. Funding Opportunity Description

The Older Americans Act of 1965, as amended (P.L. 116-131) (OAA) advances the principles of a secure retirement for all individuals. To this end, the AoA seeks to increase the capacity of the Aging Network to assist women to achieve a secure retirement and the means to maintain a robust quality of life. Accordingly, a Cooperative Agreement will be awarded to expand efforts initiated by the National Resource Center for Women and Retirement to provide education on achieving financial literacy and retirement planning for an economically secure retirement for women, with a focus on women with low incomes, women of color, and women with limited English-speaking proficiency. The Center will provide education directly to older women and to aging network professionals. Additionally, the Center will offer education to prevent identify theft, fraud, and financial exploitation among older individuals and their caregivers by targeting older adult women, especially those who serve as caregivers. The women in the target population are among the most subject to the stresses associated with caregiving, managing a home, and often balancing family finances for three generations of family members. For example, it is estimated that American families provide upwards of eighty percent (80%) of all in-home and long-term care services for their aging and disabled family members and loved ones. A recent study of caregiving shows that sixty-one percent (61%) of caregivers of adults are women.[1] Many of these women compose the cohort that we call the “sandwich generation.” While these women are often overlooked as a group with unique issues, they are among the most vulnerable due to the stresses precipitated by the many roles they play. Also, many women of this generation are negatively impacted by social determinants of health and/or experience unique socioeconomic barriers to planning for a secure retirement. Providing access to much needed information about finances and the many pitfalls associated with managing them may help to alleviate some of the stresses linked to the many roles women assume.

The overriding goal of the project is to enable women in the target population to achieve financial literacy, adequately plan for retirement, and live in economic security in later life. Objectives of the project include making available financial literacy and retirement planning information and relevant training designed to reach underserved populations. In partnership with the ACL/AoA and the aging network, the grantee will develop a strategic plan for integrating access to skills that promote basic financial literacy and retirement planning along with strategies for identifying and preventing fraud and elder financial exploitation into OAA programming.

Through the Cooperative Agreement, the grantee will develop, identify, reformat, and/or translate financial education and retirement planning information along with strategies and/or tools for identifying and preventing fraud and elder exploitation for dissemination to older adult women and their families nationwide. The materials developed will provide basic information in a comprehensive, user-friendly format. Materials may consist of written publications, educational workshops, audio-visual products, and social media content, and they must be culturally appropriate and designed to reach underserved populations, including women with low incomes, women of color, and women with limited English-speaking proficiency.

Applicants under this announcement are required to address the following objectives under the Women and Retirement Planning Program:

Promote Nationwide Program Coverage and Expand the Capacity of the Aging Network, AAAs, and ARDCs: Applicants must provide a comprehensive plan with appropriate strategies for achieving nationwide coverage through partnership with ACL/AoA and the aging network. The plan must propose a strategy for integrating financial education and retirement planning into the work of the aging network, especially with Older Americans Act Programs. This includes information designed to enable women in the target population to plan appropriately to live in financial security in older life, and methods for identifying and preventing fraud and elder financial exploitation.

Nationwide program coverage is defined, for this purpose, as assuring that information developed along with consultations and other technical assistance is readily available to the aging network and those in all States and the U.S. territories. The plan is required of all applicants. Types and levels of information available shall be specified as well as the strategies or approaches by which nationwide coverage will be achieved and/or enhanced. Examples of appropriate strategies that may be used to ensure nationwide program coverage include collaboration, formal partnering, sub-grants or contracts with area, statewide, regional, national organizations or other Federal agencies, a web site and web-based strategies, national and statewide media, and outreach plans. Program performance measures will reflect program coverage by target population.

Improve women's access to basic financial and retirement planning and other educational tools that promote financial literacy and help to identify and prevent fraud and elder financial exploitation: Applicants will be required to coordinate with national, regional, statewide, and local professional, membership, and community-based organizations to pilot and adapt successful models for providing women access to user-friendly information to fulfill the Center's goals. This includes providing education on achieving financial literacy and retirement planning for an economically secure retirement for women with a focus on women with low incomes, women of color, and women with limited English-speaking proficiency, and identifying and preventing fraud and elder financial exploitation. Applicants should seek partnerships at the state and local levels to expand the project across the Aging Network and facilitate outreach to average and low-income women, women of color, women with disabilities, and women with limited English-speaking proficiency. The grantee must present a clear strategy for effecting agreements that will reflect this objective.

Promote the type and quality of basic financial and retirement information available for women by cooperating with the broader financial services and educational communities to reach an increased number of average and low-income women, women of color, women with limited English-speaking proficiency and women with disabilities: Desired program results should be reflected by collaborative agreements, increases in performance measures, and progress tracked in project semi-annual reports: formal and informal linkages with the Aging Network; kind and number of materials available to women; kind and number of materials available to women; numbers of women reached; and types of inquiries and responses Applicant plans for project priorities, work plan and activities should reflect activities that will enhance and measure these program results.

Target relevant training and culturally competent educational materials to isolated and hard-to-reach populations: Applicants are required to identify specific target populations that are traditionally underserved due to isolation, ethnic, cultural or language barriers, or other factors. The work should also reflect ACL's commitment to advancing equity, racial justice, and equal opportunity in all we do, including ensuring that people from underrepresented and underserved communities are at the table to inform our work. Applicants will provide a plan to identify underserved women and reach them through innovative and collaborative methods. To achieve this, a comprehensive plan will specify the target population and discuss how barriers to this population will be overcome. Outreach strategies and measures of increased access by the target population must be included in the plan. Applicants must include signed letters of collaboration from organizations representing the target population. Letters must specify the commitments, roles, and activities of the applicant and collaborating organizations to address this objective. Letters merely expressing support for the proposed project will not be considered. The applicant must provide a detailed plan for the management and implementation of the Cooperative Agreement.
This includes:

- Developing a systematic plan for project start-up;
- Providing a comprehensive plan for nationwide program coverage that identifies types of collaborations and innovations designed to reach the targeted populations;
- Proposing strategies for and involving a variety of community, local, and state aging network services organizations, including but not limited to faith-based organizations, as well as other Federal agencies, where appropriate;
- Developing formal partnerships, collaborations and other arrangements as needed to address program objectives;
- Researching the demographics of the population to be served, and identifying barriers to program access;
- Developing outreach strategies specifically designed to overcome these barriers and reach the target population;
- Identifying a specific strategy for partnering with national professional, regional, state and community and faith-based organization with the capacity to recruit or organize pools of volunteers, including women with language and other skills and abilities to help reach minority communities;
- Developing a training plan for staff, partner organizations, and target populations tailored to the specific information required by each group to achieve program objectives;

- Developing outreach strategies and priority areas for financial literacy that include information designed to produce financial literacy and capabilities to plan for a secure retirement, and to identify and prevent fraud and elder financial exploitation, based on assessment of trends, issues and cases identified nationwide; and
- Developing a plan to evaluate project performance, including collection and reporting of information and measuring project progress addressing program objectives.

III. Eligibility Information

1. Eligible Applicants

Domestic public or private non-profit entities including state and local governments, Indian tribal governments and organizations (American Indian/Alaskan Native/Native American), faith-based organizations, community-based organizations, hospitals, and institutions of higher education

2. Cost Sharing or Matching

Cost Sharing / Matching Requirement:
Yes

For awards that require matching or cost sharing by statute, recipients will be held accountable for projected commitments of non-federal resources (at or above the statutory requirement) in their application budgets and budget justifications by budget period, or by project period for fully funded awards. The applicant will be held accountable for all proposed non-federal resources as shown in the Notice of Award (NOA). **A recipient's failure to provide the statutorily required matching or cost sharing amount (and any voluntary committed amount in excess) may result in the disallowance of federal funds. Recipients will be required to report these funds in the Federal Financial Reports.**

For awards that do not require matching or cost sharing by statute, recipients are not expected to provide cost sharing or matching. However, recipients are allowed to voluntarily propose a commitment of non-federal resources. If an applicant decides to voluntarily contribute non-federal resources towards project costs and the costs are accepted by ACL, the non-federal resources will be included in the approved project budget. The applicant will be held accountable for all proposed non-federal resources as shown in the Notice of Award (NOA). **A recipient's failure to meet the voluntary amount of non-federal resources that was accepted by ACL as part of the approved project costs and that was identified in the approved budget in the NOA, may result in the disallowance of federal funds. Recipients will be required to report these funds in the Federal Financial Reports.**

Under this ACL program, ACL will fund no more than 75% of the project's total cost, which means the applicant must cover at least 25% of the project's total cost with non-federal resources. In other words, for every three (3) dollars received in federal funding, the applicant must contribute at least one (1) dollar in non-federal resources toward the project's total cost. This "three-to-one" ratio is reflected in the formula included under Item 18 in the "Instructions for Completing Requested Forms." You can use this formula to calculate your minimum required match. A common error applicants make is to match 25% of the federal share, rather than 25% of the project's total cost.

There are two types of match: 1) non-federal cash and 2) non-federal in-kind. In general, costs borne by the applicant and cash contributions of any and all third parties involved in the project, including sub-grantees, contractors and consultants, are considered matching funds. Volunteered time and use of facilities to hold meetings or conduct project activities may be considered in-kind (third party) donations. Examples of non-federal cash match includes budgetary funds provided from the applicant agency's budget for costs associated with the project. ACL encourages you to not exceed the minimum match requirement. Applications with a match greater than the minimum required will not receive additional consideration under the

review. Match is not one of the responsiveness criteria as noted in Section III, 3 Application Screening Criteria.

IV. Application and Submission Information

1. Address to Request Application Package

Application materials can be obtained from https://www.grants.gov or https://www.acl.gov/grants/applying-grants.

Please note, ACL requires applications for all announcements to be submitted electronically through http://www.grants.gov in Workspace. Grants.gov Workspace is the standard way for organizations and individuals to apply for federal grants in Grants.gov. An overview and training on Grants.gov Workspace can be found here at: https://www.grants.gov/web/grants/applicants/workspace-overview.html

The Grants.gov registration process can take several days. If your organization is not currently registered, please begin this process immediately. For assistance with https://www.grants.gov, please contact them at support@grants.gov or 800-518-4726 between 7:00 a.m. and 9:00 p.m. Eastern Time.

- At the https://www.grants.gov website, you will find information about submitting an application electronically through the site, including the hours of operation. ACL strongly recommends that you do not wait until the application due date to begin the application process because of the time involved to complete the registration process.
- All applicants must have a DUNS number (https://fedgov.dnb.com/webform/) and be registered with the System for Award Management (SAM, www.sam.gov) and maintain an active SAM registration until the application process is complete, and should a grant be made, throughout the life of the award. Effective June 11, 2018, when registering or renewing your registration, you must submit a notarized letter appointing the authorized Entity Administrator. Please be sure to read the FAQs located at www.sam.gov to learn more. Applicants should allot sufficient time prior to the application deadline to finalize a new, or renew an existing registration. This action should allow you time to resolve any issues that may arise. Failure to comply with these requirements may result in your inability to submit your application or receive an award. Maintain documentation (with dates) of your efforts to register or renew at least two weeks before the deadline. See the SAM Quick Guide for Grantees at: https://www.sam.gov/SAM/pages/public/help/samQUserGuides.jsf.

Note: Once your SAM registration is active, allow 24 to 48 hours for the information to be available in Grants.gov before you can submit an application through Grants.gov. This action should allow you time to resolve any issues that may arise. Failure to comply with these requirements may result in your inability to submit your application or receive an award.

- Note: Failure to submit the correct EIN Suffix can lead to delays in identifying your organization and access to funding in the Payment Management System.
- Effective October 1, 2010, HHS requires all entities that plan to apply for and ultimately receive federal grant funds from any HHS Operating/Staff Division (OPDIV/STAFFDIV) or receive subawards directly from the recipients of those grant funds to:

1. Register in SAM prior to submitting an application or plan;
2. Maintain an active SAM registration with current information at all times during which it has an active award or an application or plan under consideration by an OPDIV; and
3. Provide its DUNS number in each application or plan to submit to the OPDIV.

Additionally, all first-tier subaward recipients must have a DUNS number at the time the subaward is made.

- Since October 1, 2003, The Office of Management and Budget has required applicants to provide a Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS) number when applying for federal grants or cooperative agreements. It is entered on the SF-424. It is a unique, nine-digit identification number, which provides unique identifiers of single business entities. The DUNS number is free and easy to obtain.
- Organizations can receive a DUNS number at no cost by calling the dedicated toll-free DUNS Number request line at 866-705-5711.
- You must submit all documents electronically, including all information included on the SF424 and all necessary assurances and certifications. In accordance with the Federal Government's efforts to reduce reporting burden for recipients of federal financial assistance, the general certification and representation requirements contained in the Standard Form 424B (SF-424B) – Assurances – Non-Construction Programs, and the Standard Form 424D (SF-424D) – Assurances – Construction Programs, have been standardized federal-wide. Effective January 1, 2020, the updated common certification and representation requirements will be stored and maintained within SAM. Organizations or individuals applying for federal financial assistance as of January 1, 2020, must validate the federally required common certifications and representations annually through SAM located at SAM.gov.
- After you electronically submit your application, you will receive an automatic acknowledgement from https://www.grants.gov that containshttps://www.grants.gov tracking number. The Administration for Community Living will retrieve your application form fromhttps://www.grants.gov.

Project Narrative

Applications will be reviewed and evaluated using the criteria described in this section. The corresponding point values indicate the relative importance placed on each review criterion. Points will be allocated based on the extent to which the application proposal addresses each of the criteria listed. Applicants should address these criteria in their application materials, particularly in the project description and budget justification, as they are the basis upon which competing applications will be judged during the objective review.

Applicants must document all of their source material. If any text, language and/or materials are from another source, the applicant must make it clear the material is being quoted and where the text comes from. The applicant must also cite any sources when they obtain numbers, ideas, or other material that is not their own. If the applicant fails to comply with this requirement, regardless of the severity or frequency of the plagiarism, the reviewers shall reduce their scores accordingly even to the degree of issuing no points at all.
Applications are scored by assigning a maximum of 100 points across five criteria:

a. Project Relevance & Current Need
b. Approach
c. Budget
d. Project Impact
e. Organizational Capacity

Summary/Abstract

This section should include a brief - no more than 265 words maximum - description of the proposed project, including: goal(s), objectives, outcomes, and products to be developed.

Detailed instructions for completing the summary/abstract are included in the "Instructions for Completing the Project Summary/Abstract."

Problem Statement

This section should describe, in both quantitative and qualitative terms, the nature and scope of the particular problem or issue the proposed intervention is designed to address, including how the project will affect older adults, especially women in the target population described above and people with disabilities, their families and caregivers and interactions among financial industry, the health care and social services systems.

Goals and Objectives

This section should consist of a description of the project's overarching goal and major objectives. Unless the project involves multiple, complex interventions, we recommend you have only one overarching goal.

Proposed Intervention

This section should provide a clear and concise description of the intervention you are proposing to use to address the problem described in the "Problem Statement." You should also describe the rationale for using the particular intervention, including factors such as: "lessons learned" from similar projects previously tested in the field targeted by this announcement; factors in the larger environment that have created the "right conditions" for the intervention (e.g., existing social or economic factors that you'll be able to take advantage of, unique partnerships, etc.). Also note any major barriers you anticipate encountering, and how your project will be able to overcome those barriers. Be sure to describe the role and makeup of any strategic partnerships you plan to involve in implementing the intervention, including organizations not traditionally involved in partnerships with the Aging Network, supporters, and/or consumer groups.

Special Target Populations and Organizations

This section should describe how you plan to involve organizations representative of the diverse community of older individuals, in a meaningful way, in the planning and implementation of the proposed project to reach the target population. This section should also describe whether, and if so, how the proposed intervention will target women, women head of households, disadvantaged and underserved populations, including limited-English speaking populations, disabled individuals, those with greatest economic need, and those of greatest social need.

Outcomes

This section of the project narrative must clearly identify the measurable outcome(s) that will result from the project. (NOTE: ACL will not fund any project that does not include measurable outcomes). This section should also describe how the project's findings might benefit the field at large, (e.g., how the findings could help other organizations throughout the nation to address the same or similar problems). List measurable outcomes in the optional work plan grid ("Project Work Plan – Sample Template") under "Measurable Outcomes" in addition to any discussion included in the narrative along with a description of how the project might benefit the field at

large.

A “measurable outcome” is an observable end-result that describes how a particular intervention benefits consumers. It demonstrates the functional status, mental well-being, knowledge, skill, attitude, awareness or behavior.) It can also describe a change in the degree to which consumers exercise choice over the types of services they receive, or whether they are satisfied with the way a service is delivered. Additional examples include: a change in the responsiveness or cost-effectiveness of a service delivery system; a new model of support or care that can be replicated in the ACL network; new knowledge that can contribute to the field of community living; a measurable increase in community awareness; or a measurable increase in persons receiving services. A measurable outcome is not a measurable “output”, such as: the number of clients served; the number of training sessions held; or the number of service units provided.

You should keep the focus of this section on describing what specific outcome(s) will be produced by the project. You should use the Evaluation section noted below to describe how the specific outcome(s) will be measured and reported. Your application will be scored on the clarity and nature of your proposed outcomes, not on the number of outcomes cited. It is totally appropriate for a project to have only ONE outcome that it is trying to achieve through the intervention reflected in the project’s design.

Project Management

This section should include a clear delineation of the roles and responsibilities of project staff, consultants and partner organizations, and how they will contribute to achieving the project’s objectives and outcomes. It should specify who would have day-to-day responsibility for key tasks such as: leadership of project; monitoring the project’s on-going progress, preparation of reports; communications with other partners and ACL. It should also describe the approach that will be used to monitor and track progress on the project’s tasks and objectives.

Evaluation

This section should describe the method(s), techniques and tools that will be used to:

1. determine whether or not the proposed intervention achieved its anticipated outcome(s), and
2. document the “lessons learned” – both positive and negative - from the project.

Dissemination

This section should describe the method that will be used to disseminate the project’s results and findings in a timely manner and in easily understandable formats, to parties who might be interested in using the results of the project to inform practice, service delivery, program development, and/or policy-making, including and especially those parties who would be interested in replicating the project.

Organizational Capability

Each application should include an organizational capability statement and curriculum vitae for key project personnel. The organizational capability statement should describe how the applicant agency (or the particular division of a larger agency which will have responsibility for this project) is organized, the nature and scope of its work and/or the capabilities it possesses. It should also include the organization's capability to sustain some or all project activities after Federal financial assistance has ended.

This description should cover capabilities of the applicant agency not included in the program narrative, such as any current or previous relevant experience and/or the record of the project team in preparing cogent and useful reports, publications, and other products. If appropriate, include an organization chart showing the relationship of the project to the current organization. Please attach short curriculum vitae for key project staff only. Neither curriculum vitae nor an organizational chart will count towards the narrative page limit. Also include information about any contractual organization(s) that will have a significant role(s) in implementing project and achieving project goals.

Budget Narrative/Justification

The Budget Narrative/Justification can be provided using the format included in the document, "Budget Narrative/Justification – Sample Format." Applicants are encouraged to pay particular attention to this document, which provides an example of the level of detail sought. A combined multi-year Budget Narrative/Justification, as well as a detailed Budget Narrative/Justification for each year of potential grant funding is required.

Work Plan

The Project Work Plan should reflect and be consistent with the Project Narrative and Budget. It should include a statement of the project's overall goal, anticipated outcome(s), key objectives, and the major tasks / action steps that will be pursued to achieve the goal and outcome(s). For each major task / action step, the work plan should identify timeframes involved (including start- and end-dates), and the lead person responsible for completing the task. Please use the "Project Work Plan - Sample Template" format as a reference and resource, if desired.

Letters of Commitment from Key Participating Organizations and Agencies

Include confirmation of the commitments to the project (should it be funded) made by key collaborating organizations and agencies in this part of the application. Any organization that is specifically named to have a significant role in carrying out the project should be considered an essential collaborator. For applications submitted electronically via http://www.grants.gov, signed letters of commitment should be scanned and included as attachments.

ACL will contact you after a determination is made on whether your application will be accepted.

Note: We will not consider your application for further review if you failed to fully register to submit your application to Grants.gov before the application deadline or if the technical problem you experienced is unrelated to the Grants.gov system.

If for any reason (including submitting to the wrong funding opportunity number or making corrections/updates) an application is submitted more than once prior to the application due date, ACL will only accept your last validated electronic submission, under the correct funding opportunity number, prior to the Grants.gov application due date as the final and only acceptable application

Unsuccessful submissions will require authenticated verification from http://www.grants.gov indicating system problems existed at the time of your submission. For example, you will be required to provide an http://www.grants.gov submission error notification and/or tracking number in order to substantiate missing the cut off date.

Grants.gov (http://www.grants.gov) will automatically send applicants a tracking number and date of receipt verification electronically once the application has been successfully received and validated in http://www.grants.gov.

4. Intergovernmental Review

The following activities are not fundable:

- *Construction and/or major rehabilitation of buildings*
- *Basic research (e.g. scientific or medical experiments)*
- *Continuation of existing projects without expansion or new and innovative approaches*

Note: *A recent Government Accountability Office (GAO) report has raised considerable concerns about grantees and contractors charging the Federal Government for additional meals outside of the standard allowance for travel subsistence known as per diem expenses. Executive Orders on Promoting Efficient Spending (E.O. 13589) and Delivering Efficient, Effective and Accountable Government (E.O. 13576) have been issued and instruct Federal agencies to promote efficient spending. Therefore, if meals are to be charged in your proposal, applicants should understand such costs must meet the following criteria outlined in the Executive Orders and HHS Grants Policy Statement:*

- *Meals are generally unallowable except for the following:*
  - *For subjects and patients under study (usually a research program);*
  - *Where specifically approved as part of the project or program activity, e.g., in programs providing children's services (e.g. Head Start);*
  - *When an organization customarily provides meals to employees working beyond the normal workday, as a part of a formal compensation arrangement,*
  - *As part of a per diem or subsistence allowance provided in conjunction with allowable travel; and*
  - *Under a conference grant, when meals are necessary and integral part of a conference, provided that meal costs are not duplicated in participants' per diem or subsistence allowances. (Note: conference grant means the sole purpose of the award is to hold a conference.)*

The following updated sections 2 CFR 200.216 "Prohibition on certain telecommunications and video surveillance services or equipment" became **effective on or after August 13, 2020**.

Recommended Actions for any recipient that has received a loan, grant, or cooperative agreement **on or after August 13, 2020**:

- Develop a compliance plan to implement 2 CFR 200.216 regulation.
- Develop and maintain internal controls to ensure that your organization does not expend federal funds (in whole or in part) on covered equipment, services or systems.
- Determine through reasonable inquiry whether your organization currently uses "covered telecommunication" equipment, services, or systems and take necessary actions to comply with the regulation as quickly as is feasibly possible.

6. Other Submission Requirements

Are letters from any participating organizations included, as appropriate, and if so, do they express the clear commitment and areas of responsibility of those organizations, consistent with the work plan description of their intended roles and contributions, rather than a mere expression of support for the project?

2. Review and Selection Process

As required by 2 CFR Part 200 of the Uniform Guidance, effective January 1, 2016, ACL is required to review and consider any information about the applicant that is in the Federal Awardee Performance and Integrity Information System (FAPIIS), https://www.fapiis.gov before making any award in excess of the simplified acquisition threshold (currently $150,000) over the period of performance. An applicant may review and comment on any information about itself that a federal awarding agency has previously entered into FAPIIS. ACL will consider any comments by the applicant, in addition to other information in FAPIIS, in making a judgment about the applicant's integrity, business ethics, and record of performance under federal awards when completing the review of risk posed by applicants as described in 2 CFR Section 200.205 Federal Awarding Agency Review of Risk Posed by Applicants (https:// www.ecfr.gov/ cgi-bin/ text-idx?node=se2.1.200_1205&rgn=div8).

An independent review panel of at least three individuals will evaluate applications that pass the screening and meet the responsiveness criteria if applicable. These reviewers are experts in their field, and are drawn from academic institutions, non-profit organizations, state and local governments, and federal government agencies. Based on the Application Review Criteria as outlined under section V.1, the reviewers will comment on and score the applications, focusing their comments and scoring decisions on the identified criteria.

Final award decisions will be made by the Administrator, ACL. In making these decisions, the Administrator will take into consideration: recommendations of the review panel; reviews for programmatic and grants management compliance; the reasonableness of the estimated cost to the government considering the available funding and anticipated results; and the likelihood that the proposed project will result in the benefits expected.

Cost breakdowns, or justifications, are required for any cost of $1,000 or for the thresholds as established in the examples. The Budget Narratives/Justifications should fully explain and justify the costs in each of the major budget items for each of the object class categories, as described below. Non-Federal cash as well as, sub-contractor or sub-grantee (third party) in-kind contributions designated as match must be clearly identified and explained in the Budget Narrative/Justification The full Budget Narrative/Justification should be included in the application immediately following the SF 424 forms.

Line 6a: **Personnel**: Enter total costs of salaries and wages of applicant/grantee staff. Do not include the costs of consultants, which should be included under 6h Other.

In the Justification: Identify the project director, if known. Specify the key staff, their titles, and time commitments in the budget justification.

Line 6b: **Fringe Benefits**: Enter the total costs of fringe benefits unless treated as part of an approved indirect cost rate.

In the Justification: If the total fringe benefit rate exceeds 35% of Personnel costs, provide a breakdown of amounts and percentages that comprise fringe benefit costs, such as health insurance, FICA, retirement, etc. A percentage of 35% or less does not require a breakdown but you must show the percentage charged for each full/part time employee.

Line 6c: **Travel**: Enter total costs of all travel (local and non-local) for staff on the project. NEW: Local travel is considered under this cost item not under Other. Local transportation (all travel which does not require per diem is considered local travel). Do not enter costs for consultant's travel - this should be included in line 6h.

In the Justification: Include the total number of trips, number of travelers, destinations, purpose (e.g., attend conference), length of stay, subsistence allowances (per diem), and transportation costs (including mileage rates).

Line 6d: **Equipment**: Enter the total costs of all equipment to be acquired by the project. For all grantees, "equipment" is nonexpendable tangible personal property having a useful life of more than one year and an acquisition cost of $5,000 or more per unit. If the item does not meet the $5,000 threshold, include it in your budget under Supplies, line 6e.

In the Justification: Equipment to be purchased with federal funds must be justified as necessary for the conduct of the project. The equipment must be used for project-related functions. Further, the purchase of specific items of equipment should not be included in the submitted budget if those items of equipment, or a reasonable facsimile, are otherwise available to the applicant or its subgrantees.

Line 6e: **Supplies**: Enter the total costs of all tangible expendable personal property (supplies) other than those included on line 6d.

In the Justification: . For any grant award that has supply costs in excess of 5% of total direct costs (Federal or Non-Federal), you must provide a detailed break down of the supply items (e.g., 6% of $100,000 = $6,000 – breakdown of supplies needed). If the 5% is applied against

$1 million total direct costs (5% x $1,000,000 = $50,000) a detailed breakdown of supplies is not needed. Please note: any supply costs of $5,000 or less regardless of total direct costs does not require a detailed budget breakdown (e.g., 5% x $100,000 = $5,000 – no breakdown needed).

Line 6f: **Contractual**: Regardless of the dollar value of any contract, you must follow your established policies and procedures for procurements and meet the minimum standards established in the Code of Federal Regulations (CFR's) mentioned below. Enter the total costs of all contracts, including (1) procurement contracts (except those which belong on other lines such as equipment, supplies, etc.). Note: The 33% provision has been removed and line item budget detail is not required as long as you meet the established procurement standards. Also include any awards to organizations for the provision of technical assistance. Do not include payments to individuals on this line. Please be advised: A subrecipient is involved in financial assistance activities by receiving a sub-award and a subcontractor is involved in procurement activities by receiving a sub-contract. Through the recipient, a subrecipient performs work to accomplish the public purpose authorized by law. Generally speaking, a sub-contractor does not seek to accomplish a public benefit and does not perform substantive work on the project. It is merely a vendor providing goods or services to directly benefit the recipient, for example procuring landscaping or janitorial services. In either case, you are encouraged to clearly describe the type of work that will be accomplished and type of relationship with the lower tiered entity whether it be labeled as a subaward or subcontract.

In the Justification: Provide the following three items – 1) Attach a list of contractors indicating the name of the organization; 2) the purpose of the contract; and 3) the estimated dollar amount. If the name of the contractor and estimated costs are not available or have not been negotiated, indicate when this information will be available. The Federal government reserves the right to request the final executed contracts at any time. If an individual contractual item is over the small purchase threshold, currently set at $100K in the CFR, you must certify that your procurement standards are in accordance with the policies and procedures as stated in 45 CFR Part 75 for states, in lieu of providing separate detailed budgets. This certification should be referenced in the justification and attached to the budget narrative.

Line 6g: **Construction**: Leave blank since construction is not an allowable costs for this program.

Line 6h: **Other**: Enter the total of all other costs. Such costs, where applicable, may include, but are not limited to: insurance, medical and dental costs (i.e. for project volunteers this is different from personnel fringe benefits), non-contractual fees and travel paid directly to individual consultants, postage, space and equipment rentals/lease, printing and publication, computer use, training and staff development costs (i.e. registration fees). If a cost does not clearly fit under another category, and it qualifies as an allowable cost, then rest assured this is where it belongs.

Note: A recent Government Accountability Office (GAO) report number 11-43, has raised considerable concerns about grantees and contractors charging the Federal government for additional meals outside of the standard allowance for travel subsistence known as per diem expenses. If meals are to be charged towards the grant they must meet the following criteria outlined in the Grants Policy Statement:

- *Meals are generally unallowable except for the following:*
- *For subjects and patients under study(usually a research program);*
- *Where specifically approved as part of the project or program activity, e.g., in programs providing children's services (e.g., Headstart);*
- *When an organization customarily provides meals to employees working beyond the normal workday, as a part of a formal compensation arrangement;*
- *As part of a per diem or subsistence allowance provided in conjunction with allowable travel; and*
- *Under a conference grant, when meals are a necessary and integral part of a conference, provided that meal costs are not duplicated in participants' per diem or subsistence allowances (Note: the sole purpose of the grant award is to hold a conference).*

  In the Justification: Provide a reasonable explanation for items in this category. For example, individual consultants explain the nature of services provided and the relation to activities in the work plan or indicate where it is described in the work plan. Describe the types of activities for staff development costs.

Line 6i: **Total Direct Charges**: Show the totals of Lines 6a through 6h.

Line 6j: **Indirect Charges**: Enter the total amount of indirect charges (costs), if any. If no indirect costs are requested, enter "none." Indirect charges may be requested if: (1) the applicant has a current indirect cost rate agreement approved by the Department of Health and Human Services or another federal agency; or (2) the applicant is a state or local government agency. **State governments should enter the amount of indirect costs determined in accordance with DHHS requirements.** An applicant that will charge indirect costs to the grant must enclose a copy of the current rate agreement. Indirect Costs can only be claimed on Federal funds, more specifically, they are to only be claimed on the Federal share of your direct costs. Any unused portion of the grantee's eligible Indirect Cost amount that are not claimed on the Federal share of direct charges can be claimed as un-reimbursed indirect charges, and that portion can be used towards meeting the recipient match.

Line 6k: **Total**: Enter the total amounts of Lines 6i and 6j.

Line 7: **Program Income**: As appropriate, include the estimated amount of income, if any, you expect to be generated from this project that you wish to designate as match (equal to the amount shown for Item 15(f) on Form 424). **Note:** Any program income indicated at the bottom of Section B and for item 15(f) on the face sheet of Form 424 will be included as part of

non-Federal match and will be subject to the rules for documenting completion of this pledge. If program income is expected, but is not needed to achieve matching funds, **do not** include that portion here or on Item 15(f) of the Form 424 face sheet. Any anticipated program income that will not be applied as grantee match should be described in the Level of Effort section of the Program Narrative.

c. Standard Form 424B – Assurances (required)

This form contains assurances required of applicants under the discretionary funds programs administered by the Administration for Community Living. Please note that a duly authorized representative of the applicant organization must certify that the organization is in compliance with these assurances.

d. Certification Regarding Lobbying (required)

Proof of Nonprofit Status (as applicable)

Non-profit applicants must submit proof of non-profit status. Any of the following constitutes acceptable proof of such status:

- A copy of a currently valid IRS tax exemption certificate.
- A statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals.
- A certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status.

Indirect Cost Agreement

Applicants that have included indirect costs in their budgets must include a copy of the current indirect cost rate agreement approved by the Department of Health and Human Services or another federal agency. This is optional for applicants that have not included indirect costs in their budgets.
