

Grants Management Training

What is it?

FMCSA has released a new eLearning program to guide prospective and current grantees through the grants management process. These eLearning courses and supplemental materials provide a detailed look at grants management, the Office of Management and Budget (OMB) Uniform Guidance, and how FMCSA grant opportunities can help you meet your safety goals.

To find the eLearning program, please visit: <https://ai.fmcsa.dot.gov/StatePrograms/GrantManagement.aspx>

Grants Management Lifecycle

Whether you are new to the world of FMCSA grants or have been working with the Agency for years, this training is designed to help make the process easier and more accessible. The materials focus on the Commercial Driver's License Program Implementation (CDLPI) and High Priority (HP) grant programs, but are applicable to all FMCSA grants.

GRANT APPLICATION

PHASE 1
Notification & Eligibility

PHASE 2
Application Submission

PHASE 3
Award Determination

GRANT IMPLEMENTATION

PHASE 4: Part A
Implementation & Management

PHASE 4: Part B
Implementation & Management

GRANT CLOSE-OUT

PHASE 5
Close-Out

New and Prospective Grantees

Gain an in-depth knowledge of grants management by working through each of the seven eLearning courses covering the entire process, from what grants you might be eligible for, to grant close-out at the end of the period of performance. You can start by reviewing the three eLearning courses that cover Grant Application.

Experienced and Returning Grantees

Even if you've partnered with FMCSA before, you can still benefit from these courses and materials. Whether you need to strengthen your grant application, review grant management requirements, or learn about the audit process, these resources are here to help.

Setting the Proper Foundation

By reviewing the eLearning courses and additional resources, you will be better prepared to apply for and manage FMCSA grants and partner with the Agency to support its Nationwide safety mission.
