I. Funding Opportunity Description

Purpose of Program: The purpose of the NAM program is to award grants to eligible entities to develop and enhance capacity to provide effective instruction and support to Native American and Alaska Native students, including Native Hawaiian and Native American Pacific Islander students, who are identified as English learners (ELs). The goal of this program is to support the teaching, learning, and studying of Native American languages while also increasing the English language proficiency and academic achievement of students served.

Background: Through previous competitions, the NAM program has funded a range of grantees that are currently implementing 16 projects across the country. As we are focused on closing long-standing opportunity, achievement, and attainment gaps that have continued to grow, there is also a need to increase the knowledge of what practices work to effectively improve learning outcomes for Native American and Alaska Native ELs.

Congress, in the Native American Languages Act of 1990, recognized the fundamental importance of preserving Native American languages. This legislation provides that it is the policy of the United States to—

Preserve, protect, and promote the rights and freedom of Native Americans to use, practice, and develop Native American languages.
