
The [National Institute of Corrections](#) (NIC) is seeking applications for funding under the Fiscal Year (FY) 2023 to revise and update the curriculum for new jail planning. This initiative involves both program administration and delivery of training and technical assistance associated with Jail and Justice System Assessment requests.

NIC FY 2023 New Jail Planning Initiative

Eligibility

NIC invites applications from nonprofit organizations (including faith-based, community, and tribal organizations), for-profit organizations (including tribal for-profit organizations), and institutions of higher education (including tribal institutions of higher education). Recipients, including for-profit organizations, must agree to waive any profit or fee for services. Foreign governments, international organizations, and non-governmental international organizations/institutions are not eligible to apply. Proof of 501(c) (3) status as determined by the Internal Revenue Service or an authorizing tribal resolution is required.

NIC welcomes applications that involve two or more entities; however, one eligible entity must be the applicant and the others must be proposed as subrecipients. The applicant must be the entity with primary responsibility for administering the funding and managing the entire program. Only one (1) application will be accepted from a submitting organization.

NIC may elect to make awards for applications submitted under this solicitation in future fiscal years, dependent on the merit of the applications and on the availability of appropriations.

For additional eligibility information, see Section [C. Eligibility Information](#).

Deadline

Applicants must register with [Grants.gov](#) prior to submitting an application. NIC encourages applicants to register several weeks before the application submission deadline. In addition, NIC urges applicants to submit applications 72 hours prior to the application due date. All applications are due to be submitted and in receipt of a successful validation message in Grants.gov by 11:59 p.m. eastern time on May 1, 2023.

Late applications are neither reviewed nor considered.

For additional information, see [How To Apply](#) in [Section D Application and Submission Information](#).

Contact Information

For programmatic questions concerning this solicitation contact Mike Jackson, Correctional Program Specialist, National Institute of Corrections at mpjackson@bop.gov. Responses to programmatic questions will be posted on NIC's website for public review. The website will be updated regularly and postings will remain on the website until the closing date of this solicitation.

For technical assistance with submitting an application, contact the Grants.gov Customer Support Hotline at 800-518-4726 or 606-545-5035, or via e-mail to support@grants.gov. Hotline hours of operation are 24 hours a day, 7 days a week, except federal holidays.

Applicants who experience unforeseen Grants.gov technical issues beyond their control that prevent them from submitting their application by the deadline must e-mail the NIC at BOP-NIC/General@bop.gov within 24 hours after the application deadline and request approval to submit their application. Additional information on reporting technical issues is found under "Experiencing Unforeseen Grants.gov Technical Issues" in the [How To Apply](#) section.

Grants.gov number assigned to this announcement: 23JD13

NIC FY 2023 New Jail Planning Initiative (CFDA # 16.601)

A. Program Description

Overview

Local jurisdictions face a wide variety of challenges when deciding whether to build a new jail. If they make the decision to build, they face further challenges in the planning, construction, and operation of a new jail. The National Institute of Corrections (NIC) Jails Division provides training, technical assistance, and information related to new jail planning. These services address issues such as factors to consider in making the decision to build a new jail; the crucial importance of owner involvement in all phases of the project; and information related to designing, constructing, and occupying the new facility.

The NIC Jails Division is seeking one qualified applicant to revise and update the current How to Open a New Institution (HONI) class; administer the delivery of up to twelve classes of Planning of New Institutions (PONI), Managing Jail Design and Construction (MJDC) and HONI classes (not including the pilot class, for a total of 12 classes); and deliver up to four Jail and Justice System Assessments (JJSA) through technical assistance services to requesting jurisdictions. All technical resource providers (TRPs) must be approved by NIC as qualified instructors and/or JJSA providers.

Statutory Authority: Public Law 93-415

Program Specific Information

NIC is seeking applications for the following functions associated with this initiative: (1) Curriculum revision and piloting of the HONI program, (2) Delivery of the PONI, MJDC and HONI classes through partnership agreements with host sites, and (3) Delivery of technical assistance in the form of JJSA in accordance with NIC guidelines. One award will be made to encompass the initial twelve-month period, with the possibility of 2 additional funding options of twelve months each, and will be carried out in conjunction with the NIC Jails Division. The second year will encompass a revision of the PONI class as well as delivery of the class and pre- and post-revision. It will also include delivery of the MJDC and HONI classes and JJSA technical assistance. The third year will include delivery of the PONI, MJDC, and HONI classes as well as a revision and possible renaming of the JJSA technical assistance. The processes for year 1 will be repeated for years 2 and 3 concerning curriculum revision/development. This cooperative agreement contains multiple service deliveries under one broad program initiative.

Jail and Justice System Assessments (JJSA)

Jurisdictions considering renovating an existing jail or constructing a new one can apply for assistance in evaluating their current facility and the role of their jail in the local criminal justice system. NIC will assess the physical condition of the jail and interview criminal justice stakeholders about policies and practices that affect the jail. The assistance will result in recommendations related to new construction or renovation and observations concerning areas of the local justice system that have an effect on the jail population. The recommendations and observations will be presented at a town hall meeting of local officials, jail practitioners, and community members and will be documented in a follow-up report. The actual technical assistance includes general observations and impressions of the current jail as well as interviews and observations from other key stakeholders in the overall local criminal justice system. The TRPs will hold a kick-off meeting to familiarize themselves with the roles the core group of key criminal justice stakeholders play and to introduce the stakeholders to the activities that will take place over the three-day visit.

The primary goals of the JJSA are to:

1. Help jurisdictions understand their justice system components and to begin an inventory of their systems.
2. Educate jurisdictions so they understand it is never just a "jail problem," but it is in fact a justice system problem and a community problem.
3. Provide information about the facility development process.
4. Inform jurisdictions about the process used to begin assessing their readiness for planning an approach to address their justice system concerns. The process, in conjunction with the facility development process, leads them to make educated decisions about the need to build and/or to explore alternatives.

Planning of New Institutions (PONI)

Although criminal justice planners and architectural firms have the technical expertise to plan and design a new jail, it is the jurisdiction that will operate the jail long after the planners and architects are gone. Therefore, it is important that a jail's design meet the operational and capacity needs of the jurisdiction and agency that will operate it. Owner involvement throughout the planning process is crucial to the success of the planning effort and, ultimately, the successful construction and operation of the new jail. Decisions made at the early stages of the planning process will affect the remainder of the project. This 24-hour training program teaches the importance of in-depth planning before starting facility design; it does not teach participants how to design a correctional facility. The course teaches concepts through case studies, allowing participants to get "hands-on" experience in planning methods. The course focuses on the critical elements of planning a new facility, including collecting and using data, pre-architectural programming, site evaluation, project management, and determining staffing needs.

This training is designed for key policy and decision makers with roles in the new jail project. Participants should include the sheriff or director of corrections, the jail administrator, county commissioners or supervisors, the county executive or administrator and key non-elected community stakeholders. The preferred class size is 15-24 people.

The primary goals of the PONI program are to:

1. Provide participants with an understanding of the facility development process.
2. Create an opportunity for participants to define their individual role in the process and develop as a planning team.
3. Introduce team members to concepts that may be used in the facility planning and design process.
4. Provide team members with the opportunity to apply these concepts under the guidance of program facilitators.
5. Provide materials and information about jail planning and design to assist the jurisdiction in making well-informed planning decisions.

Managing Jail Design and Construction (MJDC)

Contracting services for the design and construction of a new facility is only one small step in the much larger process of building a new jail. How staff transfer incarcerated individuals, accept visitors, and create space for special programming are considerations that should be resolved long before construction begins. This program teaches participants to think about the nuances of their operations and how they should translate into design and construction. The course introduces participants to project management and clarifies the roles and responsibilities of those who develop, design, and construct new facilities. Together, teams learn how to read and interpret facility planning documents, manage changes during construction, and develop a design and construction plan that meets their needs. By the end of the course, teams should be able to take an active role in managing day-to-day activities, resolving problems, and making decisions related to the design and construction process.

Participants work on the skills and abilities they need to manage design and construction. Participants must have key decision-making roles in the building project. They should have a firm commitment to the construction of a new facility and have funding for the project, and they should have completed, or be in the process of completing, a needs assessment and feasibility study. The participants should include the sheriff, jail administrator, project manager, transition team leader, and other assigned agency and county staff members.

The class has a 3-day agenda and is presented at the agency's training site. The instruction team consists of two architects who have vast knowledge and experience with new jail design and construction. The primary goals of this program are to:

1. Provide all participants with the knowledge and skills necessary to take control in the development, planning, and design of a safe, effective, efficient and constitutional jail.
2. Provide the agencies training in how to review the three phases of drawings in a jail building project (schematic design, design development, and construction documents).
3. Introduce participants to the concept of project management (responsibilities and roles of the major parties involved in the project).
4. Clarify participants' roles and responsibilities related to the development, design, and construction of the jail.
5. Provide the tools necessary for managing the construction process/project.
6. Introduce participants to factors that influence jail design.

How to Open a New Institution (HONI)

Most jurisdictions build jails infrequently. As a result, many of their resources – time and energy, not to mention money – go into the building. While this is natural, there is an equally important, less obvious group of development activities that are essential ingredients for a successful new jail. While the building is being built, new operational procedures need to be developed along with plans to move the population from the old facility to the new one. Many times, there will be a public opening of the building to show the citizenry the fruits of their tax dollars.

There are real consequences to failing to provide adequately for transition. Jurisdictions have had serious incidents such as escape and facility unrest. These have very negative consequences not only in terms of their potential human and economic cost, but also because of the political fallout that can occur. To avoid these potential pitfalls, transition needs to be a priority.

Transition assistance helps local officials understand how to plan for the transition to and occupation of the new jail. The optimal time for this training is approximately 18 months before the projected opening date of the new facility. This program provides training for the transition team on the function of the jail's mission statement; development of operational scenarios, policies, procedures, and post orders; move logistics; staff training issues; budgeting for transition; and development of an action plan for transition.

Participants will learn how to identify the critical tasks required to open the facility and develop an action plan to complete those tasks. The training is intended for transition team members, the jail and sheriff's management team, maintenance, procurement, budget, human resources, and training directors (both county and sheriff's), county manager, county board, jail advisory group, media, county attorney, architect, contractor, construction manager, and contract staff.

The primary goals of HONI are to:

1. Provide all participants with the knowledge and skills necessary to develop and implement an operational plan
2. Provide all participants with the knowledge and skills necessary to teach staff how to operate

- the new facility
3. Provide the tools necessary to anticipate and resolve building problems before and after occupancy

Goals

The goal of this cooperative agreement is to provide: (1) curriculum revision and facilitation of the How to Open a New Institutions (HONI) training class; (2) delivery of the 24-hour Planning Of New Institutions (PONI) and 24-hour Managing Jail Design and Construction (MJDC) jail administration training class; and (3) delivery of Jail and Justice System Assessment (JJSA) technical assistance.

A qualified awardee will demonstrate expertise and experience in the purpose, functions, and planning of local jails. The awardee will work closely with NIC staff on all aspects of the project and collaborate with NIC-approved subject matter experts and a curriculum specialist as part of the curriculum revision and development team. This project will be a collaborative venture with the NIC Jails Division. The awardee will work closely with NIC staff on all aspects of the project.

To be considered, applicants must demonstrate, at a minimum: (1) in-depth knowledge of the purpose, functions, and planning complexities of local jails; (2) expertise on the key elements of planning and construction of a new jail; (3) extensive experience in working with local jails and associated agencies on issues related to new jail planning, design and construction.

The successful applicant(s) must:

1. Articulate a clear understanding of and experience in the New Jail Planning assistance and training as presented by NIC.
2. Demonstrate a minimum of 10 years of expertise and experience in adult learning and performance, training development, classroom facilitation, and executive forum debriefs.
3. Identify a committed project team member (curriculum specialist) with a minimum of 10 years of proven experience and expertise in adult learning principles; specifically, Instructional Theory Into Practice (ITIP).
4. Exhibit written communication competencies in the form of published works, lesson plans, and/ articles submitted to professional journals such as *American Jails* and *Corrections Today*.
5. Possess project team members with a minimum of 10 years of experience at a senior-/executive-level position in a local jail system who have a demonstrated resume of providing technical assistance to jurisdictions other than their own and experience training on a national platform in the new jail planning arena.
6. Retain a proven project director (applicant awardee) with a minimum of 15 years of expertise and experience in project management with successful deliverables and completion of projects.

Objectives

The program's overall objectives include the following:

- Promote a philosophy that recognizes the need to effectively plan the design and construction of a new jail to positively affect the safety and security of the community, staff, and incarcerated individuals which it serves.
- Provide training and technical assistance in new jail planning to foster the development of constitutionally operated facilities and provide jurisdictions with the tools they need to design, construct, and operate a jail that meets the needs and expectations of the community.

Service #1: Review and revision of the HONI curriculum

Planning Meeting:

- The awardee will participate in a planning meeting either virtually or at the NIC offices in Washington, DC. The planning meeting will be scheduled in collaboration with the awardee within 30 days of the date of award to (1) review the history and required elements of the cooperative agreement, (2) discuss the goals, objectives and timeline of this cooperative agreement, and (3) develop the content outline for the revised HONI curriculum.
- Agenda items included in the planning meeting are as follows, but not limited to the following:
 - Review and discuss the current HONI curriculum including:
 - Audience
 - Delivery style
 - Discuss relevant issues, data, research, and best practices regarding HONI and incorporation of these items into revised curricula if appropriate
 - Discuss relevant job classifications that need to be included in this program
 - Create an outline of the topics identified by the focus group for inclusion in the new program based on this meeting's discussions, SME expertise, and available data and research
 - Assign topics for module development in the revised program
 - Discuss additional items identified by the awardee in concert with the NIC Project Manager (NIC Correctional Program Specialist managing this cooperative agreement)
- Extensive revisions are not anticipated. Most of the revisions are expected to be formatting issues and some content revisions/updates and any pertinent revisions determined by the focus group. These revisions could also include additions to or revisions of the supplemental material, but a complete re-write is not the anticipated direction of this review and revision.
- The awardee and all participating SMEs will review and become familiar with the current curriculum.
- Each SME participating in the focus group must have a minimum of 10 years of experience with the practice of or instruction in transitioning of staff and incarcerated individuals to a new jail.
 - The awardee will discuss any questions with the NIC Project Manager.
- In preparation for the planning, meeting the awardee will:
 - Work with the NIC Project Manager to identify and approve up to five SMEs for participation.
 - Supply the NIC Project Manager with bios and resumes on all possible SMEs participating in the planning meeting. The NIC Project Manager must approve all SME participation.
 - Supply copies of the HONI curriculum to all SMEs.
 -

- Supply copies of supplemental materials with the current curriculum.
 - Develop a detailed agenda with objectives for the planning meeting.
 - Discuss other items identified by the awardee or NIC Project Manager after award.
- During the planning meeting, the awardee will:
 - Facilitate the planning meeting in collaboration with the NIC Project Manager.
 - Ensure minutes of the planning meeting are captured and incorporated into a report outlining the outcomes and key discussion points of the meeting. This report is separate from the quarterly report and must be submitted within 30 days of the conclusion of the planning meeting.
 - Adhere to the agenda and ensure all objectives are met by the conclusion of the meeting.
 - At the conclusion of the planning, meeting the awardee will:
 - Formulate the planning meeting report. It will include, but is not limited to:
 - Participants
 - Date(s)
 - Location
 - Agenda
 - Key discussion points
 - Determined outcomes from the meeting
 - Outline for the new curriculum with team member assignments for development
 - Next steps for the cooperative agreement deployment
 - Conduct any necessary follow-up discussions.
 - Finalize participant travel payments.

Deliverables

In addition to the strategy and content of the program design, the successful applicant must complete the following deliverables during the project period. The program narrative should reflect how the applicant will accomplish these activities.

- At a minimum, the following items must be delivered in electronic versions (Word and Adobe), in hard copy format (all manuals should be printed and spiral bound), and on a thumb drive for the new curriculum:
 - Program overview
 - Program agenda
 - Detailed narrative lesson plans (in an NIC-supplied format) including:
 - Individual lesson plans by module
 - Comprehensive instructor manual with attached cover, including all lesson plans in one cohesive document
 - Participant manual that follows the lesson plans
 - Action Plan Workbook
 - Presentation slides for each lesson plan
 - Supplemental materials including, but not limited to, posters, handouts, training activities, etc.

- Delivery of an initial pilot class at a host site selected by NIC to determine and test new the material and format.
- Subject Matter Experts (SMEs) are required for this service delivery. A resume, bio, and a signed statement of availability and interest to participate must be submitted for each team member. SMEs must be approved by the project manager. The awardee is responsible for all team member expenses and fees. Minimum requirements for consideration include, but are not limited to the following:
 - An approved curriculum specialist with a minimum of 10 years of expertise and experience
 - Subject matter expert(s) with a minimum of 10 years of experience with the HONI program as presented by NIC
 - Subject matter expert(s) with a minimum of 10 years of experience training on a national platform
 - A project director with a minimum of 15 years of experience in project management. The project director may also be one of the SMEs if he/she meets the criteria. There must be at least one SME in addition to the project director.

Service #2: Facilitation of the PONI, MJDC, and HONI programs

The participants for the PONI class must be key policy and decision makers with roles in the new jail project. Participants should include the sheriff or director of corrections, the jail administrator, county commissioners or supervisors, the county executive or administrator and key non-elected community stakeholders.

The participants for the MJDC class should include the sheriff, jail administrator, project manager, transition team members, and other assigned agency and county staff members.

The HONI training is intended for transition team members, the jail and sheriff's management team, maintenance, procurement, budget, human resources, and training directors (both county and sheriff's), county manager, county board, jail advisory group, media, county attorney, architect, contractor, construction manager, and contract staff.

The awardee will use NIC curricula, participant manuals, and other materials. The awardee, in conjunction with the NIC Project Manager, will arrange for two instructors for each program from a list of pre-approved instructors. The awardee will provide the monetary compensation for instructor fees, travel, and lodging expenses as negotiated by them with each instructor. NIC will provide the awardee with materials for copying and shipping by the awardee to each program site. Materials include instructor and participant manuals, instructional slide presentations, action plan workbooks, handouts, posters, and end-of-program evaluation instruments.

Deliverables

The awardee will provide two instructors, instructional materials, and aforementioned evaluations to a total of twelve PONI, MJDC or HONI classes to be held in partnership with hosting jurisdictions with no more than twenty-five participants per class. Partnership programs are intended to be offered to jurisdictions close enough to the host jurisdiction so as not to necessitate any lodging or other travel costs. Any participant travel costs for partnership programs are the responsibility of the agency requesting to attend the program.

Service #3: Delivery of Technical Assistance (JJSA)

The awardee will also administer the delivery of technical assistance in the form of a Jail and Justice System Assessment or JJSA to jurisdictions that have identified the possibility that they are considering replacing, expanding, or remodeling their current facility. It is anticipated that a total of four JJSA requests will be received and fulfilled during this period.

NIC will receive and investigate the requests for technical assistance. Once NIC has determined that technical assistance is to be provided, a statement of work, and a short list of pre-approved TRPs will be provided to the awardee. The awardee will contact TRPs on the list to determine their availability and interest in performing the work. The awardee will negotiate fees and expenses with each TRP. TRP fees will be paid upon receipt of the final copy of the written report. Expenses will be paid upon request, pending the reception of the necessary forms and receipts by the awardee.

The SOW will include:

- The location of the work
- The number of TRPs required to perform the work
- The parameters of the work to be accomplished, including:
 - The estimated number of fee days per TRP
 - The tasks and activities to be performed pre-site visit and on site by each TRP
- The requested timeframe for accomplishment of the work and receipt of the draft and final copies of TA reports

All draft reports will be forwarded to NIC for review prior to finalization and release to the requesting jurisdiction.

Deliverables

The awardee will provide two TRPs per event from the aforementioned list. The awardee will negotiate and provide monetary reimbursement for the TRPs' fees, transportation, lodging, meals and associated expenses such as baggage fees, parking, on-site transportation, etc.

Evidence-based programs or practices. NIC strongly emphasizes the use of data and evidence in policy making and program development.

- improving the quantity and quality of evidence NIC generates;
- integrating evidence into program, practice, and policy decisions within NIC and the field; and
- improving the translation of evidence into practice.

NIC considers programs and practices to be evidence-based when their effectiveness has been demonstrated by causal evidence, generally obtained through one or more outcome evaluations. Causal evidence documents a relationship between an activity or intervention (including technology) and its intended outcome, including measuring the direction and size of change, and the extent to which a change may be attributed to the activity or intervention. Causal evidence depends on the use of scientific methods to rule out, to the extent possible, alternative explanations for the documented change. The strength of causal evidence, based on the factors described above, will influence the degree to which NIC considers a program or practice to be evidence-based.

Applications must include in Program Narrative and Budget Narrative the incorporation of products delivered meet Plain Language and 508 Standards.

NIC Staff Responsibilities

Cooperative agreements require significant NIC staff involvement excluding the basic monitoring of the project, progress, deliverables, and reports. NIC Program Managers will be involved in the following aspects of the cooperative agreement:

- Selecting and approving all host sites in advance of the deployment of any services
- Initiating contact with each host site in advance of the program coordinator and facilitating introduction and role clarification
- Approving all site visits and training dates
- Approving all instructors
- Providing the presentation slide deck, participant guide, poster templates, and handout templates for the different courses
- Providing directions for duplication, printing, and shipping

In addition to the strategy and content of the program design, the successful applicant must complete the deliverables specified in the statement of work and program description during the project period. The program narrative should reflect how the applicant will accomplish these activities.

Before approving a deliverable, NIC reserves the right to test the deliverable against the applicant's Section 508 claims. If NIC determines that the applicant's claims were false and at higher level of conformance than what was actually received, NIC may, at its option, reject the deliverable and require the applicant to remediate the deliverable to align with the applicant's stated Section 508 conformance claims before its approval.

Additionally before approving a deliverable, NIC reserves the right to review the applicant's deliverables for conformance to federal plain writing guidelines and NIC Guidelines for Preparing and Submitting Manuscripts for Publication. If NIC determines that the applicant's deliverables do not meet all applicable guidelines, NIC may, at its option, reject the deliverable and require the applicant to remediate the deliverable align with those guidelines.

Evidence-Based Programs or Practices.

NIC strongly emphasizes the use of data and evidence in policy making and program development:

- Improving the quantity and quality of evidence NIC generates.
- Integrating evidence into program, practice, and policy decisions within NIC and the field; and
- Improving the translation of evidence into practice.

NIC considers programs and practices to be evidence-based when their effectiveness has been demonstrated by causal evidence, generally obtained through one or more outcome evaluations. Causal evidence documents a relationship between an activity or intervention (including technology) and its intended outcome, including measuring the direction and size of a change, and the extent to which a change may be attributed to the activity or intervention. Causal evidence depends on the use of scientific methods to rule out, to the extent possible, alternative explanations for the documented change. The strength of causal evidence, based on the factors described above, will influence the degree to which NIC considers a program or practice to be evidence-based.

Accessibility Requirements

Section 508 of the Rehabilitation Act, as amended by the Workforce Investment Act of 1998 (P.L. 105-220) requires that when federal agencies develop, buy, maintain, or use information and communication technology (ICT), it shall be accessible to people with disabilities. Federal employees and members of the

public who have disabilities must have access to and use of information and data comparable to employees and members of the public without disabilities.

Deliverables submitted as part of this project must conform to the Revised Section 508 Standards (see 36 C.F.R. § 1194.1 & Apps. A, C & D), which are available online at <https://www.govinfo.gov/content/pkg/CFR-2017-title36-vol3/xml/CFR-2017-title36-vol3-part1194.xml>. All functional performance criteria apply when the requirements outlined Chapters 4–6 of the Revised 508 Standards either (1) do not address one or more functions of ICT or (2) provide lower accessibility and usability for people with disabilities than would be provided by using alternative design or technology. All Web Content Accessibility Guidelines (WCAG) Level A and AA success criteria and 502 Interoperability with Assistive Technology and 503 Application of the Revised 508 Standards apply. All requirements for hardware features, components, and support services and documentation also apply. See <https://www.section508.gov/>

Plain Language Requirements

The Plain Writing Act of 2010 requires federal agencies to use plain writing in documents that are necessary for obtaining government funding, providing information about federal government benefits or services, or explaining to the public how to comply with a requirement that the federal government administers or enforces. The Act also requires agencies to use plain writing in every paper or electronic letter, publication, form, notice, or instruction. Its purpose is to improve the effectiveness and accountability of federal agencies. See <http://www.nicic.gov/plainlanguage> and <https://plainlanguage.gov/law/>

Deliverables submitted as part of this project must adhere to the federal plain writing guidelines, which are available at <https://www.plainlanguage.gov/guidelines/>, and the NIC Guidelines for Preparing and Submitting Manuscripts for Publication, which is available at <https://www.nicic.gov/plainlanguage>.

Additional resources

NIC training and technical assistance awardee standards. NIC has developed the [TA Handbook] to promote among providers the consistency and quality of NIC-sponsored training and technical assistance and to advance common expectations of performance excellence. The standards present minimum expectations that providers must meet for effective practice in the planning, coordination, delivery, and evaluation of training.

B. Federal Award Information

NIC expects to make one award for as much as \$350,000.00 for a 12-month project period, beginning on June 15, 2023. Requests for amounts more than a total of \$350,000.00, including direct and indirect costs will not be considered.

Type of award. NIC expects to make an award from this solicitation in the form of a [cooperative agreement](#) which is a particular type of grant used when NIC expects to have ongoing substantial involvement in award activities. Substantial involvement includes direct oversight and involvement with the grantee organization in implementation of the grant but does not involve day-to-day project management, additional information on the substantial involvement can be found in Section A. See [Administrative, National Policy, and Other Legal Requirements](#), under Section [F. Federal Award Administration](#), for details regarding the federal involvement anticipated under an award from this solicitation.

All awards are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by law.

If the awardee demonstrates significant progress toward implementing project activities and achieving project goals, NIC may, in certain cases, provide supplemental non-competitive funding for FY 2024 and FY 2025 to the awardee. With the supplemental funding, the project period can be extended up to two additional 12-month increments for an overall project period of 36 months. Important considerations in decisions regarding supplemental funding include, among other factors, the availability of funding, strategic priorities, assessment of the quality of the management of the award (for example, timeliness and quality of progress reports), and assessment of the progress of the work funded under the Award.

Performance measures capture outcomes of cooperative agreement activities, demonstrating if programs accomplish goals and objectives. Performance measures. NIC requires all applicants to submit quarterly progress reports demonstrating progress towards completion of the work proposed under this solicitation. The performance measures for this solicitation outlined on the following page:

Objective	Performance Measure(s)	Description	Data Grantee Provides
Promote a philosophy that recognizes the need to effectively plan the design and construction of a new jail to positively affect the safety and security of the community, staff and incarcerated individuals which it serves	Attend and participate in a planning meeting within 30 days of the date of award.	Review the history and required elements of the cooperative agreement.	The awardee will provide a written report detailing a summary of the discussions and major outcomes/decision points. The report will be provided within 30 days of the meeting, or sooner as mutually agreed to by both the awardee and NIC.
Same as Above	Same as Above	Discuss the goals, objectives, and timeline of this cooperative agreement.	The awardee will provide a written report detailing a summary of the discussions and major outcomes/decision points. The report will be provided within 30 days of the meeting or sooner as mutually agreed to by both the awardee and NIC.
Same as Above	Same as Above	Develop the content outline for the revised How to Open a New Institution (HONI) curriculum.	As part of the above report, the awardee will supply the outline developed at the meeting.
Same as Above	Successful completion of the curriculum review and revisions and execution of a pilot class as outlined in service delivery number 1	Extensive revisions are not anticipated. Most of the revisions are expected to be formatting issues with some minor content revisions and any pertinent revisions determined by the focus group. These revisions could also include additions to or revisions of supplemental material.	The awardee will deliver the new curriculum in electronic versions (Word and Adobe), hard copy (all manuals should be printed and spiral bound), and on a thumb drive with the following components: Program overview; Program agenda; Detailed narrative lesson plans (in NIC-supplied format), including individual lesson plans by module and a comprehensive instructor manual with attached cover, including all lesson plans in one cohesive document; Participant manual that follows the lesson plans; Action Plan Workbook; Presentation slides for each lesson plan; Supplemental materials including, but not limited to, posters, handouts, training activities, etc.; Delivery of a pilot class and changes made to new material as necessary.

Provide training and technical assistance in New Jail Planning to foster the development of constitutionally operated facilities and provide jurisdictions with the tools they need to design construct and operate a jail that meets the needs and expectations of the community.	Number of programs conducted	The awardee will use NIC curricula, participant manuals, and other materials. The awardee will arrange for two instructors for each program to be conducted from a list of pre-approved instructors in conjunction with the NIC Project Manager.	The awardee will provide a combination of 12 PONI, MJDC, and/or HONI classes in partnership with hosting jurisdictions with approximately 25 participants per class.
Same as Above	It is anticipated that a total of four Technical Assistance JJSA requests will be received and fulfilled during this period.	The awardee will contact technical resource providers (TRPs) on the NIC-provided list to determine their availability and interest in performing the work. The awardee will negotiate fees and expenses with each TRP.	TRP fees will be paid upon receipt of the final copy of the written report.

Financial Management and System of Internal Controls

Award recipients and subrecipients (including recipients or subrecipients that are pass-through entities) must, as described in Part 200 Uniform Requirements as sent out as set out at 2 C.F.R. 200.303:

Establish and maintain effective internal control over the federal award that provides reasonable assurance that the nonfederal entity is managing the federal award in compliance with federal statutes, regulations, and the terms and conditions of the federal award. These internal controls should be in compliance with guidance in “Standards for Internal Control in the Federal Government” issued by the Comptroller General of the United States and the “Internal Control Integrated Framework”, issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Comply with federal statutes, regulations, and the terms and conditions of the federal awards.

Evaluate and monitor the nonfederal entity's compliance with statute, regulations, and the terms and conditions of federal awards.

Take prompt action when instances of noncompliance are identified, including noncompliance identified in audit findings.

Take reasonable measures to safeguard protected personally identifiable information and other information the federal awarding agency or pass-through entity designates as sensitive or the nonfederal entity considers sensitive consistent with applicable federal, state, and local laws regarding privacy and obligations of confidentiality.

Budget Information

Funding Restrictions

Foreign Travel is not allowed unless prior written approval is received from Awarding Agency (NIC). Equipment purchases are not allowed. Construction is not an allowable activity.

Incentives or Stipends

Unless specifically listed in Section A, NIC will not fund incentives or Stipends.

Pre-Agreement Cost Approvals

NIC does not typically approve pre-agreement costs; an applicant must request and obtain the prior written approval of NIC for all such costs. If approved, pre-agreement costs could be paid from grant funds consistent with a grantee's approved budget, and under applicable cost standards. However, all such costs prior to award and prior to approval of the costs are incurred at the sole risk of an applicant.

Generally, no applicant should incur project costs *before* submitting an application requesting federal funding for those costs. Should there be extenuating circumstances that appear to be appropriate for NIC's consideration as pre-agreement costs, the applicant should contact the point of contact listed on the title page of this announcement for details on the requirements for submitting a written request for approval.

Limitation on use of award funds for employee compensation; waiver

With respect to any award of more than \$250,000 made under this solicitation, recipients may not use federal funds to pay total cash compensation (salary plus cash bonuses) to any employee of the award recipient at a rate that exceeds 110 percent of the maximum annual salary payable to a member of the Federal Government's Senior Executive Service (SES) at an agency with a Certified SES Performance

Appraisal System for that year. The 2023 salary table for SES employees is available at the Office of Personnel Management [website](#). Note: A recipient may compensate an employee at a greater rate, provided the amount in excess of this compensation limitation is paid with non-federal funds. (Any such additional compensation will not be considered matching funds where match requirements apply.)

C. Eligibility Information

NIC invites applications from nonprofit organizations (including faith-based, community, and tribal organizations), for-profit organizations (including tribal for-profit organizations), and institutions of higher education (including tribal institutions of higher education). Recipients, including for-profit organizations, must agree to waive any profit or fee for services. Foreign governments, international organizations, and non-governmental international organizations/institutions are not eligible to apply. Proof of 501(c) (3) status as determined by the Internal Revenue Service or an authorizing tribal resolution is required.

NIC welcomes applications that involve two or more entities; however, one eligible entity must be the applicant and the others must be proposed as subrecipients. The applicant must be the entity with primary responsibility for administering the funding and managing the entire program. Only one (1) application will be accepted from a submitting organization.

NIC may elect to make awards for applications submitted under this solicitation in future fiscal years, dependent on the merit of the applications and on the availability of appropriations.

Cost Sharing or Matching Requirement

This solicitation does not require cost sharing or match. However, if a successful application proposes a voluntary cost share or match amount, and NIC approves the budget, the total cost share or match amount shall be incorporated into the approved budget, and becomes mandatory and subject to audit. Cost sharing or match will not be used as a factor during the merit review of applications.

Limit on Number of Application Submissions

If an applicant submits multiple versions of the same application, NIC will review only the most recent system-validated version submitted. For more information on system-validated versions, see [How To Apply](#).

D. Application and Submission Information

What an Application Should Include

Applicants should anticipate that if they fail to submit an application that contains all of the specified elements, it may negatively affect the review of their application; and, should a decision be made to make an award, it may result in the inclusion of special conditions that preclude the recipient from accessing or using award funds pending satisfaction of the conditions. [See attached checklist.](#)

Moreover, applicants should anticipate that applications that are determined to be nonresponsive to the scope of the solicitation, do not request funding within the funding limit, or that do not include the application elements that NIC has designated to be critical, will neither proceed to peer review nor receive

further consideration. Under this solicitation, NIC has designated the following application elements as critical: Project Abstract, Program Narrative, Accessibility Conformance Report, Budget Detail Worksheet, Budget Narrative, Logic Model, Timeline or Milestone Chart and résumés of all key personnel.

Applicants should review the “Note on File Names and File Types” under [How To Apply](#) to be sure that they submit their applications in the permitted formats.

NIC strongly recommends that applicants use appropriately descriptive file names (e.g., “Accessibility Conformance Report”, “Program Narrative,” “Budget Detail Worksheet and Budget Narrative,” “Timelines,” “Memoranda of Understanding,” “Résumés”) for all attachments. Also, NIC recommends that applicants include résumés in a single file.

Information to Complete the Application for Federal Assistance (SF-424)

The SF-424 is a required standard form used as a cover sheet for submission of pre- applications, applications, and related information. This form can be found on [Grants.gov](#) and NIC’s website <https://nicic.gov/invitations-bid-and-requests-proposal>.

Intergovernmental review

This funding opportunity is not subject to [Executive Order 12372](#). (In completing the SF-424, applicants are to make the appropriate selection in response to question 19 to indicate that the “Program is not covered by E.O. 12372.”)

Project Abstract

Applications must include a high-quality project abstract that summarizes the proposed project in 400 words or less. Project abstracts should be

- written for a general public audience;
- submitted as a separate attachment with “Project Abstract” as part of its file name; and
- single-spaced, using a standard 12-point font (Times New Roman) with 1-inch margins.

As a separate attachment, the project abstract will not count against the page limit for the program narrative.

The abstract should briefly describe the project’s purpose, the population to be served, and the activities that the applicant will implement to achieve the project’s goals and objectives. The abstract should describe how the applicant will measure progress toward these goals.

Program Narrative

Applicants must submit a program narrative that presents a detailed description of the purpose, goals, objectives, strategies, design, and management of the proposed program. The program narrative should be double-spaced with 1-inch margins, not exceeding 30 pages of 8½ by 11 inches, and use a standard 12-point font, preferably Times New Roman. Pages should be numbered “1 of 30,” etc. The tables, charts, pictures, etc., including all captions, legends, keys, subtext, etc., may be single-spaced and will count in the 30-page limit. Material required under the Budget and Budget Narrative and Additional Attachments sections will not count toward the program narrative page count. Applicants may provide bibliographical references as a separate attachment that will not count toward the 30-page program narrative limit. If the program narrative fails to comply with these length-related restrictions, NIC may consider such noncompliance in peer review and in final award decisions.

The program narrative should address the following selection criteria: (1) statement of the problem; (2) goals, objectives, and performance measures; (3) program design and implementation; and (4) capabilities/competencies. The applicant should clearly delineate the connections between and among each of these sections. For example, the applicant should derive the goals and objectives directly from the problems to be addressed. Similarly, the project design section should clearly explain how the program's structure and activities will accomplish the goals and objectives identified in the previous section.

The following sections should be included as part of the program narrative:

Statement of the problem.

Applicants should describe any research or evaluation studies that relate to the problem and contribute to the applicant's understanding of its causes and potential solutions. While NIC expects applicants to review the research literature for relevant studies, they should also explore whether unpublished local sources of research or evaluation data are available.

Goals, objectives, and performance measures.

Applicants should describe the goals of the proposed training and technical assistance program and identify its objectives. When formulating the program's goals and objectives, applicants should be cognizant of the performance measures that NIC will require successful applicants to provide.

Goals. Applicants should describe the program's intent to deliver training and technical assistance, as described in the previous section and outline the project's goals.

Program objectives. Applicants should explain how the program will accomplish its goals. Objectives are specific, quantifiable statements of the project's desired results. They should be clearly linked to the training and technical assistance strategy identified in the preceding section and measurable.

NIC does not require applicants to submit performance measures data with their application. Performance measures are included as an alert that NIC will require successful applicants to submit specific data as part of their reporting requirements. For the application, applicants should indicate an understanding of these requirements and discuss how they will gather the required data, should they receive funding.

Project Design and Implementation

Applicants should detail how the project will operate throughout the funding period and describe the strategies that they will use to achieve the goals and objectives identified in the previous section. Applicants should describe how they will complete the deliverables stated in the Goals, Objectives, and Deliverables section on page 5. NIC encourages applicants to select evidence-based practices for their programs.

Logic Model

Applicants must include a logic model that graphically illustrates how the performance measures are related to the project's problems, goals, objectives, and design. Applicants should submit the logic model as a separate attachment, as stipulated in Additional Attachments.

Timeline or Milestone Chart

Applicants must submit a milestone chart that indicates major tasks associated with the goals and objectives of the project, assigns responsibility for each, and plots completion of each task by month or quarter for the duration of the award, using "Year 1," "Month 1," "Quarter 1," etc., not calendar dates.

Applicants should submit the timeline as a separate attachment, as stipulated in Additional Attachments, page 19. On receipt of an award, the recipient may revise the timeline, based on training and technical assistance that NIC will provide.

Capabilities and Competencies, Résumés of All Key Personnel

This section should describe the experience and capability of the applicant organization and any contractors or subawards that the applicant will use to implement and manage this effort and its associated federal funding, highlighting any previous experience implementing projects of similar design or magnitude. Applicants should highlight their experience/capability/capacity to manage subawards, including details on their system for fiscal accountability. Management and staffing patterns should be clearly connected to the project design described in the previous section. Applicants should describe the roles and responsibilities of project staff and explain the program's organizational structure and operations. Applicants should include a copy of an organizational chart showing how the organization operates, including who manages the finances; how the organization manages subawards, if there are any; and the management of the project proposed for funding.

Letters of Support/Memoranda of Understanding

If submitting a joint application, as described under Section C: Eligibility Information, page 1, applicants should provide signed and dated letters of support or memoranda of understanding for all key partners that include the following:

- expression of support for the program and a statement of willingness to participate and collaborate with it;

- description of the partner's current role and responsibilities in the planning process and expected responsibilities when the program is operational; and

- estimate of the percentage of time that the partner will devote to the planning and operation of the project.

Accessibility Conformance Report

Applicants must provide an Accessibility Conformance Report (ACR) for each type of Information and Communication Technology (ICT) (e.g., electronic document, web-based content, web-based training, podcast, or video) offered through this Cooperative Agreement. Create the ACR using the Voluntary Product Accessibility Template (VPAT) Version 2.1 or later, located at <https://www.itic.org/policy/accessibility/vpat>. Complete each ACR in accordance with the instructions provided in the VPAT template.

Each ACR must address the applicable Section 508 requirements referenced in the statement of work and program description. Use the remarks/explanations column or additional narrative to explain how the ICT meets, fails to meet, or does not apply to the standards (e.g., user functionality, administrator functionality, and reporting). For ICT features that do not fully conform to Section 508 standards, describe your plan to remedy those features.

Finally, the applicant should describe the evaluation methods that were used to support Section 508 conformance claims. NIC reserves the right, prior to making an award decision, to perform testing on some or all of the applicant's proposed ICT items to validate Section 508 conformance claims made in the ACR.

Plain Writing Attestation Letter

For the deliverables offered with this Cooperative Agreement, applicants should provide a letter attesting

to the adherence of requirements of the Plain Writing Act of 2010 and NIC Guidelines for Preparing and Submitting Manuscripts for Publication <https://nicic.gov/plainlanguage>. Include a section describing the evaluation methods that were used to support plain writing claims. NIC reserves the right, prior to making an award decision, to perform testing on some or all of the applicant's proposed deliverables to validate claims made in the plain writing attestation letter.

Budget Detail Worksheet and Budget Narrative

Applicants must provide a budget that (1) is complete, allowable, and cost-effective in relation to the proposed activities; (2) shows the cost calculations demonstrating how they arrived at the total amount requested; and (3) provides a brief supporting narrative to link costs with project activities. The budget should cover the entire award period. Pre-agreement cost approvals: For information on pre-agreement costs, see Section [B. Federal Award Information](#).

Budget and Budget Justification

Budget SF-424A

Prepare a master budget table using "SF-424A Budget Information for Non-Construction Programs" (aka SF-424A), available in the [Grants.gov](#) electronic application package. Only complete "Section B- Budget Categories". Provide the object class budget category (a. - k.) amounts for each budget year under the "Grant Program, Function or Activity" heading. Each column reflects a separate budget year. For example, Column (1) reflects budget year 1. The total budget will be automatically tabulated in column (5). The solicitation will specify if the award will fund multiple years, continuation awards will be made on a noncompetitive basis. Column 1 (budget year 1) is the only requirement.

Budget Justification Detail Worksheet

The Budget Detail Worksheet must provide the detailed computation for each budget line item, listing the total cost of each and showing how it was calculated by the applicant. For example, cost for personnel must show the annual salary rate and the percentage of time devoted to the project for each employee paid with cooperative agreement funds. The Budget Detail worksheet must present a complete itemization of all proposed costs.

Identify the amount requested for each budget category and describe the basis for calculating the personnel, fringe benefits, travel, equipment (if authorized), supplies, contractual support and other costs identified in the SF-424A.

Budget information must be supported at the level of detail described below:

(1) Personnel: List all staff positions by title. Give annual salary, percentage of time assigned to the project, total cost for the budget period, project role and specify any annual cost of living adjustments. Compensation paid for employees engaged in grant activities must be consistent with payments for similar work within the applicant organization. Note that for salaries to be allowable as a direct charge to the award, a justification of how that person will be directly involved in the project must be provided. General administrative duties such as answering telephones, filing, typing or accounting duties are not considered acceptable.

Below is a sample computation for Personnel:

Position/Title	Annual Salary	% of Time	Year 1	Year 2*	Year 3*	Total

		Assigned to Project				
Project Manager	\$70,000	50%	\$35,000	\$36,050	\$37,132	\$108,182
Trainer	\$60,000	100%	\$60,000	\$61,800	\$63,654	\$185,454
Specialist Design Tech	\$45,000	100%	\$45,000	\$46,350	\$47,741	\$139,091
Total Personnel			\$140,000	\$144,200	\$148,527	\$432,727

***There is a 3% increase after Year 1 for all personnel for cost of living adjustments**

Note this budget category is limited to persons employed by the applicant organization ONLY. Those employed elsewhere are classified as subawardees, program participants, contractors or consultants. Contractors and consultants should be listed under the “Contractual” budget heading. Subawards made to eligible subrecipients are listed under the “Other” budget heading. Participant support costs such as travel assistance for trainees are listed under the “Other” budget heading.

(2) Fringe Benefits: Identify the percentage used and the basis for its computation. Fringe benefits are for the personnel listed in budget category (1) above and only for the percentage of time devoted to the project. Fringe benefits include but are not limited to the cost of leave, employee insurance, pensions and unemployment benefit plans. The applicant should not combine the fringe benefit costs with direct salaries and wages in the personnel category.

Below is a sample computation for Fringe Benefits

Position/Title	Base Fringe % Rate	Costs
Project Manager	47.22%	\$16,527
Trainer	50.83%	\$30,498

3) Travel: In a table format, specify the estimated number of trips, purpose of each trip, number of travelers per trip, destinations and other costs for each type of travel for applicant employees. Travel costs for program participants if authorized, should be specified in the “Other” budget category. Explain the need for any travel, paying particular attention to travel outside the United States. Foreign travel includes trips to Mexico and Canada and but does not include trips to Puerto Rico, the U.S. territories, or possessions. **If NIC funds will be used for foreign travel, the budget justification must expressly state that the applicant will not use NIC funds for foreign travel without prior written approval by NIC.**

Below is a sample computation for Travel:

Purpose of Travel	Location	Item	Computation	Cost
State prison visit	Washington DC	Lodging	4 people x \$100 per night x 2 nights	\$800
		Airfare	4 people x \$500 round trip	\$2,000
		Per Diem	4 people x 50 per day x 2.5 days	\$500
Total Travel				\$3,300

(4) Equipment: If authorized, identify all tangible, non-expendable personal property to be purchased that has an acquisition cost of \$5,000 or more per unit and a useful life of more than one year. Equipment also includes accessories and services included with the purchase price necessary for the equipment to be operational. It does not include: (1) equipment planned to be leased/rented; or (2) separate equipment service or maintenance contracts. Details such as the type of equipment, cost and a brief narrative on the intended use of the equipment for project objectives are required. Each item of equipment must be identified with the corresponding cost. Particular brands of equipment should not be identified. General-purpose equipment (office equipment, etc.) must be justified as to how it will be used on the project. (Property items with a unit cost of less than \$5,000 are considered supplies).

(5) Supplies: "Supplies" are tangible property other than "equipment" with a per item acquisition cost of less than \$5,000. Include a brief description of the supplies required to perform the work. Costs should be categorized by major supply categories (e.g. office supplies, computing devices, monitoring equipment) and include the estimated costs by category.

(6) Contractual: List the proposed contractual activities along with a brief description of the scope of work or services to be provided, the proposed duration of the contract/procurement, the estimated cost and the proposed procurement method (competitive or non-competitive). **Any procurement of services from individual consultants or commercial firms (including space for workshops) must comply with the competitive procurement requirements of 2 CFR Part 200.317-200.326.**

Examples of Contractual costs include:

- Consultants – Consultants are individuals with specialized skills who are paid at a daily or hourly rate. Participation in the salary rate (excluding overhead) paid to individual consultants retained by recipients or by a recipient's contractors or subcontractors is limited to the maximum daily rate for a Level IV of the Executive Schedule (formerly GS-18), to be adjusted annually.
- Speaker/Trainer Fees – Information on speakers should include the fee and a description of the services they are providing.

(7) Other: List each item in sufficient detail for NIC to determine the reasonableness of its cost relative to the program solicitation. "Other" items may include equipment rental, telephone service and utilities and photocopying costs. Note that subawards, such as those with other universities or nonprofit research institutions for members of

the research team, are included in this category. Provide the total costs proposed for subawards as a separate line item in the budget justification and brief description of the activities to be supported for each subaward or types of subawards if the subrecipients have not been identified. Subawards may not be used to acquire services from consultants or commercial firms.

Provide the total costs proposed for participant support costs if authorized as a separate line item in the budget justification and brief description of the costs. If NIC funds will be used for foreign travel by program participants, the budget justification must expressly state that the applicant will not use NIC funds for foreign travel without prior approval by NIC.

Indirect costs (IDC) may be budgeted and charged by recipients of Federal assistance agreements in accordance with 2 CFR Part 200. With the exception of “exempt” agencies and Institutions of Higher Education as noted below, all recipients must have one of the following current (not expired) IDC rates, including IDC rates that have been extended by the cognizant agency:

- Provisional;
- Final;
- Fixed rate with carry-forward;
- Predetermined;
- 10% de minimis rate authorized by 2 CFR 200.414(f) [here](#)
- “Exempt” state or local governmental departments or agencies are agencies that receive up to and including \$35,000,000 in Federal funding per the department or agency’s fiscal year, and must have an IDC rate application developed in accordance with 2 CFR 200 Appendix VII, with documentation maintained and available for audit.
- Institutions of Higher Education must use the IDC rate in place at the time of award for the life of the assistance agreement (unless the rate was provisional at time of award, in which case the rate will change once it becomes final). As provided by 2 CFR Part 200, Appendix III(C)(7), the term “life of the assistance agreement”, means each competitive segment of the project.

IDCs incurred during any period of the assistance agreement that are not covered by the provisions above are not allowable costs, and must not be drawn down by the recipient. Recipients may budget for IDCs pending approval of their IDC rate by the cognizant Federal agency. However, recipients may not draw down IDCs until their rate is approved.

Budget Narrative

The budget narrative must thoroughly and clearly describe every category of expense listed in the Budget Detail Worksheet. NIC expects proposed budgets to be complete, cost effective, and allowable (e.g., reasonable, allocable, and necessary for project activities).

Applicants should demonstrate in their budget narratives how they will maximize cost effectiveness of grant expenditures. Budget narratives should generally describe cost effectiveness in relation to potential alternatives and the goals of the project. For example, a budget narrative should detail why planned in-person meetings are necessary, or how technology and collaboration with outside organizations could be used to reduce costs, without compromising quality.

The narrative must be mathematically sound and correspond with the information and figures provided in the Budget Detail Worksheet. The narrative should explain how the applicant estimated and calculated all

costs, and how they are relevant to the completion of the proposed project. The narrative may include tables for clarification purposes but need not be in a spreadsheet format. As with the Budget Detail Worksheet, the Budget Narrative should be broken down by year.

Noncompetitive procurement contracts in excess of simplified acquisition threshold. If an applicant proposes to make one or more non-competitive procurements of products or services, where the noncompetitive procurement will exceed the simplified acquisition threshold (also known as the small purchase threshold), which is currently set at \$250,000, the application should address the considerations outlined in 2 C.F.R.200.317 - 200.316.

Indirect Cost Rate Agreement (if applicable)

Indirect costs are allowed only if the applicant has a current federally approved indirect cost rate, this requirement does not apply to units of local government. Attach a copy of the federally approved indirect cost rate agreement to the application. Applicants that do not have an approved rate may request one through their cognizant federal agency, which will review all documentation and approve a rate for the applicant organization, or, if the applicant's accounting system permits, costs may be allocated in the direct cost categories. Indirect costs may be charged to an award only if: The recipient has a current (unexpired), federally approved indirect cost rate; or the recipient is eligible to use, and elects to use, the "de minimis" indirect cost rate described in the Part 200 Uniform Requirements as set out at 2 C.F.R. 200.414

Tribal Authorizing Resolution

Tribes, tribal organizations, or third parties proposing to provide direct services or assistance to residents on tribal lands should include in their applications a resolution, letter, affidavit, or other documentation, as appropriate, that certifies that the applicant has the legal authority from the tribe(s) to implement the proposed project on tribal lands. In those instances when an organization or consortium of tribes applies for a grant on behalf of a tribe or multiple specific tribes, the application should include appropriate legal documentation, as described above, from all tribes that would receive services or assistance under the award. A consortium of tribes for which existing consortium bylaws allow action without support from all tribes in the consortium (i.e., without an authorizing resolution or comparable legal documentation from each tribal governing body) may submit, instead, a copy of its consortium bylaws with the application.

Applicant Disclosure of High Risk Status

Applicants are to disclose whether they are currently designated high risk by another federal grant making agency. This includes any status requiring additional oversight by the federal agency due to past programmatic or financial concerns. If an applicant is designated high risk by another federal grant making agency, you must submit the following information to at the time of application submission:

- the federal agency that currently designated the applicant as high risk;
- date the applicant was designated high risk;
- the high risk point of contact name, phone number, and email address, from that federal agency; and
- reasons for the high risk status as set out by the federal awarding agency.

NIC seeks this information to ensure appropriate federal oversight of any grant award. Unlike the Excluded Parties List, this high risk information does not disqualify any organization from receiving an NIC award. However, additional oversight may be included, if necessary, in award documentation.

Logic model

Disclosure of Lobbying Activities

All applicants must complete this information. Applicants that expend any funds for lobbying activities are to provide the detailed information requested on the form [Disclosure of Lobbying Activities \(SF-LLL\) Lobbying Form](#). Applicants that do not expend any funds for lobbying activities are to enter “N/A” in the text boxes for item 10 (“a. Name and Address of Lobbying Registrant” and “b. Individuals Performing Services”).

Additional Attachments

Evidence of nonprofit status Proof of 501(c) (3) , e.g., a copy of the tax exemption letter from the Internal revenue Service, if applicable. Evidence of for-profit status, e.g., a copy of the articles of incorporation, if applicable.

Applicants should submit the following information, as stipulated in the cited pages, as attachments to their applications. While the materials listed below are not assigned specific point values, peer reviewers will, as appropriate, consider these items when rating applications. For example, reviewers will consider résumés and/or letters of support/ memoranda of understanding when assessing “capabilities / competencies.” Peer reviewers will not consider any additional information that the applicant submits other than that specified below.

Applicant disclosure of pending applications. Applicants are to disclose whether they have pending applications for federally funded grants or subawards (including cooperative agreements) that include requests for funding to support the same project being proposed under this solicitation and will cover the identical cost items outlined in the budget narrative and worksheet in the application under this solicitation. The disclosure should include both direct applications for federal funding (e.g., applications to federal agencies) and indirect applications for such funding (e.g., applications to state agencies that will subaward federal funds).

NIC seeks this information to help avoid any inappropriate duplication of funding. Leveraging multiple funding sources in a complementary manner to implement comprehensive programs or projects is encouraged and is not seen as inappropriate duplication.

Applicants that have pending applications as described above are to provide the following information about pending applications submitted within the last 12 months:

- the federal or state funding agency;
- the solicitation name/project name; and
- the point of contact information at the applicable funding agency.

SAMPLE

Federal or State Funding Agency	Solicitation Name/Project Name	Name/Phone/E-mail for Point of Contact at Funding Agency
DOJ/COPS	COPS Hiring Program	John Doe 202-000-0000 John.doe@doj.gov
HHS/Substance Abuse	Drug Free Mentoring Program	Jane Doe 202-000-000 Jane.doe@doj.gov

Applicants should include the table as a separate attachment, with the file name “Disclosure of Pending Applications,” to their application.

Applicants that do not have pending applications as described above are to include a statement to this effect in the separate attachment page (e.g., “[Applicant Name on SF-424] does not have pending applications submitted within the last 12 months for federally funded grants or subawards (including cooperative agreements) that include requests for funding to support the same project being proposed under this solicitation and will cover the identical cost items outlined in the budget narrative and worksheet in the application under this solicitation.”).

How to Apply

Applicants must register in and submit applications through Grants.gov, a “one-stop storefront” to find federal funding opportunities and apply for funding. Find complete instructions on how to register and submit an application [here](#). Applicants that experience technical difficulties during this process should call the Grants.gov Customer Support Hotline at 800-518-4726 or 606-545-5035, 24 hours a day, 7 days a week, except federal holidays.

Registering with Grants.gov

A one-time process; however, processing delays may occur, and it can take several weeks for first-time registrants to receive confirmation and a user password. NIC encourages applicants to register several weeks before the application submission deadline. In addition, NIC urges applicants to submit applications 72 hours prior to the application due date to allow time to receive validation messages or rejection notifications from Grants.gov, and to correct in a timely fashion any problems that may have caused a rejection notification.

NIC strongly encourages all prospective applicants to sign up for Grants.gov email notifications regarding this solicitation <https://www.grants.gov/web/grants/manage-subscriptions.html>. If this solicitation is cancelled or modified, individuals who sign up with Grants.gov for updates will be automatically notified.

Browser Information

Grants.gov was built to be compatible with Internet Explorer. For technical assistance with Google Chrome, or another browser, contact Grants.gov Customer Support.

Attachments

Grants.gov has two categories of files for attachments: “mandatory” and “optional.” NIC receives all files attached in both categories. Attachments are also labeled to describe the file being attached (e.g., Project Narrative, Budget Narrative, Other) and are labeled correctly. Do not embed “mandatory” attachments within another file.

File Names and File Types

Grants.gov only permits the use of certain specific characters in names of attachment files. Valid file names may include only the characters shown in the table below. Grants.gov is designed to reject any application that includes an attachment(s) with a file name that contains any characters not shown in the table below.

Characters	Special Characters		
Upper case (A – Z)	Parenthesis ()	Curly braces { }	Square brackets []
Lower case (a – z)	Ampersand (&)	Tilde (~)	Exclamation point (!)
Underscore (_)	Comma (,)	Semicolon (;)	Apostrophe (‘)
Hyphen (-)	At sign (@)	Number sign (#)	Dollar sign (\$)
Space	Percent sign (%)	Plus sign (+)	Equal sign (=)
Period (.)	When using the ampersand (&) in XML, applicants must use the “&” format.		

All applicants are required to complete the following steps:

NIC may not make a federal award to an applicant until the applicant has complied with all applicable SAM registration requirements. If an applicant has not fully complied with the requirements by the time the federal awarding agency is ready to make a federal award, the federal awarding agency may determine that the applicant is not qualified to receive a federal award and use that determination as a basis for making a federal award to another applicant.

Acquire and maintain registration with the System for Award Management (SAM).

SAM is the repository for standard information about federal financial assistance applicants, recipients, and subrecipients.

Applicants must maintain an active SAM registration with current information, including information on a recipient's immediate and highest level owner and subsidiaries, as well as on all predecessors that have been awarded a Federal contract or grant within the last three years, if applicable, at all times during which it has an active Federal award or an application or plan under consideration by a Federal awarding agency; and provide its unique entity identifier in each application or plan it submits to the Federal awarding agency.

Applicants must be registered in SAM to successfully register in Grants.gov, failure to register with SAM will prevent your organization from applying through Grants.gov. Applicants must continue to maintain an active SAM registration with current information at all times in which it has an active Federal award or an application or plan under consideration by a Federal awarding agency.

Information regarding SAM registration and Federal awards can be found in the CFR (Title 2/Subtitle A/Chapter I/Part 25): <https://www.ecfr.gov/on/2022-03-18/title-2/subtitle-A/chapter-I/part-25>

Applicants cannot successfully submit their applications until Grants.gov receives the SAM registration information. The information transfer from SAM to Grants.gov can take as long as 48 hours. NIC recommends that the applicant register or renew registration with SAM as early as possible. NIC may not make a Federal award to an applicant until the applicant has complied with all applicable unique entity identifier and SAM requirements and, if an applicant has not fully complied with the requirements by the time the federal awarding agency is ready to make a Federal award, NIC may determine that the applicant is not qualified to receive a Federal award and may make an award to another applicant.

Unique Entity Identifier (UEI) Update:

<https://www.gsa.gov/about-us/organization/federal-acquisition-service/office-of-systems-management/integrated-award-environment-iae/iae-systems-information-kit/unique-entity-identifier-update>

Access information about SAM registration procedures [here](#).

NOTE: As of April 4, 2022, it is no longer required to obtain a register and obtain DUNS number.

Click [here](#) for further details SAM, and Grants.gov registration steps and timeframes.

Submission Dates and Times

All applications are due: 11:59pm, May 1, 2023.

Acquire an Authorized Organization Representative (AOR) and a Grants.gov username and password

Complete the AOR profile on Grants.gov and create a username and password. For more information about the registration process, go [here](#).

Acquire confirmation for the AOR from the E-Business Point of Contact (E-Biz POC). The E-Biz POC at the applicant organization must log into Grants.gov to confirm the applicant organization's AOR. When applications are submitted through Grants.gov, the name of the organization's AOR that submitted the application is inserted into the signature line of the application, serving as the electronic signature. The EBiz POC must authorize individuals who are able to make legally binding commitments on behalf of the organization as an AOR; this step is often missed and it is crucial for valid and timely submissions.

Search for the funding opportunity on Grants.gov

Use the following identifying information when searching for the funding opportunity on Grants.gov. The Catalog of Federal Domestic Assistance number for this solicitation is 16.601 and the funding opportunity number is NIC-23JD13.

Access Funding Opportunity and Application package from Grants.gov. Select "Apply for Grants" under the "Applicants" column. Enter your email address to be notified of any changes to the opportunity package before the closing date. Click the Workspace icon to use Grants.gov Workspace.

Submit a valid application consistent with this solicitation by following the directions in Grants.gov. Within 24–48 hours after submitting the electronic application, the applicant should receive two notifications from Grants.gov. The first will confirm the receipt of the application and the second will state whether the application has been successfully validated, or rejected due to errors, with an explanation. It is possible to first receive a message indicating that the application is received and then receive a rejection notice a few minutes or hours later. Submitting well ahead of the deadline provides time to correct the problem(s) that caused the rejection. **Important:** NIC urges applicants to submit applications at least 72 hours prior to the application due date to allow time to receive validation messages or rejection notifications from Grants.gov, and to correct in a timely fashion any problems that may have caused a rejection notification.

How to Submit an Application to the National Institute of Corrections via Grants.gov

Grants.gov applicants can apply online using Workspace

Workspace is a shared, online environment where members of a grant team may simultaneously access and edit different webforms within an application. For each funding opportunity announcement (FOA), you can create individual instances of a workspace.

Below is an overview of applying on Grants.gov. For access to complete instructions on how to apply for opportunities, refer to: <https://www.grants.gov/web/grants/applicants/workspace-overview.html>

- **Create a Workspace:** Creating a workspace allows you to complete it online and route it through your organization for review before submitting.
- **Complete a Workspace:** Add participants to the workspace to work on the application together, complete all the required forms online or by downloading PDF versions, and check for errors

before submission. The Workspace progress bar will display the state of your application process as you apply. As you apply using Workspace, you may click the blue question mark icon near the upper-right corner of each page to access context-sensitive help.

- *Adobe Reader:* If you decide not to apply by filling out webforms you can download individual PDF forms in Workspace. The individual PDF forms can be downloaded and saved to your local device storage, network drive(s), or external drives, then accessed through Adobe Reader. NOTE: Visit the Adobe Software Compatibility page on Grants.gov to download the appropriate version of the software at: <https://www.grants.gov/web/grants/applicants/adobe-software-compatibility.html>
- *Mandatory Fields in Forms:* In the forms, you will note fields marked with an asterisk and a different background color. These fields are mandatory fields that must be completed to successfully submit your application.
- *Complete SF-424 Fields First:* The forms are designed to fill in common required fields across other forms, such as the applicant name, address, and UEI (Unique Entity Identifier). Once it is completed, the information will transfer to the other forms.
- *Submit a Workspace:* An application may be submitted through workspace by clicking the Sign and Submit button on the Manage Workspace page, under the Forms tab. Grants.gov recommends submitting your application package at least 24-48 hours prior to the close date to provide you with time to correct any potential technical issues that may disrupt the application submission.
- *Track a Workspace Submission:* After successfully submitting a workspace application, a Grants.gov Tracking Number (GRANTXXXXXXXX) is automatically assigned to the application. The number will be listed on the Confirmation page that is generated after submission. Using the tracking number, access the Track My Application page under the Applicants tab or the Details tab in the submitted workspace.

For additional training resources, including video tutorials, refer to:
<https://www.grants.gov/web/grants/applicants/applicant-training.html>

Applicant Support

Grants.gov provides applicants 24/7 support via the toll-free number 1-800-518-4726 and email at support@grants.gov. For questions related to the specific grant opportunity, contact the number listed in the application package of the grant you are applying for. If you are experiencing difficulties with your submission, it is best to call the Grants.gov Support Center and get a ticket number. The Support Center ticket number will assist the National Institute of Corrections with tracking your issue and understanding background information on the issue.

Timely Receipt Requirements and Proof of Timely Submission

Online Submission. All applications must be received by 11:59 pm Eastern time on the due date established for each program. Proof of timely submission is automatically recorded by Grants.gov. An electronic date/time stamp is generated within the system when the application is successfully received by Grants.gov. The applicant with the AOR role who submitted the application will receive an acknowledgement of receipt and a tracking number (GRANTXXXXXXXX) from Grants.gov with the successful transmission of their application. This applicant with the AOR role will also receive the official date/time stamp and Grants.gov Tracking number in an email serving as proof of their timely submission.

When the National Institute of Corrections successfully retrieves the application from Grants.gov, and acknowledges the download of submissions, Grants.gov will provide an electronic acknowledgment of receipt of the application to the email address of the applicant with the AOR role who submitted the application. Again, proof of timely submission shall be the official date and time that Grants.gov receives your application. Applications received by Grants.gov after the established due date for the program will be considered late and will not be considered for funding by the National Institute of Corrections. Applicants using slow internet, such as dial-up connections, should be aware that transmission can take some time before Grants.gov receives your application. Again, Grants.gov will provide either an error or a successfully received transmission in the form of an email sent to the applicant with the AOR role attempting to submit the application. The Grants.gov Support Center reports that some applicants end the transmission because they think that nothing is occurring during the transmission process. Please be patient and give the system time to process the application.

Duplicate applications

If an applicant submits multiple versions of the same application, NIC will review only the most recent system-validated version submitted. See Note on File Names and File Types under [How To Apply](#).

Experiencing Unforeseen Grants.gov Technical Issues

Applicants that experience unforeseen Grants.gov technical issues beyond their control that prevent them from submitting their application by the deadline must contact the Grants.gov [Customer Support Hotline](#) or the [SAM Help Desk](#) to report the technical issue and receive a tracking number. The applicant must e-mail the Response Center at BOP-NIC/General@bop.gov within 24 hours after the application deadline and request approval to submit their application. The e-mail must describe the technical difficulties, and include a timeline of the applicant's submission efforts, the complete grant application, the applicant's UEI number, and any Grants.gov Help Desk or SAM tracking number(s). Note: NIC does not automatically approve requests. After the program office reviews the submission and contacts the Grants.gov or SAM Help Desks to validate the reported technical issues, NIC will inform the applicant whether the request to submit a late application has been approved or denied. If NIC determines that the applicant failed to follow all required procedures, which resulted in an untimely application submission, NIC will deny the applicant's request to submit their application.

The following conditions are insufficient to justify late submissions:

- failure to register in SAM or Grants.gov in sufficient time; (SAM registration and renewal can take as long as 10 business days to complete. The information transfer from SAM to Grants.gov can take up to 48 hours.)
- failure to follow Grants.gov instructions on how to register and apply as posted on its website;
- failure to follow each instruction in the NIC solicitation; and
- technical issues with the applicant's computer or information technology environment, including firewalls.

Notifications regarding known technical problems with Grants.gov, if any, are posted on [NIC](#)'s website.

E. Application Review Information

Selection Criteria

The following three (3) selection review criteria will be used to evaluate each application, with the different weight given to each based on the percentage value listed after each individual criteria. For

example, the first criteria, Programmatic Review, is worth 40 percent of the entire score in the application review process.

Programmatic Review (40)

- Project tasks adequately discussed?
- Clear statement of how each task will be accomplished?
- New approaches, techniques, or design aspects to enhance the project?

Organizational Review (35)

- Skills of the proposed project members.
- Organizational capacity to complete all project tasks.
- Realistic and sufficient project and management plans to complete within the time frame.

Management/Administrative Review (25)

- Identification of reasonable objectives.
- Reasonable justification for inclusion of consultants or partnerships if used.
- Realistic budget proposed.

See section What an Application Should Include for the criteria that the peer reviewers will use to evaluate applications.

Review Process

NIC is committed to ensuring a fair and open process for awarding grants. NIC reviews the application to make sure that the information presented is reasonable, understandable, measurable, and achievable, as well as consistent with the solicitation.

Peer reviewers will review the applications submitted under this solicitation that meet basic minimum requirements. For purposes of assessing whether applicants have met basic minimum requirements, NIC screens applications for compliance with specified program requirements to help determine which applications should proceed to further consideration for award. Although program requirements may vary, the following are common requirements applicable to all solicitations for funding under NIC grant programs:

- Applications must be submitted by an eligible type of applicant.
- Applications must request funding within programmatic funding constraints (if applicable).
- Applications must be responsive to the scope of the solicitation.
- Applications must include all items designated as “critical elements”.
- Applicants will be checked against the General Services Administration’s Excluded Parties List.

For a list of critical elements, see “What an Application Should Include” under Section D. Application and Submission Information.

NIC may use internal peer reviewers, external peer reviewers, or a combination, to assess applications meeting basic minimum requirements on technical merit using the solicitation’s selection criteria. An external peer reviewer is an expert in the subject matter of a given solicitation who is not a current DOJ employee. An internal reviewer is a current NIC employee who is well-versed or has expertise in the subject matter of this solicitation. A peer review panel will evaluate, score, and rate applications that meet basic minimum requirements. Peer reviewers’ ratings and any resulting recommendations are advisory only, although their views are considered carefully. In addition to peer review ratings, considerations for award recommendations and decisions may include, but are not limited to, underserved populations,

geographic diversity, strategic priorities, past performance under prior NIC and NIC awards, and available funding.

NIC reviews applications for potential discretionary awards to evaluate the risks posed by applicants before they receive an award. This review may include but is not limited to the following:

- Financial stability and fiscal integrity.
- Quality of management systems and ability to meet the management standards prescribed in the Financial Guide.
- History of performance.
- Reports and findings from audits.
- The applicant's ability to effectively implement statutory, regulatory, or other requirements imposed on non-Federal entities.
- Proposed costs to determine if the Budget Detail Worksheet and Budget Narrative accurately explain project costs, and whether those costs are reasonable, necessary, and allowable under applicable federal cost principles and agency regulations.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the NIC Director, who may consider factors including, but not limited to, peer review ratings, underserved populations, geographic diversity, strategic priorities, past performance under prior NIC awards, and available funding when making awards.

F. Federal Award Administration Information

Federal Award Notices

NIC award notification will be sent from NIC's Office via E-mail, FedEx or USPS within 45 days of the award decision.

Modification, Remedies for Noncompliance, Termination

This Agreement may be modified only by a written instrument executed by the parties. Modifications will be in writing and approved by the Senior Deputy Director/Deputy Director and the authorized representative of the awardee/recipient.

Additional conditions may be imposed by NIC if it is determined that the awardee is non-compliant to the terms and conditions of this agreement. Remedies for Noncompliance can be found in 2 CFR § 200.338.

This Agreement may be terminated consistent with applicable termination provisions for Agreements found in 2 CFR §§ 200.339 through 200.342.

If a termination is due to the awardee's material failure to comply with applicable Federal statutes, regulations, or the terms and conditions of this Federal award, the NIC will issue a written notification to the awardee of NIC's intent to terminate the agreement for material noncompliance in accordance with 2 C.F.R. § 200.340. A notice of NIC's intent to terminate the award for material noncompliance may be appealed to the NIC Director of the NIC within 30 calendar days of receiving the notice. The awardee may provide information and documentation challenging the termination action. The filing of an appeal with the NIC Director shall not stay any determination or action taken by NIC which is the subject of the appeal. Consistent with its obligation to protect the interests of the Federal Government, NIC may take such authorized actions as may be necessary to preserve the status quo pending decision by the NIC

Director, or to preserve its ability to provide relief in the event the NIC Director decides in favor of the appellant. The decision of the NIC Director shall be the final decision of the NIC.

Rights in Data

The awardee must grant the Federal Bureau of Prisons, including the NIC, a royalty-free, non-exclusive and irrevocable license to publish, reproduce and use, and dispose of in any manner and for any purpose without limitation, and to authorize or ratify publication, reproduction or use by others, of all copyrightable material, or any subsequently trademarked titles, phrases, words, or symbols first produced or composed under this Agreement by the awardee, its employees or any individual or concern specifically employed or assigned to originate and prepare such material.

Payments

Under this agreement payments will be made in accordance with 2 C.F.R. § 200.305. Pursuant to 2 C.F.R. § 200.305(b)(6), NIC may withhold payments for allowable costs as a remedy for noncompliance in accordance with 2 C.F.R. § 200.338, or if one or more of the circumstances in 2 C.F.R. § 200.305(b)(6)(i) through (iv) apply, which includes the awardee's failure to comply with the project objectives, Federal statutes, regulations, or the terms and conditions of this agreement.

Awardee/Recipient Employee Whistleblower Rights and Requirement to Inform Employees of Whistleblower Rights

This award and employees working on this financial assistance agreement will be subject to the whistleblower rights and remedies in the pilot program on Award Recipient employee whistleblower protections established at 41 U.S.C. 4712 by section 828 of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-239).

The Award Recipient shall inform its employees in writing, in the predominant language of the workforce, of employee whistleblower rights and protections under 41 U.S.C. 4712.

The Award Recipient shall insert the substance of this clause in all subawards or subcontracts over the simplified acquisition threshold.

Conflict of Interest

The awardee must establish safeguards to prohibit its employees and Subrecipients from using their positions for purposes that constitute or present the appearance of a personal or organizational conflict of interest. The awardee is responsible for notifying the Awarding Officer in writing of any actual or potential conflicts of interest that may arise during the life of this award. Conflicts of interest include any relationship or matter which might place the awardee or its employees in a position of conflict, real or apparent, between their responsibilities under the agreement and any other outside interests. Conflicts of interest may also include, but are not limited to, direct or indirect financial interests, close personal relationships, positions of trust in outside organizations, consideration of future employment arrangements with a different organization, or decision-making affecting the award that would cause a reasonable person with knowledge of the relevant facts to question the impartiality of the awardee and/or awardee's employees and Subrecipients in the matter.

The Awarding Officer and the servicing Ethics Counselor will determine if a conflict of interest exists. If a conflict of interest exists, the Awarding Officer will determine whether a mitigation plan is feasible. Mitigation plans must be approved by the Awarding Officer in writing.

Failure to resolve conflicts of interest in a manner that satisfies the government may be cause for termination of the award. Failure to make required disclosures may result in any of the remedies

described in 2 CFR § 200.338, Remedies/or Noncompliance, including suspension or debarment (see also 2 CFR Part 180).

Administrative, National Policy, and Other Legal Requirements

If selected for funding, in addition to implementing the funded project consistent with the agency-approved project proposal and budget, the recipient must comply with award terms and conditions, and other legal requirements, including but not limited to OMB or other federal regulations that will be included in the award, incorporated into the award by reference, or are otherwise applicable to the award. NIC strongly encourages prospective applicants to review the information pertaining to these requirements prior to submitting an application.

As stated above, NIC anticipates that it will make any award from this solicitation in the form of a cooperative agreement. Cooperative agreement awards include standard “federal involvement” conditions that describe the general allocation of responsibility for execution of the funded program. Generally-stated, under cooperative agreement awards, responsibility for the day-to-day conduct of the funded project rests with the recipient in implementing the funded and approved proposal and budget, and the award terms and conditions.

Responsibility for oversight and redirection of the project, if necessary, rests with NIC. NIC's role will include the following tasks:

- reviewing and approving major work plans, including changes to such plans, and key decisions pertaining to project operations;
- reviewing and approving major project-generated documents and materials used in the provision of project services; and
- providing guidance in significant project planning meetings and participating in project sponsored training events or conferences.

In addition to any “federal involvement” condition(s), NIC cooperative agreement awards include a special condition specifying certain reporting requirements required in connection with conferences, meetings, retreats, seminars, symposium, training activities, or similar events funded under the award, consistent with NIC policy and guidance on conference approval, planning, and reporting.

Plain Language

The successful applicant shall ensure that relevant deliverables (with information regarding a service, benefit, or requirement provided by the government) conform to the Plain Writing Act of 2010, meaning that it should contain only writing that is clear and that outlines information in manner that is easy to use. (See <http://www.nicic.gov/plainlanguage> and <https://plainlanguage.gov/law/> for details.) Relevant deliverables covered by this award will be determined in collaboration with the National Institute of Corrections.

Section 508 Accessibility

The successful applicant shall ensure that all information and communication technologies (ICT) (e.g., Word or PDF documents, video, audio, mobile technologies, or apps) fully conform to all applicable revised Section 508 standards prior to delivery and before final acceptance. See <https://www.section508.gov/>

The successful applicant shall test and validate all ICT in accordance with the required testing methods.

For Microsoft Office and PDF documents, WCAG Level A and AA Conformance test results must be based on the Harmonized Testing Guidance from the AED ACOP (see <http://www.nicic.gov/section508> and [Test for Accessibility | Section508.gov](#) for details).

Electronic and Information Technology: All electronic and information technology acquired or created through this cooperative agreement must satisfy the accessibility requirements of Section 508 of the Rehabilitation Act <https://www.section508.gov/>

Create Accessible Documents
<https://www.section508.gov/create/documents>

Create Accessible PDF's
<https://www.section508.gov/create/pdfs>

WCAG: Web Content Accessibility Guidelines
<http://www.w3.org/WAI/WCAG21/quickref/?versions=2.0>

ICT: Information and Communication Technology Standards and Guidelines
<https://www.access-board.gov/guidelines-and-standards/communications-and-it/about-the-ict-refresh/final-rule>

Checklist of Requirements for Federal Websites and Digital Services
<https://digital.gov/resources/checklist-of-requirements-for-federal-digital-services/>

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act (PRA), Cooperative Agreement awardee shall not proceed with collecting information from surveys, questionnaires, or interviews until Project Monitor obtains approval from Office of Management and Budget clearance. For any Cooperative Agreement award involving a requirement to collect or record information calling either for answers to identical questions from 10 or more persons other than Federal employees, or information from Federal employees which is outside the scope of their employment, for use by the Federal Government or disclosure to third parties, the Cooperative Agreement awardee must comply with the PRA of 1995 (44 U.S.C. 3501et seq.).

General Information about Post-Federal Award Reporting Requirements

Recipients must submit quarterly financial reports, semi-annual progress reports, final financial and progress reports, and, if applicable, an annual audit report in accordance with 2 CFR 200. Future awards and fund drawdowns may be withheld if reports are delinquent.

Special Reporting requirements may be required by NIC depending on the statutory, legislative or administrative obligations of the recipient or the program.

G. Federal Awarding Agency Contact(s)

For Federal Awarding Agency Contact(s), see the title page. For contact information for Grants.gov, see the title page.

H. Other Information

Provide Feedback to NIC

To assist NIC in improving its application and award processes, we encourage applicants to provide feedback on this solicitation, the application submission process, and/or the application review/peer review process. Provide feedback to BOP-NIC/General@bop.gov

IMPORTANT: This e-mail is for feedback and suggestions only. Replies are not sent from this mailbox. If you have specific questions on any program or technical aspect of the solicitation, you must directly contact the e-mail listed on the front of this solicitation document. These contacts are provided to help ensure that you can directly reach an individual who can address your specific questions in a timely manner.

Application Checklist

NIC FY 2023 New Jail Planning Initiative

This application checklist has been created to assist in developing an application.
What an Applicant Should Do:

Prior to Registering in Grants.gov:

_____ Acquire or renew registration with [SAM](#)

To Register with Grants.gov:

_____ Acquire AOR and Grants.gov username/password

_____ Acquire AOR confirmation from the E-Biz POC

To Find Funding Opportunity:

_____ Search for the Funding Opportunity on Grants.gov

_____ Download Funding Opportunity and Application Package

_____ Sign up for Grants.gov email notifications (optional)

After application submission, receive Grants.gov email notifications that:

_____ (1) application has been received,

_____ (2) application has either been validated or rejected

If no Grants.gov receipt, and validation or error notifications are received: contact NIC regarding experiencing technical difficulties

Scope Requirement:

_____ *The federal amount requested is within the allowable limit(s) of \$350,000.00.

Eligibility Requirement:

_____ Nonprofit or for-profit organization, including tribal nonprofit or for-profit organization.

_____ Institution of higher education, including tribal institution of higher education.

What an Application Must Include:

_____ *Application for Federal Assistance (SF-424)

_____ *Project Abstract

_____ *Program Narrative

_____ *Budget Detail Worksheet

_____ *Budget Narrative justification

_____ *Disclosure of Lobbying Activities (SF-LLL)

_____ *logic model

_____ *Indirect Cost Rate Agreement (if applicable)

_____ Tribal Authorizing Resolution (if applicable)

_____ Applicant Disclosure of High Risk Status

Additional Attachments:

_____ Applicant Disclosure of Pending Applications

_____ *VPAT (Voluntary Product Accessibility Template)

_____ *timeline or milestone chart

_____ *résumés of all key personnel

_____ job descriptions outlining roles and responsibilities for all key positions

_____ letters of support/memoranda of understanding from partner organizations

_____ evidence of nonprofit status, e.g., a copy of the tax exemption letter from the Internal Revenue Service, if applicable.

_____ evidence of for-profit status, e.g., a copy of the articles of incorporation, if applicable.

_____ Employee Compensation Waiver request

*Note: These elements are the basic minimum requirements for applications. Applications that do not include these elements shall neither proceed to peer review nor receive further consideration by the National Institute of Corrections.
