2. Executive Summary

U.S. Embassy Jakarta announces an open competition to implement a program to address a pressing issue to U.S. and Indonesian citizens: cyber scams. According to the FBI’s Internet Crime Complaint Center, U.S. citizens lost over \$12.5 billion to cybercrime in 2023 alone. The U.S. Embassy in Jakarta seeks to host a month-long interactive escape room with a scam-center scenario in a highly visible location in Jakarta, with possible expansion to Surabaya and a third city with the highest exposure to scam operations, to help increase public awareness and prevention against scam operations increasingly targeting Indonesians and U.S. citizens. This

project will also promote American technological leadership and highlight longstanding U.S. - Indonesia law enforcement cooperation. Target audience will be 3,000 direct program participants, 10,000 as walk-by traffic, 250,000 through social media, 10 million through traditional news amplification. The opening weekend will feature expert speakers and panel discussions to train the public on cybersecurity, artificial intelligence, and law enforcement cooperation.

C. PROGRAM DESCRIPTION

1. *Project Background, Goals, and Objectives*

Indonesia faces a pervasive and evolving cybercrime threat, with online scams growing in number and sophistication – while U.S. families continue to lose their life’s savings to international cybercrime, totaling over \$12 billions in financial losses in 2023 alone. Unlike scam compounds in mainland Southeast Asia, criminal scam operations in Indonesia are decentralized and embedded within transnational networks. Thousands of Indonesian nationals have worked in scam compounds in Cambodia, Burma, and Laos, and there is now concern crackdowns in other countries prompting a wave of experienced Indonesian scammers to return home to establish new operations in collaboration with Chinese and other scam groups.

To strengthen its efforts in combating scams, Indonesia established an Anti-Scam Center (IASC) in 2024 to respond to citizen complaints, block fraudulent transactions, and recover victim funds. IASC data shows an average of 1,300 complaints per day. The IASC reports approximately \$500 million in victim losses from November 2025 to March 2026, of which only \$9.75 million has been recovered — a two percent recovery rate. To date, IDN law enforcement has not successfully recovered funds for U.S. victims. Officials state that victims’ delayed reporting (average of 24-48 hours) to the IASC and Indonesian National Police (INP) significantly contributes to law enforcement's inability to recover victim funds. Faster reporting directly correlates with higher asset recovery rates, as fraudulent transactions can be blocked before funds are transferred across multiple accounts or jurisdictions.

In addition to harming U.S. citizens, digital fraud hurts U.S. companies as cybercrimes increasingly rely on direct messaging, platform-specific targeting, and syndicate-level tactics, with social media platforms emerging as a major channel for phishing, malicious APK files, fake investment groups, video-call extortion, and account takeovers. Criminal scam groups also tailor tactics across platforms, using Facebook for marketplace, romance, and fake job scams; Instagram for fake investments and impersonation, other platforms are used for donation scams, quick-wealth schemes, and deepfakes. Criminals support these schemes with technical infrastructure such as lookalike domains, fake sub-domains, shortened links, QR-code redirects,

free SSL certificates, and resilient hosting to make fraudulent sites appear legitimate and harder to disrupt. Indonesia's Cyber and Cryptography Agency (BSSN) assesses that AI will increasingly be used as a "double-edged sword" with perpetrators creating highly natural phishing, automated chatbot scams, voice cloning and deepfake videos to impersonate individuals.

The "Escape the Hack" escape room and launch event addresses these threats through a popular entertainment activity that provides an emotional triggering connection with victims. By educating Indonesian citizens on recognizing scams, the dangers of working in scam centers, and the importance of immediate reporting — the program targets one of the most actionable gaps in Indonesia's current anti-scam framework. A more cyber-aware Indonesian public that reports scams promptly strengthens the law enforcement's ability to block fraudulent transactions in real time, benefiting both Indonesian and U.S. victims. The launch event with expert speakers amplifies this message to the widest possible audience through workshops, media coverage, and social media, maximizing the program's impact.

The "Escape the Hack" initiative advances U.S. strategic interests by building cyber resilience in Indonesia — ASEAN's largest economy and most populous nation — making America safer and more prosperous. The program promotes the United States as a global leader in cybersecurity innovation and demonstrates American commitment to addressing shared security challenges through innovative, people-centered solutions.

Project Audience(s):

- Indonesians ages 18–35 who face the greatest risk of being targeted by cyber scams and recruited into scam centers.
- Law enforcement professionals who seek to educate the public.
- Indonesian government officials working in cybercrime and resilience to cyber-attacks who see the United States as a leader in cybersecurity.

Project Goal: Protect Americans and Indonesia from the devastating effects of cyber scams and scam centers by increasing public awareness through meaningful exchanges with experts and an unforgettable interactive teaching experience.

Project Objectives:

- Objective 1: Strengthen public awareness of cyber scams and scam center activity through a month-long educational and interactive escape room located in a popular public location (mall, park, etc.), in one to three key cities in Indonesia, resulting in over 3,000 every day Indonesians being trained on cyber scams detection and reporting.
- Objective 2: Nationalize the dialog on cybersecurity issues and scam centers through media attention.
- Objective 3: Increase professional skills of at least 30 law enforcement and cyber professionals by holding an opening ceremony with senior U.S. and Indonesian government participation, a day-long interactive workshop series on cybersecurity

awareness and scam prevention, live demonstrations, and discussion panels, resulting in at least 85% of attendees demonstrating the ability to identify new scam tactics.

2. Substantial Involvement

- U.S. Embassy Roles and Responsibilities:
 - In partnership with implementer, the U.S. Embassy in Jakarta shall oversee and approve all major programmatic and design aspects of the escape room, launch event, workshop/conference, and messaging.
- Recipient Roles and Responsibilities:
 - **Identify and contract with a leading escape room company or interactive installation/exhibit creator** to build and host an immersive, themed escape room where participants solve cybersecurity-related puzzles to "escape" within 20-30 minutes. The escape room will be designed and built based on Embassy input, with content designed to identify and elucidate the gravest cybersecurity risks (phishing and spear phishing, weak passwords, social engineering, etc., malicious scam centers, etc.). The escape room is envisioned as a roughly 5 x 15 meter (75 m²) fully immersive, story-driven escape room experience, including thematic set design, narrative development, layout planning, and 3D visualization to ensure a cohesive and high-impact environment with in-room technology elements, including interactive computer screens, webcam integration, audio/visual playback systems, and lighting effects. Design thematic set elements for four distinct rooms include:
 - Room 1 – The Bedroom (ransomware/phishing scenario)
 - Room 2 – The Digital World (cybersecurity hygiene education)
 - Room 3 – The Scam Center (human trafficking/scam awareness)
 - Room 4 – The Police Station (law enforcement/victim protections)
 - **Secure venue and coordinate escape room management and logistics** (equipment, supplies, setup, including permits, staffing) and ensure the following:
 - **Event Operations**
 - Operate eight to ten sessions per day throughout the one-month event period. The final session frequency, duration, group size, and total participant targets to be finalized in coordination with U.S. Embassy Jakarta during the concept and design phase.
 - The vendor shall propose a session schedule optimized for participant flow, safety, and experience quality.
 - Provide **free admission** to all participants
 - Conduct venue setup and final technical checks at the start of each day
 - **Venue & Logistics**
 - Identify, secure, and manage a suitable venue in Jakarta, Indonesia (priority consideration given to high-traffic, high-visibility locations such as major shopping malls or other high-traffic public spaces) for a one-month pop-up installation

- Coordinate all logistics including equipment procurement, supplies, and setup
- Obtain all necessary permits and approvals for venue operation in Jakarta
- Manage a ticketing or registration mechanism for participants
- **Staffing & Training**
 - Recruit and provide adequate staffing, including:
 - Game Masters to facilitate sessions and guide participants
 - Support staff for operations, crowd management, and participant registration
 - Train all staff in game facilitation, operations, and participant interaction and facilitation.
 - Conduct daily staff debriefs throughout the event period
- **Testing & Quality Assurance**
 - Conduct full game testing prior to launch and finalize all materials, puzzles, and equipment
 - Ensure all technology systems (screens, audio, webcam, lighting) function reliably across sessions
- **Hold a high-visibility launch event** in Jakarta that convenes Indonesian government counterparts, law enforcement, civil society organizations, private sector technology companies, and members of the general public for discussion session — and promotes awareness of the “Escape the Hack” escape room initiative. The event will generate coverage in traditional media and online.
- **Expand outreach nationwide** by leveraging media amplification, social media content, and networks of government, civil society, and private sector partners to extend the program’s reach beyond Jakarta, fostering public engagement with cybersecurity awareness and connections with the United States, U.S. officials, and the U.S. government. Develop promotional materials and outreach including posters and social media content, launch and manage a promotional campaign prior to and during the event.
- **Ensure all events are executed effectively, on schedule, and within budget.** Manage all financial aspects including budgeting, procurement, and financial reporting in compliance with U.S. government regulations, delivering a high-quality participant experience while advancing U.S. strategic communication goals around digital safety, scam prevention, and the importance of timely reporting to Indonesian law enforcement.
- Establish and implement a monitoring and evaluation plan.
- Ensure compliance with all applicable U.S. government grant regulations, branding requirements, and reporting deadlines.

In addition, the applicant should describe any M&E processes, including key personnel, management structure (where M&E fits into the overall program's staff structure), technology, and as well provide a brief budget narrative explaining any line-item expenditures for M&E listed in the program's budget. If the proposal is from a prior grantee, the proposal discusses how the grantee has adapted, improved or otherwise modified their approach based on learning from previous experience. This narrative is limited to two pages.
 - **Theory of Change Diagram:** Applicants are expected to submit either a Theory of Change diagram or an If-Then Statement that illustrates how project activities will lead to intended outcomes.
 - **Monitoring and Evaluation Datasheet:** The applicant must include their proposed activities and their expected outputs and outcomes as well as the goals and objectives as written in the NOFO. The datasheet's purpose is to explicitly illustrate how a project's activities lead to tangible results (such as increased beneficiary skills, knowledge, or attitudes) that ultimately address a PDS objective.
 - The selected applicant's M&E PMP is subject to review and approval before any award will be issued under this NOFO. The selected applicant may be asked to work with U.S. Department of State Monitoring and Evaluation Specialists to ensure the applicant's M&E PMP achieves an expected level of expertise and meets PDS objectives.
 - Expenses directly associated with monitoring and evaluation are considered allowable.

3. *Budget Justification Narrative*

- **Detailed Budget** - Applicants must submit a detailed line-item budget. Applicants are encouraged to utilize the template provided with the funding opportunity but are not required to do so. Line-item expenditures should be listed in the greatest possible detail. The budget must identify the total amount of funding requested, with a breakdown of amounts to be spent in the following budget categories: personnel; fringe benefits; travel; equipment; supplies; consultants/contracts; other direct costs; and indirect costs. See Annex Section I for a description of the types of costs that should be included in each category. Personnel salaries should include the level of effort and the rate of pay, which should cover the percentage of time each staff member will dedicate to grant-based activities. If an organization is charging an indirect cost rate without a NICRA, it must apply it to the modified total budget costs (MTDC), refer to 2CFR§200.1. **Budgets shall be submitted in U.S. dollars** and final grant agreements will be conducted in U.S. dollars.

- **Budget Justification Narrative** – Applicants must submit a budget justification narrative to accompany the detailed line-item budget. The purpose of the budget justification narrative is to supplement the information provided in the detailed budget spreadsheet by justifying how the budget cost elements are necessary to implement project objectives and accomplish the project goals. The budget justification narrative is a tool to help Embassy staff fully understand the budgetary needs of the applicant and is an opportunity to provide descriptive information about the requested costs beyond the constraints of the budget template. Together, the detailed budget spreadsheet, the budget justification narrative, and the SF-424A should provide a complete financial and qualitative description that supports the proposed project plan and should be directly relatable to the specific project components described in the applicant’s proposal.

If two or more applications receive equivalent scores based on the evaluation criteria outlined in this NOFO, preference will be given to the applicant with the lower indirect cost rate, as consistent with Executive Order 14332, Section 4(b)(iii). This preference will only be applied as a tie-breaking mechanism and does not supersede the primary evaluation criteria.

At a minimum, the recipient and/or project designated as High Risk will be required to submit monthly narrative reports and/or quarterly detailed financial reports. Recipients may also be required, upon request of the Grants Officer or Grants Officer Representative, to provide electronic copies of receipts or other supporting documentation (e.g., timesheets, travel documents) for costs incurred. The Grants Officer may withhold 10% of the award amount until final reports have been reviewed and approved by the GO. The recipient may be required to pay all salaries supported by the grant via electronic funds transfer. Other special award conditions may also be included if deemed appropriate by the Grants Officer.

iii. Risk Analysis Management

To qualify for final consideration, certain applicants may be required to undertake the Risk Analysis Management (RAM) vetting process by providing Risk Analysis Information (RAI) about their “key individuals” (i.e., individuals with the ability to control applicant organizations’ funds), including “key individuals” from selected sub-recipients. **Please note: these individuals could be different from the key personnel listed in the section 4 of required documents.** The purpose of vetting potential contractors and grantees is to reduce the risk that federal assistance funding is provided to terrorists or their supporters. **Potential grantees will be notified separately if RAI is required.** Applicants submit key individuals’ RAI by completing the Risk Analysis Information Form, DS-4184, through the secure web portal at <https://ramportal.state.gov>. The DS-4184 requests the following RAI for each key individual: Full Name; Aliases; Gender; Birth Place; Birthdate; Home/Work Addresses; Phone Numbers; Employer; Professional Title; Email Addresses; Skype ID (if included, email address is also required); Numbers from All Official IDs (e.g., passports, ID cards, etc.); Nationalities; and Social Security Number (if U.S. person). Questions about the DS-4184 form may be emailed to RAM@state.gov. Failure to submit information when requested, or failure to pass vetting, may be grounds for rejecting your proposal.

The award agreement is the authorizing document, and it will be provided to the recipient for review and counter-signature. The recipient may only start incurring project expenses beginning on the start date shown on the award document signed by the Grants Officer.

If a proposal is selected for funding, the Department of State has no obligation to provide any additional future funding. Renewal of an award to increase funding or extend the period of performance is at the discretion of the Department of State.

Issuance of this NOFO does not constitute an award commitment on the part of the U.S. government, nor does it commit the U.S. government to pay for costs incurred in the preparation and submission of proposals. Further, the U.S. government reserves the right to reject any or all proposals received.

Payment Method:

Recipients will be required to request payments by completing form SF-270—Request for Advance or Reimbursement and submitting the form to the Grants Officer and Grants Officer Representative.

Recipients may not draw down funds without the affirmative authorization of the Department of State. In addition, recipients must submit, with each SF-270 payment request, a detailed explanation justifying the request.

I. **OTHER INFORMATION**

Guidelines for Budget Justification

Personnel and Fringe Benefits: Describe the wages, salaries, and benefits of temporary or permanent staff who will be working directly for the applicant on the program, and the percentage of their time that will be spent on the program.

Travel: Estimate the costs of travel and per diem for this program, for program staff, consultants or speakers, and participants/beneficiaries. If the program involves international travel, include a brief statement of justification for that travel.

Equipment: Describe any machinery, furniture, or other personal property that is required for the program, which has a useful life of more than one year (or a life longer than the duration of the program), and costs at least \$10,000 per unit.

Supplies: List and describe all the items and materials, including any computer devices, that are needed for the program. If an item costs more than \$10,000 per unit, then put it in the budget under Equipment.

Contractual: Describe goods and services that the applicant plans to acquire through a contract with a vendor. Also describe any sub-awards to non-profit partners that will help carry out the program activities.

Indirect Costs: These are costs that cannot be linked directly to the program activities, such as overhead costs needed to help keep the organization operating. If your organization has a Negotiated Indirect Cost Rate (NICRA) and includes NICRA charges in the budget, attach a copy of your latest NICRA. Organizations that have never had a NICRA may request indirect costs of 15% of Modified Total Direct Costs (MTDC) as defined in 2 CFR 200.1.

“Cost Sharing” refers to contributions from the organization or other entities other than the U.S. Embassy. It also includes in-kind contributions such as volunteers’ time and donated venues.

Alcoholic Beverages: Please note that award funds cannot be used for alcoholic beverages and other entertainment related expenses.
