

Kennel Facilities

Kennel facilities require at a minimum:

- Adequate ventilation, cooling, heating, and sanitation systems.
- Minimal noise levels. Kennels must not be located near runways, taxiways, engine test cells, small arms ranges, or other areas where the time weighted overall average sound pressure level for any 24-hour period exceeds 75 adjusted decibels.
- Areas free of infestations of mosquitoes, ticks, rodents or other pests.
- Must be located in an area that will provide for the proper supervision, protection, and care of the canine.

Assistance regarding different kennel designs for various climates or other information regarding kennel facilities is available from the TSA Support Branch.
