2. Executive Summary

The U.S. Mission to Indonesia announces an open competition to implement American Innovation Hubs: AI & Digital Skills for the Creative and Tech Economy. Over a 24-month period of performance, the program will reposition and equip five American Corners — Pontianak, Malang, Yogyakarta, Ambon, and Makassar — as American Innovation Hubs that showcase U.S. leadership in artificial intelligence and the creative economy. The program will

recruit and professionalize the local staff who operate the three corners in Malang, Yogyakarta, and Makassar; equip all five corners with U.S.-built AI hardware and licensed American AI software; train at least 1,500 Indonesian youth, creative professionals, and micro-, small-, and medium-sized enterprises (MSMEs) in full-stack American AI tools and standards; deliver sustained, regular programming that produces original digital content and online marketing campaigns; and build the capacity of at least 25 Corner staff across five competency tracks. The program builds demand for trusted American AI tools and standards, equips Indonesia's youth, creatives, and MSMEs with in-demand digital skills, and advances U.S. economic and innovation leadership in the Indo-Pacific. Primary audiences are technology adopters and content creators aged 18–35, MSME operators, and the American Spaces teams that serve them. Eligible applicants are non-profit organizations, educational institutions, and public international and governmental institutions. The program advances U.S. public diplomacy priorities and showcases U.S. innovation and creativity during the United States' 250th anniversary (Freedom 250). Proposals must be submitted to jakartapasgrants@state.gov by August 30, 2026 at 11:59 p.m. WIB. Please follow all instructions below.

C. PROGRAM DESCRIPTION

1. *Project Background, Goals, and Objectives*

Indonesia is ASEAN's largest economy and most populous nation, with a young, fast-growing digital population that is rapidly adopting artificial intelligence and creative-technology tools. The choices this generation makes about which technologies, standards, and platforms to build on will shape Indonesia's digital economy for decades. Demand for trusted, high-quality AI tools is outpacing access to credible, hands-on training, and U.S. technology providers remain underrepresented in the venues where Indonesian youth, creators, and MSMEs first encounter AI.

This program builds demand for full-stack U.S. artificial-intelligence technologies and standards and supports the continued growth of Indonesia's creative and technology economy. The U.S. Mission to Indonesia's American Spaces network reaches these audiences directly. The Mission has focused its network on five higher-impact American Corners — American Corner Malang, American Corner Makassar, American Corner Yogyakarta, American Corner Pontianak, and American Corner Ambon. These corners put U.S. programming in front of technology adopters, content creators, MSME operators, future policymakers, and youth influencers.

Past American Spaces programming has shown that one-off events generate limited, short-lived engagement, while sustained, skills-based programming tied to tangible participant outputs builds durable relationships and measurable behavioral change. This opportunity builds on those lessons by funding a coherent, network-wide program rather than isolated activities, and by recruiting and professionalizing the teams that operate the corners so that gains are sustained

beyond the award period. Through this NOFO, the Public Diplomacy Section seeks a partner to operationalize the American Innovation Hubs program. Success will be defined by five corners visibly transformed into modern innovation spaces; a documented shift in participant preference toward American AI tools and standards; a steady cadence of locally produced digital content; and a trained, capable cadre of corner staff able to sustain the model.

Project Audience(s): The program serves several distinct audiences across the five host cities of Pontianak (West Kalimantan), Malang (East Java), Yogyakarta (Central Java), Ambon (Maluku), and Makassar (South Sulawesi):

- Indonesian youth and young adults aged 18–35 — technology adopters, content creators, digital entrepreneurs, and startup founders;
- MSME owners and operators in the creative and technology sectors seeking to adopt AI tools for content creation and online marketing;
- American Corner staff and host-institution counterparts who operate the five corners.

Project Goal: Advance U.S. innovation leadership and build sustained Indonesian demand for the American AI technology stack by transforming five American Corners into American Innovation Hubs that equip Indonesia’s youth, creatives, and MSMEs with full-stack American AI and digital skills.

Project Objectives:

- **Objective 1:** *Reposition and equip all five American Corners as American Innovation Hubs with professional U.S. AI hardware, licensed American AI software, and a unified visual identity, with all five corners meeting applicable American Spaces Standards by the end of the program.*
- **Objective 2:** *Recruit, hire, and professionalize the local staff who operate the three corners in Malang, Yogyakarta, and Makassar, and build the capacity of at least 25 American Corner staff across five competency tracks — creative-hub operations; strategic programming; ecosystem integration; brand stewardship; and monitoring, evaluation, and reporting — with each corner producing an Annual Programming Plan and a Partner Ecosystem Map of at least 20 active local relationships.*
- **Objective 3:** *Train at least 1,500 youth, creative professionals, and MSMEs (approximately 300 per corner) in full-stack American AI tools and standards, resulting in a documented increase of at least 25 percent in participant preference for U.S. AI solutions, as measured by pre- and post-program surveys.*

- **Objective 4:** *Deliver sustained, regular AI-focused programming across all five corners that produces tangible participant outputs, including at least 35 podcast episodes (seven per corner), AI-generated music and visual content, short animated films, and live online marketing campaigns built with American AI tools, culminating in local hackathons and a national Grand Final.*

2. Substantial Involvement

This award will be issued as a cooperative agreement. Because the program directly implements U.S. foreign policy priorities and operates through the Mission's American Spaces network, the U.S. Mission to Indonesia will be substantially involved in implementation. The expected roles and responsibilities of the Embassy and the recipient are summarized below.

U.S. Embassy Roles and Responsibilities:

- Oversee and approve the overall program design, the American Innovation Hub visual identity and branding, and the physical configuration of each corner;
- Review and approve the position descriptions and selection of funded corner staff, the Annual Programming Plans, training curricula, and the selection of AI tools and standards featured in programming;
- Participate in the selection and approval of major implementing partners and the content of flagship events, hackathons, and speakers;
- Coordinate access to Mission resources, including the U.S. Embassy Jakarta American Spaces team, the @america programs team, the U.S. Consulate General Surabaya American Spaces team, EducationUSA, and U.S. government alumni networks;
- Review and clear public-facing materials and content for branding and policy compliance;
- Approve any significant changes to the scope, schedule, or budget of the project.

Recipient Roles and Responsibilities:

- Implement the program across all five American Corners (Pontianak, Malang, Yogyakarta, Ambon, and Makassar);
- Recruit, hire, onboard, and supervise the nine local staff for the three corners in Malang, Yogyakarta, and Makassar in compliance with Indonesian labor law, and integrate all corner staff into the Capacity-Building Framework;
- Procure, ship, install, and maintain the U.S. AI hardware and licensed American AI software, and apply the approved American Innovation Hub visual identity at each corner;
- Design and deliver recurring American AI Skills Labs (approximately every two months) and sustained programming that introduces full-stack American AI tools and standards;
- Produce tangible participant outputs, including the podcast series, AI-generated content, short films, online marketing campaigns, and hackathons;

- Build and steward local partnerships and produce a Partner Ecosystem Map for each corner;
- Establish and implement the monitoring and evaluation plan and meet all reporting, branding, and compliance requirements;
- Coordinate closely with the U.S. Embassy through regular updates and consultations.

3. *Budget Justification Narrative*

- **Detailed Budget** - Applicants must submit a detailed line-item budget. Applicants are encouraged to utilize the template provided with the funding opportunity but are not required to do so. Line-item expenditures should be listed in the greatest possible detail. The budget must identify the total amount of funding requested, with a breakdown of amounts to be spent in the following budget categories: personnel; fringe benefits; travel; equipment; supplies; consultants/contracts; other direct costs; and indirect costs. See Annex Section I for a description of the types of costs that should be included in each category. Personnel salaries should include the level of effort and the rate of pay, which should cover the percentage of time each staff member will dedicate to grant-based activities. If an organization is charging an indirect cost rate without a NICRA, it must apply it to the modified total budget costs (MTDC), refer to 2CFR§200.1. **Budgets shall be submitted in U.S. dollars** and final grant agreements will be conducted in U.S. dollars.
- **Budget Justification Narrative** – Applicants must submit a budget justification narrative to accompany the detailed line-item budget. The purpose of the budget justification narrative is to supplement the information provided in the detailed budget spreadsheet by justifying how the budget cost elements are necessary to implement project objectives and accomplish the project goals. The budget justification narrative is a tool to help Embassy staff fully understand the budgetary needs of the applicant and is an opportunity to provide descriptive information about the requested costs beyond the constraints of the budget template. Together, the detailed budget spreadsheet, the budget justification narrative, and the SF-424A should provide a complete financial and qualitative description that supports the proposed project plan and should be directly relatable to the specific project components described in the applicant's proposal.

Additional Budget Notes:

- **Audit Requirements:** Please note the audit requirements for Department of State awards in the Standard Terms and Conditions <https://www.state.gov/m/a/o/e/index.htm> and 2CFR200, Subpart F – Audit Requirements. G. AWARD NOTICES

recipient for review and counter-signature. The recipient may only start incurring project expenses beginning on the start date shown on the award document signed by the Grants Officer.

If a proposal is selected for funding, the Department of State has no obligation to provide any additional future funding. Renewal of an award to increase funding or extend the period of performance is at the discretion of the Department of State.

Issuance of this NOFO does not constitute an award commitment on the part of the U.S. government, nor does it commit the U.S. government to pay for costs incurred in the preparation and submission of proposals. Further, the U.S. government reserves the right to reject any or all proposals received.

Payment Method:

Recipients will be required to request payments by completing form SF-270—Request for Advance or Reimbursement and submitting the form to the Grants Officer and Grants Officer Representative.

Recipients may not draw down funds without the affirmative authorization of the Department of State. In addition, recipients must submit, with each SF-270 payment request, a detailed explanation justifying the request.

I. OTHER INFORMATION

Guidelines for Budget Justification

Personnel and Fringe Benefits: Describe the wages, salaries, and benefits of temporary or permanent staff who will be working directly for the applicant on the program, and the percentage of their time that will be spent on the program.

Travel: Estimate the costs of travel and per diem for this program, for program staff, consultants or speakers, and participants/beneficiaries. If the program involves international travel, include a brief statement of justification for that travel.

Equipment: Describe any machinery, furniture, or other personal property that is required for the program, which has a useful life of more than one year (or a life longer than the duration of the program), and costs at least \$10,000 per unit.

Supplies: List and describe all the items and materials, including any computer devices, that are needed for the program. If an item costs more than \$10,000 per unit, then put it in the budget under Equipment.

Contractual: Describe goods and services that the applicant plans to acquire through a contract with a vendor. Also describe any sub-awards to non-profit partners that will help carry out the program activities.

Other Direct Costs: Describe other costs directly associated with the program, which do not fit in the other categories. For example, shipping costs for materials and equipment or applicable taxes. All "Other" or "Miscellaneous" expenses must be itemized and explained.

Indirect Costs: These are costs that cannot be linked directly to the program activities, such as overhead costs needed to help keep the organization operating. If your organization has a Negotiated Indirect Cost Rate (NICRA) and includes NICRA charges in the budget, attach a copy of your latest NICRA. Organizations that have never had a NICRA may request indirect costs of 15% of Modified Total Direct Costs (MTDC) as defined in 2 CFR 200.1.

“Cost Sharing” refers to contributions from the organization or other entities other than the U.S. Embassy. It also includes in-kind contributions such as volunteers’ time and donated venues.

Alcoholic Beverages: Please note that award funds cannot be used for alcoholic beverages and other entertainment related expenses.
