2. Executive Summary

Embassy Malabo invites U.S. Government exchange alumni teams to submit proposals for the Alumni Engagement Innovation Fund (AEIF) 2026. In recognition of Freedom 250, this opportunity supports alumni-led initiatives that highlight shared U.S.–Equatorial Guinea values and advance innovation, skills development, and community engagement.

This NOFO prioritizes projects that strengthen human capital and advance economic diversification, key Mission priority goals. Alumni are encouraged to propose programs that equip youth and early-career professionals with leadership, entrepreneurship, and applied STEM competencies aligned with modern industry standards, including those used by U.S. companies

operating in Equatorial Guinea. Through practical training, mentorship, and exposure to real-world professional environments, the initiative aims to expand local access to technical English, digital skills, engineering fundamentals, and workplace readiness.

A strengthened local talent pipeline supports both U.S. strategic interests and local development by fostering a workforce that can effectively collaborate with American companies, contribute to regional economic resilience, and engage with global best practices. Programs incorporating hands-on STEM learning, entrepreneurship development, prototype building, or leadership training are encouraged.

Through this Freedom 250-aligned initiative, Embassy Malabo aims to empower and support a more resilient, diversified, and skills-driven economy in Equatorial Guinea.

C. PROGRAM DESCRIPTION

1. Project Background, Goals, and Objectives

Background & Problem Statement

Equatorial Guinea's continued economic diversification depends on developing a workforce with strong leadership, entrepreneurship, and applied STEM skills. Employers, particularly in sectors where U.S. companies operate, identify persistent gaps in workplace readiness, technical English, and practical experience with modern industry standards. These gaps limit youth access to emerging opportunities and restrict the growth of a competitive, locally trained talent pipeline.

The current U.S. administration's focus on human capital development, workforce opportunity, and strategic economic engagement underscores the need for programming that delivers practical skills and strengthens local capacity to meet evolving industry demands. The Freedom 250 commemoration further highlights themes of innovation, which resonate strongly with youth aspirations in Equatorial Guinea.

This NOFO responds to these needs by supporting alumni-led initiatives that equip young people with market-relevant leadership, entrepreneurship, and applied STEM competencies, and that create clearer pathways to mentorship, internships, and professional growth. Through practical training and exposure to real workplace environments, the initiative aims to strengthen human development, enhance workforce readiness, and support broader economic resilience in alignment with U.S. foreign policy priorities.

How the Program Addresses the Need & Advances U.S. Priorities

This program addresses identified workforce and skills gaps by equipping youth and early-career professionals with practical leadership, entrepreneurship, and applied STEM competencies that align with the needs of modern industries, including sectors where U.S. companies are active partners. By expanding access to technical English, digital skills, and hands-on learning, the program strengthens Equatorial Guinea's human capital and supports the development of a talent pipeline capable of meeting international standards.

This program directly advances the 2025 National Security Strategy pillars of "Energy Dominance" and "Economic Prosperity." Through mentorship, professional exposure, and partnerships with local institutions and private sector stakeholders, the program enhances local human capital to collaborate effectively with U.S. businesses and strengthens broader economic resilience.

By aligning with Freedom 250's themes of innovation, civic engagement, and shared progress, the initiative highlights the positive role of U.S. alumni in advancing community development, expanding opportunity, and fostering locally led solutions that reflect both U.S. values and national development priorities in Equatorial Guinea.

Project Audience(s): The program targets Equatoguinean youth and early-career professionals ages 22–35 in Malabo, Bata, and nearby regions who seek practical skills to improve employability and engage in emerging economic sectors. Beneficiaries may include young professionals needing leadership and workplace-readiness training, aspiring entrepreneurs developing viable business ideas, and students or entry-level professionals pursuing applied STEM or agri-tech skills relevant to industries where U.S. companies operate.

Project Goal: Strengthen Equatorial Guinea’s human capital by equipping youth and early-career professionals (ages 22–35) with leadership, entrepreneurship, and applied STEM skills that support workforce readiness, economic diversification, and sustainable engagement with modern industry standards in line with U.S. foreign policy priorities.

Project Objectives: *The project objectives are the measurable results Embassy Malabo expects the selected project to achieve once it is awarded.*

- **Objective 1:** Equip 30 youth and early-career professionals (ages 22–35) with practical leadership, communication, and workplace-readiness skills, with at least 75% demonstrating measurable improvement required to succeed in modern professional environments.
- **Objective 2:** Provide hands-on entrepreneurship and applied STEM training to the same 30 participants, resulting in at least 10 viable business concepts and one functional technical prototype aligned with industry-relevant standards, with at least 80% showing competency gains.
- **Objective 3:** Strengthen local workforce pathways by securing at least 10 partnerships with private sector and training institutions, leading to a minimum of 8 structured mentorships, internships, or apprenticeships within three months of program completion.

2. Substantial Involvement

If this award would be issued as a cooperative agreement or fixed amount award (FAA) with substantial involvement, the U.S. Embassy may be actively engaged in project oversight to ensure alignment with U.S. foreign policy priorities and compliance with AEIF 2026 requirements. D. APPLICATION CONTENTS AND FORMAT

Please follow all instructions below carefully. Proposals that do not meet the requirements of this announcement or fail to comply with the stated requirements will be ineligible.

Please ensure:

- The proposal clearly addresses the goals and objectives of this funding opportunity

2. Proposal (12 pages maximum)

The proposal should contain sufficient information that anyone not familiar with it would understand exactly what the applicant wants to do. You may use your own proposal format, but it must include all the items below.

- **Proposal Summary:** Short narrative that outlines the proposed project, including project objectives and anticipated impact.
- **Introduction to the Organization or Individual applying:** A description of past and present operations, showing ability to carry out the program, including information on all

previous grants from the State Department and/or U.S. government agencies as well as experience with and expertise in areas related to those described in the NOFO.

- **Program Methods, Design, Activities, and Deliverables:** The “goals” describe what the program is intended to achieve. The “objectives” refer to the intermediate accomplishments on the way to the goals. These should be achievable and measurable. Describe the program activities and how they will help achieve the objectives.
- **Proposed Project Schedule and Timeline:** The proposed timeline for the program activities. Include the dates, times, and locations of planned activities and events.

- **Future Funding or Sustainability** Applicant’s plan for continuing the program beyond the grant period, or the availability of other resources, if applicable.
- **Monitoring & Evaluation Plan:** Proposals must include a draft Monitoring and Evaluation (M&E) Performance Monitoring Plan (PMP). The M&E PMP should show how applicants intend to measure and demonstrate progress towards the project’s objectives and goals. Attachment AEIF_2026_Monitoring_and_Evaluation_Resource of this funding opportunity contains a template that may be used to fulfill this requirement. While the grantee is free to create their own template, completing AEIF_2026_Monitoring_and_Evaluation_Resource will ensure a thorough PMP.

The key components to the PMP are as follows:

- **Monitoring and Evaluation Narrative:** In narrative form, applicants should describe how they intend to monitor and evaluate the activities of their award. In addition, the applicant should describe any M&E processes, including key personnel, management structure (where M&E fits into the overall program’s staff structure), technology, and as well provide a brief budget narrative explaining any line-item expenditures for M&E listed in the program’s budget. If the proposal is from a prior grantee, the proposal discusses how the grantee has adapted, improved or otherwise modified their approach based on learning from previous experience. This narrative is limited to two pages.
- **Theory of Change Diagram:** Applicants are expected to submit either a Theory of Change diagram or an If-Then Statement that illustrates how project activities will lead to intended outcomes.
- **Monitoring and Evaluation Datasheet:** The applicant must include their proposed activities and their expected outputs and outcomes as well as the goals and objectives as written in the NOFO. The datasheet’s purpose is to explicitly illustrate how a project’s activities lead to tangible results (such as increased beneficiary skills, knowledge, or attitudes) that ultimately address a PDS objective.

- The selected applicant's M&E PMP is subject to review and approval before any award will be issued under this NOFO. The selected applicant will be required to work with the Public Diplomacy Section's Monitoring and Evaluation Specialist to ensure the applicant's M&E PMP achieves an expected level of expertise and meets PDS objectives.
- Expenses directly associated with monitoring and evaluation are considered allowable. The suggested template includes a space to list the portion of the total budget amount directly associated with monitoring and evaluation activities.

3. *Budget Justification Narrative*

- **Detailed Budget** - Applicants must submit a detailed line-item budget. Applicants are encouraged to utilize the template provided with the funding opportunity but are not required to do so (Attachment AEIF_2026_Budget_Form). Line-item expenditures should be listed in the greatest possible detail. The budget must identify the total amount of funding requested, with a breakdown of amounts to be spent in the following budget categories: personnel; fringe benefits; travel; equipment; supplies; consultants/contracts; other direct costs; and indirect costs. See Annex Section I for a description of the types of costs that should be included in each category. Personnel salaries should include the level of effort and the rate of pay, which should cover the percentage of time each staff member will dedicate to grant-based activities. If an organization is charging an indirect cost rate without a NICRA, it must apply it to the modified total budget costs (MTDC), refer to 2CFR§200.1. **Budgets shall be submitted in U.S. dollars** and final grant agreements will be conducted in U.S. dollars.
- **Budget Justification Narrative** – Applicants must submit a budget justification narrative to accompany the detailed line-item budget. The purpose of the budget justification narrative is to supplement the information provided in the detailed budget spreadsheet by justifying how the budget cost elements are necessary to implement project objectives and accomplish the project goals. The budget justification narrative is a tool to help Embassy staff fully understand the budgetary needs of the applicant and is an opportunity to provide descriptive information about the requested costs beyond the constraints of the budget template. Together, the detailed budget spreadsheet, the budget justification narrative, and the SF-424A should provide a complete financial and qualitative description that supports the proposed project plan and should be directly relatable to the specific project components described in the applicant's proposal.

- **Monitoring and Evaluation - 10 points:** There is a complete and thorough draft submission of a M&E Performance Monitoring Plan (PMP). This will include a list of proposed project activities, corresponding milestone, output, and outcome indicators, a description of data collection methods, and a timeline for collecting such information. The proposal presents a clear theory of change on how the program will address that problem. Use of the suggested template (**The M&E template will be posted on the**

Embassy Malabo website) will satisfy these requirements. Funded projects will have their plans finalized during the negotiation phase, and monitoring plans may be subject to periodic updates throughout the life of the project.

- **Sustainability** – 5 points: The project proposal describes clearly the approach that will be used to ensure maximum sustainability or advancement of project goals after the end of project activity.

2. Indirect Costs

If two or more applications receive equivalent scores based on the evaluation criteria outlined in this NOFO, preference will be given to the applicant with the lower indirect cost rate, as consistent with Executive Order 14332, Section 4(b)(iii). This preference will only be applied as a tie-breaking mechanism and does not supersede the primary evaluation criteria.

3. Review and Selection Process

- a. Acknowledgement of receipt. Applicants will receive acknowledgment of receipt of their proposal.
- b. Review. All submissions are screened for technical eligibility. **If a submission is missing any required forms/documents listed above in Section D. Application Contents and Format, it will be considered ineligible and will not be reviewed by the grants review committee.** A technical review panel will review eligible proposals based upon the criteria noted in this NOFO.
- c. Follow up notification. Applicants will generally be notified within 120 days after the NOFO deadline regarding the results of the review panel.

2. Risk Review

- i. Under the merit review as required by 2 CFR 200.206, prior to making a Federal Award the Department will review and consider the following risk factors:
 - a. Financial stability
 - b. Management systems and standards
 - c. History of performance
 - d. Audit reports and findings
 - e. Ability to effectively implement project requirements
- ii. High Risk Designation

Awardees that are deemed to be high risk based on the above risk factors will be held to special award conditions. At a minimum, the recipient and/or project designated as High Risk will be required to submit monthly narrative reports and/or quarterly detailed financial reports. Recipients may also be required, upon request of the Grants Officer or Grants Officer Representative, to provide electronic copies of receipts or other supporting

documentation (e.g., timesheets, travel documents) for costs incurred. The Grants Officer may withhold 10% of the award amount until final reports have been reviewed and approved by the GO. The recipient may be required to pay all salaries supported by the grant via electronic funds transfer. Other special award conditions may also be included if deemed appropriate by the Grants Officer.

G. AWARD NOTICES

The award or cooperative agreement will be written, signed, awarded, and administered by the Grants Officer. The award agreement is the authorizing document, and it will be provided to the recipient for review and counter-signature. The recipient may only start incurring project expenses beginning on the start date shown on the award document signed by the Grants Officer.

If a proposal is selected for funding, the Department of State has no obligation to provide any additional future funding. Renewal of an award to increase funding or extend the period of performance is at the discretion of the Department of State.

Issuance of this NOFO does not constitute an award commitment on the part of the U.S. government, nor does it commit the U.S. government to pay for costs incurred in the preparation and submission of proposals. Further, the U.S. government reserves the right to reject any or all proposals received.

Payment Method:

Recipients will be required to request payments by completing form SF-270—Request for Advance or Reimbursement and submitting the form to the Grants Officer and Grants Officer Representative.

Recipients may not draw down funds without the affirmative authorization of the Department of State. In addition, recipients must submit, with each SF-270 payment request, a detailed explanation justifying the request.

H. POST-AWARD REQUIREMENTS AND ADMINISTRATION

1. Administrative and National Policy Requirements

Before submitting an application, applicants should review all the terms and conditions and required certifications which will apply to this award, to ensure that they will be able to comply. These include:

In accordance with the Office of Management and Budget's guidance located at 2 CFR part 200, all applicable Federal laws, and relevant Executive guidance, the Department of State

The award document will specify what reports are required and how often these reports must be submitted. *Note:* most recipients will be required to submit quarterly program progress and financial reports throughout the project period. The quarterly progress report should include an up-to-date copy of the PMP datasheet. Progress and financial reports are due 30 days after the reporting period. Final certified programmatic and financial reports are due 120 days after the close of the project period.

All reports are to be submitted electronically.

The Awardee must also provide the Embassy on an annual basis an inventory of all the U.S. government provided equipment using the SF428 form.

Foreign Assistance Data Review: As required by Congress, the Department of State must make progress in its efforts to improve tracking and reporting of foreign assistance data through the Foreign Assistance Data Review (FADR). The FADR requires tracking of foreign assistance activity data from budgeting, planning, and allocation through obligation and disbursement. Successful applicants will be required to report and draw down federal funding based on the appropriate FADR Data Elements, indicated within their award documentation. In cases of more than one FADR Data Element, typically program or sector and/or regions or country, the successful applicant will be required to maintain separate accounting records.

I. OTHER INFORMATION

Guidelines for Budget Justification

Personnel and Fringe Benefits: Describe the wages, salaries, and benefits of temporary or permanent staff who will be working directly for the applicant on the program, and the percentage of their time that will be spent on the program.

Travel: Estimate the costs of travel and per diem for this program, for program staff, consultants or speakers, and participants/beneficiaries. If the program involves international travel, include a brief statement of justification for that travel.

Equipment: Describe any machinery, furniture, or other personal property that is required for the program, which has a useful life of more than one year (or a life longer than the duration of the program), and costs at least \$10,000 per unit.

Supplies: List and describe all the items and materials, including any computer devices, that are needed for the program. If an item costs more than \$10,000 per unit, then put it in the budget under Equipment.

Contractual: Describe goods and services that the applicant plans to acquire through a contract with a vendor. Also describe any sub-awards to non-profit partners that will help carry out the program activities.

Other Direct Costs: Describe other costs directly associated with the program, which do not fit in the other categories. For example, shipping costs for materials and equipment or applicable taxes. All “Other” or “Miscellaneous” expenses must be itemized and explained.

Indirect Costs: These are costs that cannot be linked directly to the program activities, such as overhead costs needed to help keep the organization operating. If your organization has a Negotiated Indirect Cost Rate (NICRA) and includes NICRA charges in the budget, attach a copy of your latest NICRA. Organizations that have never had a NICRA may request indirect costs of 15% of Modified Total Direct Costs (MTDC) as defined in [2 CFR 200.1](#).

“Cost Sharing” refers to contributions from the organization or other entities other than the U.S. Embassy. It also includes in-kind contributions such as volunteers’ time and donated venues.

Alcoholic Beverages: Please note that award funds cannot be used for alcoholic beverages and other entertainment related expenses.
