OTHER SOLICITATION PROVISIONS IN FULL TEXT

L011 APPLICABLE CLAUSES (APR 2013)

The appropriate clauses to be included in the contract will be determined based on Offeror's response to the Section K representations.

(a) Patent Rights. If the Offeror is a small business firm or nonprofit organization, then FAR 52.227-11, PATENT RIGHTS -- OWNERSHIP BY THE CONTRACTOR, and DFARS 252.227-7039, PATENTS - REPORTING OF SUBJECT INVENTIONS will be used in Section I. Otherwise, DFARS 252.227-7038, PATENT RIGHTS - OWNERSHIP BY THE CONTRACTOR (LARGE BUSINESS), will be included in Section I consistent with FAR Part 27.

(b) Cost Accounting Standards. Section I of this solicitation may contain the three Cost Accounting Standards clauses at FAR 52.230-3, 52.230-4, 52.230-5, and/or 52.230-6. The resultant contract will contain only those clauses required based on the Offeror's response to the Section K certification titled Cost Accounting Standards Notices and Certification (National Defense).

(c) State of New Mexico. Section I of this solicitation may contain the clause at FAR 52.229-10, STATE OF NEW MEXICO GROSS RECEIPTS AND COMPENSATING TAX. The resultant contract will contain this clause only if performance is in whole or in part within the State of New Mexico and the contract directs or authorizes the contractor to acquire property as a direct cost under the contract.

(d) Educational institutions and nonprofit organizations. If a cost-reimbursement type contract is contemplated and the offeror is an educational institution, paragraph (a) of the clause at FAR 52.216-7, Allowable Cost and Payment shall be altered in the resultant contract to refer to FAR Subpart 31.3 for determining allowable costs. Similarly, if the offeror is a nonprofit organization (other than an educational institution, a State or local government, or a nonprofit organization exempted under OMB Circular No. A-122), paragraph (a) of the clause at FAR 52.216-7 shall be altered to refer to FAR Subpart 31.7. In addition, if the offeror is an educational institution, DFARS 252.209-7005, MILITARY RECRUITING ON CAMPUS, will be added to Section I of the resultant contract.

(e) Subcontracting Plan. DFARS 219.708 was amended to require the use of clause 252.219- 7004, Small Business Subcontracting Plan (Test Program), instead of 252.219-7003, Small Business Subcontracting Plan (DoD Contracts), and FAR 52.219-9, Small Business Subcontracting Plan, in prime contracts with contractors that have comprehensive subcontracting plans approved under the test program described in DFARS 219.702. Also, include in the prime contract, solely for the purpose of flowing the clauses down to subcontractors, FAR clause 52.219-9, Small Business Subcontracting Plan, and 252.219-7003, or when contract will not be reported in FPDS, FAR clause 52.219-9, Small Business

Subcontracting Plan with its Alternate III and 252.219-7003 Small Business Subcontracting Plan (DoD Contracts) with its Alternate I.

L035 INSTRUCTIONS FOR RECOMMENDED SUMMARY FORMAT (JUL 2005)

(a) Attachment # N/A is a recommended summary format for cost and pricing data submitted. Contractor format may be used for the summary if it includes all the listed information contained on the recommended summary format. All additional supporting schedules may be in contractor format and must track back to the overall program summary.

(b) The supporting schedules shall include summary level estimating rationale used to generate the proposed costs. Information such as historical cost information, judgment, analogy to other similar efforts, etc. are generally accepted methods of projecting labor expenditures. Purchase order history, catalog prices, vendor quotations, firm negotiated values, engineering estimates, etc. are generally accepted methods of projecting material requirements. An index shall be included referencing all cost or pricing data and other information identified in the proposal.

(c) DIRECT COSTS: For direct inputs such as labor hours, material dollars, non-factored travel costs, computer usage, etc. provide supporting documentation, by Government fiscal year, (Oct 1 through 30 Sep) such as:

Labor Hours by Category of Labor (by year)
Labor/Overhead Rates by Category (by year)
Overhead/Factor Base Identification
Breakout of Travel Computations
Kinds, Types, and Detailed Pricing of Materials
Amount and Kind of Computer Usage and How Costs Derived

Direct labor hours, with their applicable rates, must be broken out by Government fiscal year and the bases used clearly identified. For material costs, identify what will be purchased and the basis for the estimated cost, e.g. vendor quote, engineering estimate, etc.

(d) LABOR AND OVERHEAD RATES: The source of labor and overhead rates and all pricing factors should be identified. For instance, if a Forward Pricing Rate Agreement (FPRA) is in existence, that should be noted. If the rates are based on current experience in your organization, provide the history base used and clearly identify all escalation, by year, applied to derive the proposed rates. If computer usage is determined by a rate, identify the base used and rationale used to derive the rate.

(e) SUBCONTRACTOR COSTS: Provide your review and cost/price analysis of all subcontractor proposals over \$1,000,000 or over \$500,000 and 10% of your proposed cost, as required by FAR 15.404-3(c). A SF1411 may be used for subcontractor proposals over \$500,000. Submit all subcontractor proposals and analyses with your cost proposal. If the subcontractor will not submit cost and pricing data to the offeror, this information must be submitted directly to the Government for analysis. On all subcontracts and interdivisional transfers, provide the method of selection used to determine the subcontractor and the proposed contract type of each subcontract. An explanation shall be provided if the offeror proposes a different amount than that quoted by the subcontractor.

(f) SPECIAL TOOLING OR TEST EQUIPMENT: When special tooling, and/or test equipment is proposed, attach a brief description of said items and indicate if they are solely for the performance of this particular contract or project and if they are or are not already available in the offeror's existing facilities. Indicate quantities, unit prices, whether items are to be purchased or fabricated, whether items are of a severable nature and the basis of the price. These items may be included under Direct Material in the summary format.

(g) CONSULTANTS: When consultants are proposed to be used in the performance of the contract, indicate the specific project or area in which such services are to be used. Identify each

consultant, number of hours or days to be used and the consultant's rate per hour or day. State the basis of said rate and give your analysis of the acceptability of the consultant's rate.

(h) FACILITIES CAPITAL COST OF MONEY: If Facilities Capital Cost of Money is claimed, a properly executed DD Form 1861 is required in support of the dollars proposed.

L037 DD FORM 1423 (FEB 1997)

(a) All technical data and identified administrative reports contractually required shall be supplied in accordance with attached CDRL or DD Form 1423.

(b) The offeror may propose alternative offers which recommend substitutions or eliminations of the stated requirements. Substantiate each recommendation and describe the projected savings that would result by accepting the alternative offer.

L045 ACCESS TO AIR FORCE COMPUTER SYSTEMS (FEB 2011)

If performance under this contract will require access to Air Force computer systems (stand alone or networked), compliance with Air Force Instruction (AFI) 33-119 and Air Force Instruction (AFI) 33-200 is mandatory. It should be noted that such access requires, at a minimum, a National Agency Check or Entrance National Agency Check in accordance with DoD 5200.2-R, Personal Security Program. Offerors should make themselves familiar with local procedures for processing such requirements, and be prepared to be in compliance on the first day of contract performance. Failure to comply with this requirement may be considered a failure to perform.
